

**ENVIRONMENTAL ASSESSMENT
TABLE OF CONTENTS**

VOLUME I

ES	EXECUTIVE SUMMARY	ES-1
1.0	PURPOSE AND NEED AND DESCRIPTION FOR THE PROPOSED ACTION.....	1-1
1.1	Introduction and Background	1-1
1.2	Description of the Local Area.....	1-3
1.3	Project Purpose and Need	1-3
1.4	Project Goals	1-4
1.5	South Ferry Subway Station Deficiencies	1-5
1.6	Description of the Proposed Action	1-8
1.7	Coordination with Other Lower Manhattan Projects.....	1-11
1.8	Environmental Process and Required Reviews/Approvals.....	1-12
2.0	ANALYSIS FRAMEWORK.....	2-1
2.1	Introduction.....	2-1
2.2	Analysis Years	2-2
2.3	Cumulative Effects	2-4
2.4	Environmental Performance Commitments.....	2-7
3.0	ALTERNATIVES CONSIDERED	3-1
3.1	Introduction.....	3-1
3.2	Alternatives Analysis.....	3-1
3.3	Definition of the Alternatives	3-6
4.0	CONSTRUCTION METHODS AND ACTIVITIES	4-1
4.1	Introduction.....	4-1
4.2	Construction Methods.....	4-1
4.3	Construction Schedule	4-5
4.4	Construction Staging and Maintenance and Protection of Traffic Plan	4-6
4.5	Spoils Removal and Waste Management	4-8
5.0	POTENTIAL ENVIRONMENTAL IMPACTS	5-1
5.1	Land Acquisition and Displacement.....	5-1
5.2	Land Use and Zoning.....	5-3
5.3	Public Open Space	5-9
5.4	Community and Public Facilities.....	5-17
5.5	Navigable Waterways and Coastal Zone	5-20
5.6	Water Quality.....	5-33
5.7	Wetlands and Sensitive Species.....	5-36
5.8	Floodplains.....	5-37
5.9	Transportation and Pedestrian Circulation.....	5-39
5.10	Air Quality	5-53
5.11	Noise and Vibration	5-73
5.12	Infrastructure and Energy Requirements	5-99
5.13	Archaeological and Historic Resources	5-103
5.14	Contaminated Materials	5-116
5.15	Aesthetic Resources	5-123

5.16	Community Disruption	5-130
5.17	Safety and Security	5-131
5.18	Secondary Development	5-133
5.19	Consistency with Local Plans	5-134
5.20	Socioeconomics	5-138
5.21	Environmental Justice	5-145
6.0	CUMULATIVE EFFECTS.....	6-1
6.1	Introduction.....	6-1
6.2	Air Quality	6-5
6.3	Pedestrian and Vehicular Access and Circulation	6-18
6.4	Noise and Vibration	6-25
6.5	Cultural and Historic Resources	6-35
6.6	Business and Economic Interests.....	6-40
6.7	Summary of Cumulative Effects.....	6-43
7.0	AGENCY COORDINATION AND PUBLIC OUTREACH.....	7-1
7.1	Introduction.....	7-1
7.2	Regulatory Context.....	7-1
7.3	Agency Coordination.....	7-2
7.4	Public Outreach.....	7-3
8.0	REFERENCES.....	8-1

SECTION 4(f) EVALUATION

ACRONYM LIST

VOLUME II (separate bound document)

APPENDICES

Appendix A	Governor Pataki Letter of February 6, 2003, and Executive Order 13274, <i>Environmental Stewardship and Transportation Infrastructure Project Review</i>
Appendix B	Draft Programmatic Agreement with SHPO
Appendix C	Phase IA Archaeological Assessment
Appendix D	Environmental Analysis Framework and Environmental Performance Commitments for Federal Transportation Recovery Projects in Lower Manhattan, and Approach to Cumulative Effects Analysis for the Lower Manhattan Recovery Effort (July 14, 2003)
Appendix E	Cumulative Effects Analysis Construction Assumptions, and Federally-Sponsored Lower Manhattan Recovery Projects Coordination Matrix
Appendix F	Estimates of Construction-Related Truck and Equipment Quantities
Appendix G	Agency Coordination and Correspondence Documents
Appendix H	Public Comment and Correspondence Documents

FIGURES (Volume I)

(Figures are located at the end of each chapter or section)

