

Table of Contents

Foreword	F-1
Executive Summary	S-1
1: Project Purpose and Need	1-1
A. Introduction and Identification of Proposed Action	1-1
B. Purpose and Need for the 50th Street Facility	1-2
Overview: East Side Access Project	1-2
Project History.....	1-3
Purpose and Need for the Proposed 50th Street Facility	1-4
Need for Normal and Emergency Ventilation, and Loading Dock for Deliveries and Waste Removal.....	1-4
Reasons for Design Modifications Since FEIS	1-4
Locational/Siting Criteria for Different Project Elements.....	1-7
2: Project Alternatives	2-1
A. Introduction.....	2-1
B. Design History	2-1
C. Alternative A (No Action Alternative)	2-5
Normal and Emergency Ventilation of Concourse and Tunnels.....	2-5
Goods Movement and Waste Removal.....	2-6
Cooling of Terminal	2-6
D. Alternative B (50th Street Facility Without Through Drive).....	2-6
Ventilation of Concourse, Caverns, and Tunnels	2-7
Goods Movement and Waste Removal	2-9
Cooling of Terminal	2-10
Emergency Generators and Electrical Substations.....	2-10
E. Alternative C (50th Street Facility With Through Drive).....	2-13
Ventilation of Concourse and Tunnels	2-14
Cooling of Terminal	2-14
Goods Movement and Waste Removal.....	2-14
Emergency Generators and Electrical Substations.....	2-14
F. Preferred Alternative D (50th Street Facility With Through Drive and Public Open Space).....	2-15
Ventilation of Concourse, Caverns, and Tunnels.....	2-17
Goods Movement and Waste Removal	2-17
Cooling of Terminal	2-17
Emergency Generators and Electrical Substations.....	2-18
New Public Open Space	2-18

50th Street Facility Revised Supplemental Environmental Assessment

G. Other Alternatives Considered but Eliminated 2-20
 Alternative Locations for Generators 2-21
 Alternative Power Supply 2-22
 Loading Dock 2-22
 Ventilation Facilities..... 2-23
H. Summary of Reasonable Alternatives 2-26

3: Land Use, Zoning and Public Policy, and Social Conditions 3-1

A. Introduction 3-1
B. Existing Conditions 3-1
 Land Use..... 3-1
 Project Site..... 3-1
 Study Area 3-2
 Zoning and Public Policy 3-3
 Project Site..... 3-3
 Study Area 3-4
 Neighborhood Character..... 3-5
 Community Facilities 3-5
C. Alternative A (No Action Alternative)..... 3-5
 Land Use..... 3-5
 Zoning and Public Policy 3-6
 Neighborhood Character..... 3-6
 Community Facilities 3-6
D. Probable Impacts of the Build Alternatives 3-6
 Alternative B (50th Street Facility Without Through Drive)..... 3-6
 Land Use..... 3-6
 Zoning and Public Policy..... 3-7
 Neighborhood Character..... 3-11
 Community Facilities..... 3-11
 Alternative C (50th Street Facility With Through Drive)..... 3-12
 Land Use 3-12
 Zoning and Public Policy..... 3-12
 Neighborhood Character..... 3-12
 Community Facilities..... 3-13
 Preferred Alternative D (50th Street Facility With Through Drive and
 Public Open Space) 3-13
 Land Use..... 3-13
 Zoning and Public Policy..... 3-13
 Neighborhood Character..... 3-14
 Community Facilities..... 3-14
Conclusions 3-14

4: Socioeconomic Conditions	4-1
A. Introduction.....	4-1
B. Existing Conditions.....	4-1
Project Site	4-1
Study Area.....	4-2
C. Alternative A (No Action Alternative)	4-3
D. Probable Impacts of Build Alternatives	4-3
Alternative B (50th Street Facility Without Through Drive)	4-3
Direct Displacement	4-3
Effects of Facility on Surrounding Area	4-4
Alternative C (50th Street Facility With Through Drive)	4-5
Direct Displacement	4-5
Effects of Facility on Surrounding Area	4-5
Preferred Alternative D (50th Street Facility With Through Drive and Public Open Space)	4-6
Direct Displacement	4-6
Effects of Facility on Surrounding Area	4-6
Conclusions	4-7
E. Compensation and Relocation Assistance	4-7
Protection Under the Eminent Domain Procedure Law	4-8
Protection Under the Federal Uniform Relocation Act.....	4-8
Relocation and Moving Expenses for Businesses	4-9
Re-Establishment of Businesses.....	4-9
Fixed Payment for Moving Expenses for Businesses	4-10
Residential Relocation Assistance for Property Owners.....	4-10
Resident Relocation Assistance for Tenants and Certain Others	4-11
5: Visual and Aesthetic Considerations	5-1
A. Introduction and Methodology	5-1
B. Existing Conditions.....	5-1
Project Site	5-1
Urban Design.....	5-1
Visual Resources, Viewer Groups, and View Durations	5-2
Study Area.....	5-3
Urban Design.....	5-3
Visual Resources, Viewer Groups, and View Durations	5-7
Alternative A (No Action Alternative).....	5-10
C. Probable Impacts of Build Alternatives	5-10
Alternative B (50th Street Facility Without Through Drive)	5-10
Project Site	5-10
Study Area.....	5-11
Alternative C (50th Street Facility With Through Drive)	5-13
Project Site	5-13
Study Area.....	5-14
Preferred Alternative D (50th Street Facility With Through Drive and Public Open Space)	5-15

