

# Long Island Rail Road

## Safety Committee Update

December 2025

Long Island Rail Road

# Safety Promotion & Outreach

## Educational Safety Outreach

- Year to date, our T.R.A.C.K.S. teams presented at 422 different functions, educating over 84,000 attendees about railroad safety.
- We performed 161 Operation Life Saver events, discussing grade crossing safety with nearly 62,000 people.

# Track Intrusion and Right-of-Way Safety

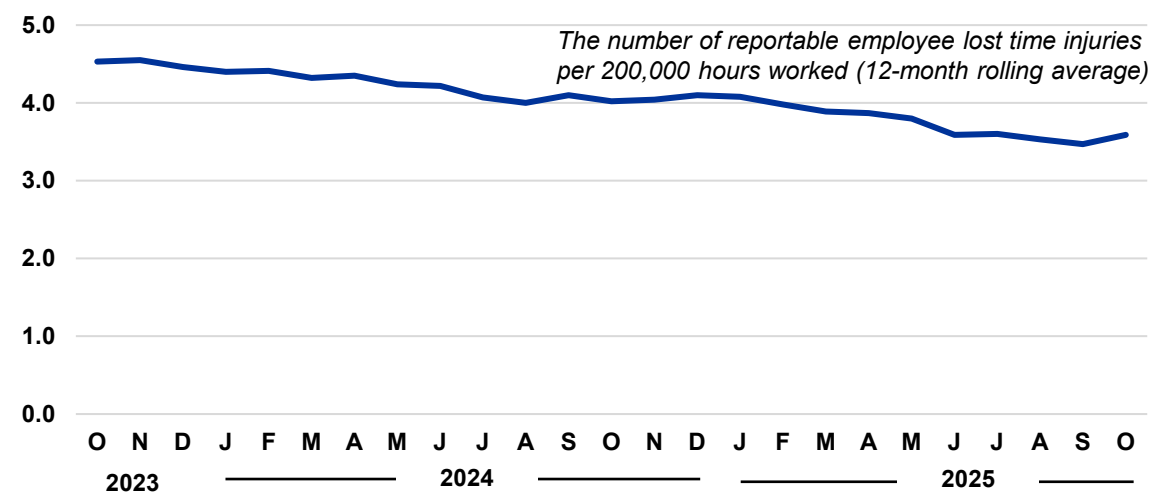

- Year to date, we installed 1,998 linear feet of high security fencing to deter ROW track intrusions.
- We partnered with the MTAPD to remove 10 unauthorized encampments on our ROW.

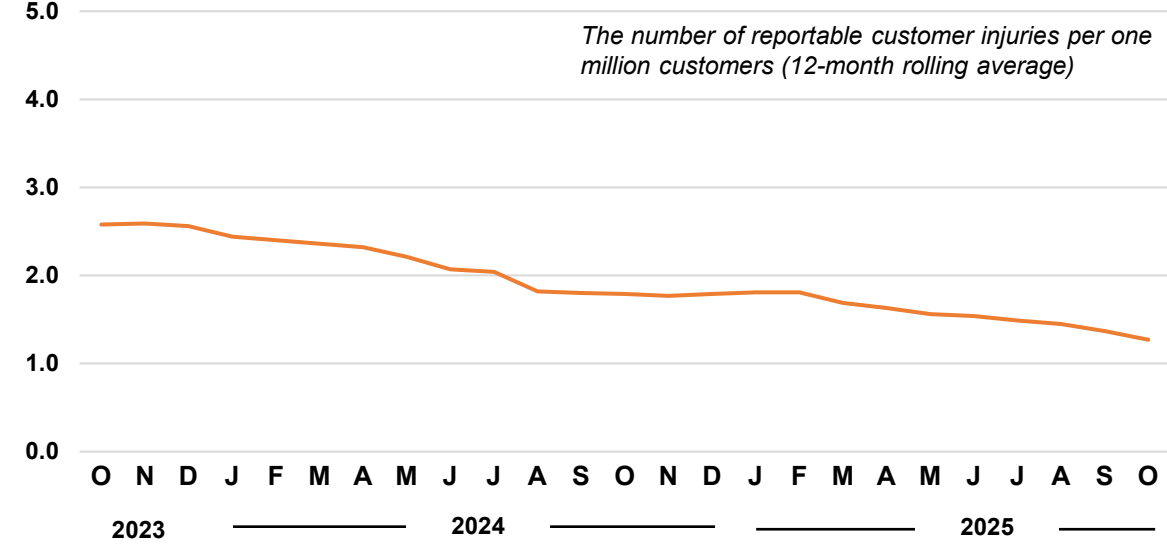

# Safety Data Review

For the 12-month period ending October 2025, Long Island Rail Road’s safety performance remained strong, with steady declines in both reportable customer and employee injury rates, reflecting LIRR’s continued dedication to delivering safe and reliable service.

# Keys to Unlock a Safer Railroad

- ✠ Promoting and educating railroad Safety within our served Communities.
- ✠ Assuring Compliance through Safety evaluation and assurance efforts across the enterprise.
- ✠ Continuous two-way Communication about our progressive Safety Culture throughout our workforces.
- ✠ Safety Collaboration with transit agencies to exchange safety information, efforts, and strategies.