Figure 1	Project Location
Figure 2	Existing Station Configuration
Figure 3	Existing Station in Relation to Surrounding Facilities
Figure 4	Photographs of Existing Station and Environs
Figure 5	Conceptual Site Plan
Figure 6	Schematic Diagrams of Proposed Action
Figure 7	Project Corridor
Figure 8	Platform Extension Alternative
Figure 9	Three-Track Alternative
Figure 10	Inside Loop Alternative
Figure 11	Water Street Terminal Alternative
Figure 12	South Street Terminal Alternative
Figure 13	Whitehall Street Terminal Alternative
Figure 14	Construction Excavation/Staging Areas
Figure 15a	Land Use Site Photos
Figure 15b	Land Use Site Photos
Figure 16	Existing Land Use
Figure 17	Existing Zoning
Figure 18	Open Space Study Area and Resources
Figure 19	Battery Park Master Plan
Figure 20	Battery Park Tree Impacts
Figure 21	Peter Minuit Plaza Mapped Parkland
Figure 22	Surface Features in Peter Minuit Plaza (Plan View)
Figure 23	Surface Features in Peter Minuit Plaza (Schematic View)
Figure 24	Community Facilities in Study Area
Figure 25	Coastal Zone Boundary Map
Figure 26	Flood Zone Boundary Map
Figure 27	FTA Impact Criteria for Airborne Operational Noise
Figure 28	Noise Monitoring Locations
Figure 29	Areas of Potential Effect (APE)
Figure 30	Areas of Archaeological Potential
Figure 31	Historic Architectural Resources in Study Area
Figure 32	Photographs of South Ferry Tilework
Figure 33	Areas of Environmental Concern
Figure 34	Peter Minuit Plaza Reconstruction Design
Figure 35	Visual Resources Study Area
Figure 36	Terminal Entry in Peter Minuit Plaza
Figure 37	Proportion of Minority Residents Within Study Area
Figure 38	Proportion of Persons Below Poverty Within Study Area
Figure 39	Lower Manhattan Recovery Projects
Figure 40	Existing and Proposed 2005/2006 Construction Truck Routes

TABLES (Volume I)

Table ES-1	Alternatives Comparison	ES-13
Table ES-2	Approvals, Permits, and Coordination Required	ES-14
Table 1-1	Approvals, Permits, and Coordination Required	1-14
Table 3-1	Alternatives Summary Comparison	3-7
Table 5-1	Open Space Resources in Study Area.....	5-10
Table 5-2	Community and Public Facilities in Study Area.....	5-18
Table 5-3	LOS Criteria for Stairways	5-40
Table 5-4	LOS for Escalators and Turnstiles	5-41
Table 5-5	Pedestrian Peak 15-Minute Volume Periods	5-42
Table 5-6	2003 Baseline Condition – Weekday Pedestrian Analysis	5-43
Table 5-7	2005/2006 No Build/Build Condition – Weekday Pedestrian Analysis	5-44
Table 5-8	2008 No Build Condition – Weekday Pedestrian Analysis	5-46
Table 5-9	2008 Build Condition – Projected Peak Weekday Pedestrian Volumes	5-48
Table 5-10	2008 Build Condition – Weekday Pedestrian Analysis	5-49
Table 5-11	2025 No Build Condition – Weekday Pedestrian Analysis	5-50
Table 5-12	2025 Build Condition – Projected Peak Weekday Pedestrian Volumes	5-51
Table 5-13	2025 Build Condition – Weekday Pedestrian Analysis	5-52
Table 5-14	National and New York State Ambient Air Quality Standards	5-58
Table 5-15	Representative Monitored Ambient Air Quality Data (2001)	5-64
Table 5-16	Representative Monitored Ambient Air Quality Data (2003)	5-65
Table 5-17	Predicted 2005/2006 CO Construction Concentrations – No Build Condition.....	5-66
Table 5-18	Predicted 2005/2006 NO ₂ Construction Concentrations – No Build Condition.....	5-67
Table 5-19	Predicted 2005/2006 PM ₁₀ Construction Concentrations – No Build Condition.....	5-67
Table 5-20	Predicted 2005/2006 SO ₂ Construction Concentrations – No Build Condition.....	5-68
Table 5-21	Summary of Predicted Annual Air Pollutant Emissions.....	5-68
Table 5-22	Predicted 2005/2006 CO Construction Concentrations – Proposed Action.....	5-69
Table 5-23	Predicted 2005/2006 NO ₂ Construction Concentrations – Proposed Action.....	5-70
Table 5-24	Predicted 2005/2006 PM ₁₀ Construction Concentrations – Proposed Action.....	5-70
Table 5-25	Predicted 2005/2006 SO ₂ Construction Concentrations – Proposed Action.....	5-71
Table 5-26	A-Weighted (dBA) Levels of Typical Noise Environments.....	5-74
Table 5-27	Average Ability to Perceive Changes in Noise Levels.....	5-74
Table 5-28	Community Response to Increases in Noise Levels	5-75
Table 5-29	Land Use Categories and Metrics for Transit Noise Impacts	5-76
Table 5-30	FTA Construction Noise Criteria.....	5-77
Table 5-31	24-Hour Ambient Noise Measurement Results	5-78
Table 5-32	Construction Equipment Noise Emission Levels	5-80