50th Street Facility Revised Supplemental Environmental Assessment

Project Site.....	5-15
Study Area	5-16
Conclusions	5-16
6: Historic Resources	6-1
A. Introduction	6-1
Regulatory Context.....	6-2
National Historic Preservation Act (Section 106)	6-2
Section 4(f) of the Federal Department of Transportation Act.....	6-3
State Historic Preservation Act.....	6-3
Methodology.....	6-3
B. Existing Conditions.....	6-4
Archaeological Resources	6-4
Potential Precontact Resources.....	6-4
Potential Historic-Period Resources	6-5
Architectural Resources.....	6-6
Project Site.....	6-6
Study Area	6-6
C. Alternative A (No Action Alternative).....	6-8
Archaeological Resources	6-9
Architectural Resources.....	6-9
D. Probable Impacts of the Build Alternatives	6-9
Alternative B (50th Street Facility Without Through Drive).....	6-9
Archaeological Resources.....	6-9
Architectural Resources.....	6-10
Alternative C (50th Street Facility With Through Drive).....	6-11
Archaeological Resources.....	6-11
Architectural Resources.....	6-11
Preferred Alternative D (50th Street Facility With Through Drive and Public Open Space)	6-12
Archaeological Resources.....	6-12
Architectural Resources.....	6-12
Conclusions	6-13
E. Section 4(f) Evaluation.....	6-13
7: Traffic and Transportation	7-1
A. Introduction	7-1
B. Existing Conditions.....	7-1
Traffic and Parking	7-1
Thru Streets Program.....	7-1
East 50th Street	7-1
East 49th Street	7-3
Transit.....	7-5
Pedestrian Conditions	7-5
C. Alternative A (No Action Alternative).....	7-5

D. Probable Impacts of Build Alternatives	7-6
Alternative B (50th Street Facility Without Through Drive)	7-6
Traffic and Parking.....	7-6
Transit.....	7-10
Pedestrians.....	7-10
Alternative C (50th Street Facility With Through Drive)	7-10
Preferred Alternative D (50th Street Facility With Through Drive and Public Open Space)	7-12
Conclusions	7-13
8: Air Quality	8-1
A. Introduction.....	8-1
Pollutants for Analysis	8-1
Carbon Monoxide.....	8-1
Nitrogen Oxides, VOCs, and Ozone	8-1
Lead.....	8-1
Respirable Particulate Matter—PM ₁₀ and PM _{2.5}	8-2
Sulfur Dioxide	8-2
Air Quality Standards and Regulations	8-2
National and State Air Quality Standards	8-2
State Implementation Plan (SIP)	8-3
B. Existing Conditions.....	8-5
C. Alternative A (No Action Alternative)	8-5
D. Probable Impacts of Build Alternatives	8-6
Alternative B (50th Street Facility Without Through Drive)	8-6
Mobile Source Emissions	8-6
Stationary Source Emissions	8-7
Transportation Conformity	8-11
Odors	8-11
Alternative C (50th Street Facility With Through Drive)	8-11
Preferred Alternative D (50th Street Facility With Through Drive and Public Open Space)	8-12
Conclusions	8-12
9: Noise and Vibration.....	9-1
A. Introduction.....	9-1
B. Methodology	9-1
Noise Fundamentals and Terminology	9-1
“A”-Weighted Sound Level (dBA)	9-1
Community Response to Changes in Noise Levels.....	9-2
Noise Descriptors Used in Impact Assessment	9-3
FTA Impact Noise Criteria.....	9-4
Noise Analysis Methodology	9-5
C. Existing Conditions.....	9-6
Noise Monitoring	9-6
Results of Baseline Measurements.....	9-7
D. Alternative A (No Action Alternative)	9-9

