

Implementation

Community Board 13
Spring 2025

Why we're doing it

It's been several decades since we made major changes to Queens bus routes.

Since then, we've seen:

- Development in new areas
- New travel patterns
- Declining reliability

How we got here

Riders identified four priorities for the new network: **reliable service, faster travel, better connections, and simplified service.**

From these priorities, we developed several redesign strategies.

To learn more about the planning process, go to mta.info/queensbusredesign.

We're introducing a new Queens bus network. We're expanding the all-day frequent network, adding new overnight service, removing some stops, and adding new connections to major destinations and transfer points.

Changes to the Queens bus network will go into effect in two phases:

- Phase 1: June 29, 2025
- Phase 2: August 31, 2025

Routes without Sunday service will change on either June 30 or September 2.

What's changing

We've taken a fresh look at the map to bring you faster, more reliable service with better connections. To do this, most bus routes have changed, which includes:

- New bus routes and route numbers.
- New Rush routes that get you to the subway faster.
- Changes to bus stops, including stops being relocated or removed.
- Routing changes to reduce turns.

We're updating bus stop signs to prepare for service changes that will be phased in by route on June 29 and August 31, 2025. Current service continues until then, but some signs will reflect future service. Use the [MTA app](#) or [BusTime](#) to plan your trip.

Search for your bus route to see changes and when they're happening.
