

**COURTESY
MATTERS**

Don't Be Cell-fish.

Tips for Cell Phone Courtesy

- Please be courteous and aware of others around you when using your cell phone.
- Keep your call short and to the point - fellow customers may be trying to sleep or relax.
- If you must engage in an extended phone conversation, move to the vestibule of the train to minimize impact on others.
- Use silent or vibrating ringer options.
- Refrain from accepting incoming calls when possible. If you must receive a call, keep your cell phone handy so you can answer quickly and keep it short.
- Utilize the cell phone's caller ID or text messaging features to screen incoming calls. Let your voice mail manage non-urgent calls.

**Courtesy Matters.
Thanks for your consideration.**