Table 5-33	Typical Noise Levels for Peak Hour Construction	5-81
Table 5-34	Construction Noise Impacts (Peak 1-Hour) FTA General Analysis.....	5-82
Table 5-35	Construction Noise Impacts (Peak 8-Hour) FTA Detailed Analysis.....	5-82
Table 5-36	Construction Noise Impacts (Peak 30-Days) FTA Detailed Analysis...	5-83
Table 5-37	Projected Construction Noise Levels at Site 1.....	5-84
Table 5-38	Projected Construction Noise Levels at Site 2.....	5-85
Table 5-39	Projected Construction Noise Levels at Site 3.....	5-85
Table 5-40	Projected Construction Noise Levels at Site 3a.....	5-86
Table 5-41	Projected Construction Noise Levels at Site 4 (Church)	5-86
Table 5-41a	Projected Construction Noise Levels at Site 4 (Rectory)	5-87
Table 5-42	FTA Screening Distances for Operational Noise Assessments	5-90
Table 5-43	Summary of Screening Analysis.....	5-90
Table 5-44	Typical Levels of Ground-borne Vibration	5-92
Table 5-45	Ground-borne Vibration and Noise Impact Criteria	5-93
Table 5-46	Vibration Levels for Construction Equipment.....	5-95
Table 5-47	Predicted Construction Vibration Levels in PPV	5-96
Table 5-48	Historic Architectural Resources in Project Vicinity.....	5-111
Table 5-49	Trends in Households and Housing Units, 1990 and 2000.....	5-138
Table 5-50	Trends in Housing Tenure, 1990 and 2000.....	5-139
Table 5-51	Trends in Employment, 1995 to 2020.....	5-140
Table 5-52	Labor Force Characteristics of Study Areas, 2000	5-140
Table 5-53	Means of Transportation to Work, 2000.....	5-141
Table 5-54	Population and Economic Characteristics of Study Area	5-147
Table 6-1	Predicted Increase in Ambient PM _{2.5} Concentrations in 2005/2006 No Build Condition.....	6-9
Table 6-2	Predicted Increase in Ambient PM _{2.5} Concentrations in 2005/2006 Build Condition.....	6-10
Table 6-3	Scenario 1 PM _{2.5} Reduction Analysis.....	6-13
Table 6-4	Scenario 2 PM _{2.5} Reduction Analysis.....	6-14
Table 6-5	Scenario 3 PM _{2.5} Reduction Analysis.....	6-15
Table 6-6	Signalized Intersection Level of Service Criteria	6-20
Table 6-7	2005/2006 AM Peak Period Level of Service Analysis	6-22
Table 6-8	2005/2006 PM Peak Period Level of Service Analysis.....	6-23
Table 6-9	Predicted 2005/2006 Construction Noise Level Increases	6-27
Table 6-10	Predicted 2005/2006 No Build Construction Noise Levels (Peak 1-Hour)	6-28
Table 6-11	Predicted 2005/2006 No Build Construction Noise Levels (Peak 8-Hour).....	6-28
Table 6-12	Predicted 2005/2006 No Build Construction Noise Levels (Peak 30-Days)	6-29
Table 6-13	Predicted 2005/2006 Cumulative Construction Noise Level Increases.	6-30
Table 6-14	Predicted 2005/2006 Cumulative Construction Noise Levels (Peak 1-Hour).....	6-31
Table 6-15	Predicted 2005/2006 Cumulative Construction Noise Levels (Peak 8-Hour).....	6-31

Table 6-16 Predicted 2005/2006 Cumulative Construction Noise Levels
(Peak 30-Days)..... 6-32
