Notice To Bidders

NYCT Prime Contractor & D/M/WBE Sub-Contractor Connection System

The MTA - New York City Transit (NYCT) Sub-Contractor Connection web-based initiative, created to connect potential prime contractors with D/M/WBE firms interested in NYCT sub-contracting opportunities has evolved to become the [NYCT Prime Contractor & DMWBE Sub-Contractor Connection System](#) (Sub-Contractor Connection System). Unlike the initial phase of this initiative, the Sub-Contractor Connection System will now notify plan holders (potential prime contractors) electronically when a D/M/WBE firm has expressed sub-contracting interest in a NYCT project. The system's ability to sort D/M/WBE firms by the service they provide also gives prime contractors a 24 hour detailed resource for qualified D/M/WBE firms.

D/M/WBE firms and prime contractors must be registered on the NYCT bidder list to access this system. Visit the [NYCT Procurement Website](#) to [register on-line](#). You can also visit our [D/M/WBE Connection Website](#) for information on this and other initiatives and events from the NYCT Procurement Sub-Division and the MTA – Office of Civil Rights for D/M/WBE firms. Please [contact us](#) if you have any questions.
