## Narrative

### I. PURPOSE/RECOMMENDATION

B&T is seeking Board approval under the All Agency Guidelines for Procurement of Services to award a personal service contract for Design and Design Support Services for Task 26A, Integrated Electronic Security Systems at the Robert F. Kennedy and Bronx Whitestone Bridges to Parsons Brinckerhoff (PB) in an amount of \$1,586,341 for a period of four years.

### II. DISCUSSION

B&T is the recipient of Federal Homeland Security Funding through the Department of Homeland Security for the design and design support services for Task 26A, the furnishing and installation of an integrated electronic security system at the Robert F. Kennedy (RFK) and Bronx Whitestone (BW) Bridges.

The service requirements were publicly advertised; fifteen (15) firms submitted qualification information and five firms, Gannett Fleming (GF), PB, Parsons Transportation Group of NY, Inc. (PTG), Ross & Baruzzini (R&B) and URS, were chosen to receive the RFP based on a review of their qualifications. All firms submitted proposals which were evaluated against established criteria set forth in the RFP, including an understanding of the technical requirements and expertise,

## Staff Summary

Page 2 of 2

proposed personnel, oral presentations and cost.

After evaluating the technical proposals, oral presentations and cost proposals, the Selection Committee recommended that negotiations be conducted with the two highest rated firms, PB and URS, and that these firms submit best and final offers (BAFOs). After evaluating the BAFOs from PB and URS, the Selection Committee unanimously recommended that PB be awarded this contract. This recommendation is supported by: (i) the extensive and relevant experience of PB's team, including a subconsultant who designed the fiber communication infrastructure that will be used to transport the security signals and data for the system as well as a team leader who has extensive experience with the MTA Agency-wide security networks; (ii) PB's commitment to reducing the 100% design completion date from twelve months to ten months; and (iii) a reduction in its original cost proposal from \$1,703,248.24 to \$1,586,341.

URS presented a sufficient technical and cost proposal, however, the committee indicated that its proposed team was not as qualified as PB's and determined that PB's offer to shorten the design lead time was more desirable. URS' BAFO was \$1,569,000, which is only slightly lower than PB's cost. Both proposals are well below the estimate of \$3,169,000 which did not consider the efficiencies of these firms based on their prior experience performing projects at the sites. Based on the above, PB's BAFO is considered fair and reasonable. PB is deemed to be a responsible consultant.

### **III. D/M/WBE INFORMATION**

The MTA DDCR has established goals of 17% DBE for the referenced contract. This contract will not be awarded without approval of MTA DDCR. PB was in full compliance with the M/WBE goals on its most recently completed contract (PSC-04-2723A, Biennial Bridge Inspection and Design of Miscellaneous Structural Repairs for the Throgs Neck Bridge).

### **IV. IMPACT ON FUNDING**

Funding in the amount of \$1,586,341 is available through the G Program under G5140109.

### **IV. ALTERNATIVES**

There are no recommended alternatives. The Authority does not possess the resources required to perform these services.