50th Street Facility Revised Supplemental Environmental Assessment

E. Probable Impacts of Build Alternatives 9-9
 Alternative B (50th Street Facility Without Through Drive)..... 9-9
 Projected Operating Conditions..... 9-9
 Predicted Future Noise Levels..... 9-10
 Alternative C (50th Street Facility With Through Drive)..... 9-14
 Preferred Alternative D (50th Street Facility With Through Drive and
 Public Open Space) 9-14
F. Vibration 9-20
 Human Response to Vibration Levels 9-20
 Impact Criteria..... 9-20
 Probable Impacts of Build Alternatives..... 9-21
G. Conclusions 9-21

10: Energy 10-1
A. Introduction 10-1
B. Alternative A (No Action Alternative)..... 10-1
C. Probable Impacts of Build Alternatives 10-1
 Alternative B (50th Street Facility Without Through Drive)..... 10-1
 Alternative C (50th Street Facility With Through Drive)..... 10-1
 Preferred Alternative D (50th Street Facility With Through Drive and
 Public Open Space) 10-1
 Conclusions 10-2

11: Utilities 11-1
A. Introduction 11-1
B. Alternative A (No Action Alternative)..... 11-1
 Utility Connections..... 11-1
 Demand..... 11-1
C. Probable Impacts of Build Alternatives 11-1
 Alternative B (50th Street Facility Without Through Drive)..... 11-1
 Utility Connections 11-1
 Demand..... 11-2
 Alternative C (50th Street Facility With Through Drive)..... 11-2
 Preferred Alternative D (50th Street Facility With Through Drive and
 Public Open Space) 11-2
 Conclusions 11-2

12: Contaminated Materials..... 12-1
A. Introduction and Methodology 12-1
B. Existing Conditions 12-1
C. Alternative A (No Action Alternative)..... 12-2
D. Probable Impacts of the Build Alternatives 12-2
 Alternative B (50th Street Facility Without Through Drive)..... 12-2
 Alternative C (50th Street Facility With Through Drive)..... 12-4
 Preferred Alternative D (50th Street Facility With Through Drive and
 Public Open Space) 12-4
 Conclusions 12-4

13: Natural Resources.....	13-1
14: Safety and Security	14-1
A. Introduction.....	14-1
B. Alternative A (No Action Alternative)	14-1
C. Build Alternatives	14-1
Safety and Security During Normal Operations.....	14-1
Safety and Security During Emergencies.....	14-5
Conclusions	14-6
15: Construction Impacts	15-1
A. Introduction.....	15-1
B. Description of Construction Activities	15-1
Alternative A (No Action Alternative).....	15-1
Alternative B (50th Street Facility Without Through Drive)	15-2
Phase 1 — Building Demolition (9 Months).....	15-2
Phase 2 — 50th Street Excavation/Shaft Construction (21 Months)	15-2
Phase 3 — Access for Esa Concourse Construction (2½ Years)	15-3
Phase 4 — 50th Street Facility Superstructure Construction (6 Months)	15-4
Phase 5 — 50th Street Facility Fit-Out (15 Months)	15-4
Alternative C (50th Street Facility With Through Drive)	15-4
Preferred Alternative D (50th Street Facility With Through Drive and Public Open Space)	15-4
C. Construction Impacts of the Project Alternatives	15-5
Land Use, Zoning and Public Policy, and Social Conditions.....	15-5
Alternative A	15-5
Alternative B	15-5
Alternative C	15-6
Preferred Alternative D	15-7
Socioeconomic Conditions.....	15-7
Alternative A	15-7
Alternative B	15-7
Alternative C	15-8
Preferred Alternative D	15-8
Visual and Aesthetic Considerations.....	15-8
Alternative A	15-8
Alternative B	15-9
Alternative C	15-9
Preferred Alternative D	15-9
Historic and Archaeological Resources	15-10
Alternative A	15-10
Alternative B	15-10
Alternative C and Preferred Alternative D.....	15-11
Transportation	15-11
Alternative A	15-11
Alternative B	15-12
Alternative C	15-13
Preferred Alternative D	15-13

