Penn Station Access

CONSTRUCTION BULLETIN

November 2026

Penn Station Access is a critical transportation equity project which will improve reliability, reduce travel time, and expand mass transit options throughout the region.

Changes in Traffic Pattern on Eastchester Road near Bassett Avenue

The Penn Station Access Project will need to modify the traffic pattern and parking on Eastchester Road, near Bassett Avenue, to continue our replacement of the Eastchester Road Bridge track and structure.

Beginning on or about November 24, 2026, southbound traffic will be shifted to the northbound lanes. One travel lane will be maintained in each direction. Pedestrian access will be maintained on the east side of the street; the sidewalk will be closed on the west side (southbound) where traffic is closed. The parking lane will remain closed on both sides. This traffic pattern is anticipated to be in place through spring of 2027.

We will continue to update the community as traffic patterns shift to accommodate work at this location. We appreciate your understanding and patience while we advance this vital transit project.
