- Total expenses of \$1,179.6 million, including non-cash liabilities, were \$8.6 million (0.7%) higher than the Budget. Non-cash liabilities were \$0.9 million (0.5%) lower than the Budget mainly due to lower than projected depreciation expenses offset by the timing of GASB 87 lease adjustment expenses. Operating expenses were over the Budget by \$9.5 million (1.0%), attributed to labor cost overruns of \$7.4 million (1.0%), reflecting overtime spent for severe weather conditions and higher than projected absentee coverage needs vacancies and unfavorable timing of the drug rebate credits. Non-labor expense overruns of \$2.1 million (1.0%) were partially due to the timing of expenses.
- At the end of January, the total headcount was 47,545 which was 2,474 lower than the Budget of 50,019. Non-reimbursable positions were lower by 1,643, and Reimbursable positions were lower by 830.
- January YTD Non-Reimbursable operating results were favorable to the Budget by \$8.8 million (1.2%). Non-reimbursable revenues were \$9.9 million (2.9%) favorable primarily due to higher than projected Subway farebox revenue. Total non-reimbursable expenses, including non-cash liabilities, were unfavorable by \$1.1 million (0.1%), primarily due to lower labor costs related to the timing of health & welfare payment and higher non-labor costs due to the higher paratransit contact expense reflecting higher trip volume and timing.

## Financial Report Highlights

### Year-to-Date Budget Performance Summary

- Total revenues of \$0.781 million were \$0.330 million (29.7%) lower than the Adopted Budget. This unfavorable variance was primarily attributed to timing of \$0.321 million of capital and other reimbursements.
- Total paid ridership was 0.188 million, 2.4% higher than the Budget.
- Total expenses of \$8.669 million including non-cash liabilities were \$0.513 million (5.6%) lower than the Budget. The primary drivers of this favorable variance were the timing of \$0.632 million (35.4%) in non-labor expenses and lower labor costs of \$0.516 million (8.7%) from the existence of vacant positions.
- At the end of January total headcount was 396, which was 35 positions lower than the Budget of 431. Non-reimbursable positions were over by 10 and reimbursable positions were under by 45.
- January YTD non-reimbursable operating results were favorable to the Budget by \$0.183 million or 2.3%. ## Financial and Ridership Reports – January 2025

**Jaibala Patel**, Deputy Chief Financial Officer, MTA

## Financial Report Highlights

### Year-to-Date Budget Performance Summary

- Total revenues of \$16.5 million were \$1.0 million (5.7%) unfavorable to the Adopted Budget. This was due to lower farebox revenue of \$0.6 million (3.7%), unfavorable other operating income of \$0.4 million (21.3%), and lower capital and other reimbursements of \$0.1 million (9.7%).
- Total paid ridership of 7.2 million was 0.1 million (1.9%) higher than the Budget.
- Total expenses of \$80.6 million were \$17.4 million (17.7%) lower than the Budget. Total expenses before non-cash liabilities of \$75.0 million were below Budget by \$7.0 million (8.5%) due to favorable labor costs variance of \$3.7 million (5.9%), primarily due to vacancies, and the timing of non-labor expense underruns of \$3.3 million (17.6%). Non-cash liabilities of \$5.6 million underran by \$10.4 million (64.8%) primarily due to the timing of GASB 75 OPEB Expense and GASB 68 Pension Adjustments partially offset by higher depreciation.
- At the end of January, the total headcount was 3,870 which was 68 lower than the Budget of 3,938. Non-Reimbursable positions were 64 lower and reimbursable positions were 4 lower than the Budget.
- January YTD non-reimbursable net surplus was favorable to the Budget by \$16.4 million (20.3%). Non-reimbursable revenues through January were unfavorable by \$0.9 million (5.5%) to the Budget primarily due to lower farebox revenue of \$0.6 million (3.7%) and lower other operating income of \$0.4 million (21.3%). Unfavorable farebox revenue was mainly due to lower paid average fare partially offset by higher ridership. Total non-reimbursable expenses were favorable by \$17.3 million (17.8%) primarily due to lower labor, non-labor expenses and the timing of GASB 68 and 75 Adjustments partially offset by higher depreciation. Favorable labor expenses were mainly due to lower overtime, health & welfare/OPEB and pensions partially offset by higher payroll and other fringe benefits.