50th Street Facility Revised Supplemental Environmental Assessment

Air Quality	15-14
Alternative A	15-14
Alternative B.....	15-14
Alternative C and Preferred Alternative D	15-16
Noise and Vibration.....	15-16
Introduction.....	15-16
Construction Noise	15-16
Construction Vibration	15-22
Utilities	15-22
Alternative A	15-22
Alternatives B, C, and Preferred Alternative D	15-23
Contaminated Materials.....	15-23
Alternative A	15-23
Alternative B, C, and Preferred Alternative D.....	15-23
Safety and Security.....	15-24
Conclusions	15-24
16: Environmental Justice	16-1
A. Introduction	16-1
B. Regulatory Context	16-1
C. Evaluation of Population in Study Area.....	16-2
D. Conclusions	16-3
17: Secondary and Cumulative Effects	17-1
A. Introduction	17-1
B. Secondary Impacts	17-1
Potential Economic Effects During Construction.....	17-1
Alternative A (No Action Alternative)	17-1
Alternative B, C, and Preferred Alternative D (Build Alternatives).....	17-1
Potential Economic Effects During Operation	17-2
Alternative A (No Action Alternative)	17-2
Alternative B, C, and Preferred Alternative D (Build Alternatives).....	17-2
C. Cumulative Impacts.....	17-2
Cumulative Impacts During Construction	17-2
Cumulative Impacts During Operation.....	17-3
D. Conclusions	17-4
18: Commitment of Resources	18-1
19: Process and Public Participation	19-1
A. Introduction	19-1
B. East Side Access Project Public and Agency Participation Program	19-1
Public Participation.....	19-1
Agency Participation	19-2
C. Agency Coordination and Public Outreach for Proposed 50th Street Facility	19-2
Individual Stakeholder Meetings.....	19-2
Public Meeting Held on February 24, 2004.....	19-2
Public Review of January 2005 EA.....	19-4

Public Outreach for this Revised Supplemental EA	19-5
Document Available for Review	19-5
Document Distribution	19-5
D. FTA and MTA Contacts	19-7
20: Comments and Responses.....	20-1
A. Introduction.....	20-1
B. List of Commenters	20-2
Agencies.....	20-2
Elected Officials.....	20-2
Organizations	20-3
Individuals.....	20-4
C. Comments and Responses	20-5
Process and Public Participation	20-5
Project Purpose and Need/Project Alternatives.....	20-11
Land Use, Zoning and Public Policy, and Social Conditions.....	20-29
Socioeconomic Conditions.....	20-38
Historic and Archaeological Resources	20-40
Traffic and Transportation	20-48
Air Quality	20-60
General	20-60
Placement of Intakes and Exhausts	20-72
Normal Exhaust.....	20-75
Emergency Exhaust.....	20-78
Cooling Tower.....	20-82
Emergency Generators	20-98
Noise and Vibration	20-100
Safety and Security	20-103
Construction and Construction Impacts	20-109
General	20-109
Traffic.....	20-113
Noise.....	20-116
Air Quality.....	20-119

List of Appendices

Appendix A: Programmatic Agreement (included in main volume of EA)

Appendix A-1: Programmatic Agreement, March 2001

Appendix A-2: Draft Amended Programmatic Agreement, April 2006

Appendix B: Upper Level Loop Alternative Analysis, April 2006

Appendix C: Historic and Archaeological Resources

Appendix C-1: Project Correspondence from the State Historic Preservation Office (SHPO) and the New York City Landmarks Preservation Commission (LPC)

Appendix C-2: MTA/LIRR East Side Access Construction Protection Plan, April 2004

Appendix C-3: Historic Resource Inventory Forms Submitted to the New York State Office of Parks, Recreation and Historic Preservation for Buildings at 44, 46, 48, and 50th East 50th Street, April 2004; Historic Resource Inventory Form for Building at 45 East 49th Street, May 2004

Appendix C-4: Stage 1A Archaeological Assessment, East 50th Street Vent Plant, MTA/LIRR East Side Access Project, June 2003

Appendix D: Traffic and Transportation

Appendix D-1: Loading Dock Requirements Analysis, February 2004.

(Excerpted from *Industrial Engineering Analysis of GCT Facilities Maintenance Operations, Task 3 Submittal Conceptual Requirements Report/Rev 5*, October 2003)

Appendix D-2: Traffic Data Collection Summaries, November 2003 and April 2004

Appendix D-3: CORSIM Traffic Simulation Input and Output Files, September 2004

Appendix D-4: Highway Capacity Software (HCS) Analysis
Input and Output Files, July 2005

Appendix D-5: Pedestrian Data, February 2005

Appendix E: Air Quality

Appendix E-1: MTA/LIRR East Side Access Project 50th Street Vent Building Cooling Tower Impacts Analysis, TRC Environmental Corporation, July 2004

Appendix F: Noise

Appendix F-1: FTA Operational Noise Analysis
Calculation Spreadsheets, July 2004

Appendix F-2: FTA Construction Noise Analysis
Calculation Spreadsheets, July 2004

Appendix F-3: CEQR Operational Noise Analysis
Calculation Spreadsheets, July 2004

Appendix G: Hazardous Materials

Regulatory Database Search Results, October 2003

Appendix H: FDNY Correspondence

Appendix I: Comments Received on January 2005 EA

List of Tables

S-1	50th Street Facility Program Elements: Comparison of Alternatives.....	S-6
S-2	50th Street Facility Alternatives Traffic Simulation Results Along 50th Street Between Park and Madison Avenues	S-14
S-3	50th Street Alternatives Traffic Simulation Results Along 49th Street Between Park and Madison Avenues	S-15
S-4	Preliminary Schedule of Construction Activities for Alternatives B and C	S-21
S-5	Revised Schedule of Construction Activities for Preferred Alternative D	S-22
2-1	50th Street Facility Program Elements: Comparison of Alternatives.....	2-4
7-1	Average Hourly Traffic Volumes on 50th Street.....	7-2
7-2	Average Hourly Traffic Volumes on 49th Street.....	7-4
7-3	Alternative B Traffic Simulation Results along 50th Street Between Park and Madison Avenues	7-8
7-4	2010 Level of Service Summaries, No Action vs. Alternative B	7-9
7-5	Alternative C Traffic Simulation Results along 50th Street Between Park and Madison Avenues	7-11
7-6	Alternative C Traffic Simulation Results along 49th Street Between Park and Madison Avenues	7-11
7-7	2010 Level of Service Summaries, No Action vs. Alternative C	7-12
8-1	Ambient Air Quality Standards	8-4
8-2	Monitored Concentrations From NYSDEC’s Nearest Air Quality Stations.....	8-5
9-1	Common Noise Levels.....	9-2
9-2	Average Ability to Perceive Changes in Noise Levels	9-3
9-3	FTA’s Land Use Category and Metrics for Transit Noise Impact Criteria.....	9-4
9-4	Weekend 24-Hour Measured Noise Levels at Site M1 (in dBA)	9-7
9-5	Weekday 24-Hour Measured Noise Levels at Site M1 (in dBA)	9-8
9-6	Existing Noise Levels at Site M2 (in dBA)	9-8
9-7	Predicted Future Build Noise Levels: Alternative B Daytime Peak Load Operation (dBA).....	9-10
9-8	Predicted Future Build Noise Levels: Alternative B Daytime Testing Mode Operation (dBA)	9-11
9-9	Predicted Future Build Noise Levels: Alternative B Daytime Off-Peak Load Operation (dBA).....	9-12
9-10	Predicted Future Build Noise Levels: Alternative B Nighttime Off-Peak Load Operation (dBA).....	9-13
9-11	Predicted Future Build Noise Levels: Alternative C Daytime Peak Load Operation (dBA).....	9-15

50th Street Facility Revised Supplemental Environmental Assessment

9-12 Predicted Future Build Noise Levels: Alternative C Daytime Testing Mode
Operation (dBA)9-16

9-13 Predicted Future Build Noise Levels: Alternative C Daytime Off-Peak Load
Operation (dBA)9-17

9-14 Predicted Future Build Noise Levels: Alternative C Nighttime Off-Peak Load
Operation (dBA)9-18

9-15 Predicted Future Build Noise Levels: Preferred Alternative D Daytime Testing Mode
Operation (dBA)9-19

9-16 Typical Vibration Levels.....9-20

9-17 New York City Zoning Resolution Vibration Performance Standards9-21

15-1 Preliminary Schedule of Construction Activities for the 50th Street Facility15-2

15-2 Revised Schedule of Construction Activities for Preferred Alternative D.....15-5

15-3 FTA General Assessment Impact Criteria for Construction Noise15-17

15-4 Construction Equipment Noise Emission Levels (in dBA).....15-18

15-5 Maximum 1-Hour L_{eq} Noise Levels During Construction, Alternatives B and C,
Daytime Hours (in dBA)15-19

15-6 Maximum 1-Hour L_{eq} Noise Levels During Construction, Alternatives B and C,
Nighttime Hours (in dBA).....15-20

15-7 Maximum 1-Hour L_{eq} Noise Levels During Phase 3 Concrete Deliveries,
Alternatives B and C, Daytime Hours (in dBA)15-20

15-8 East Side Access Project Construction Noise Limits15-21

16-1 Population and Economic Characteristics for Census Tracts within
400-Foot Study Area16-3

19-1 50th Street Facility Stakeholder Meetings19-3
