

# **NYCT Roadway Worker Protection Program Compliance Assurance**

# Joint Track Safety Audit Team

The Joint Track Safety Audit team was established in 2007

The team is a collaboration between the NYCT Office of System Safety and our TWU and SSSA labor partners.

The team audits selected work zones for compliance with current NYCT Roadway Worker Protection rules.

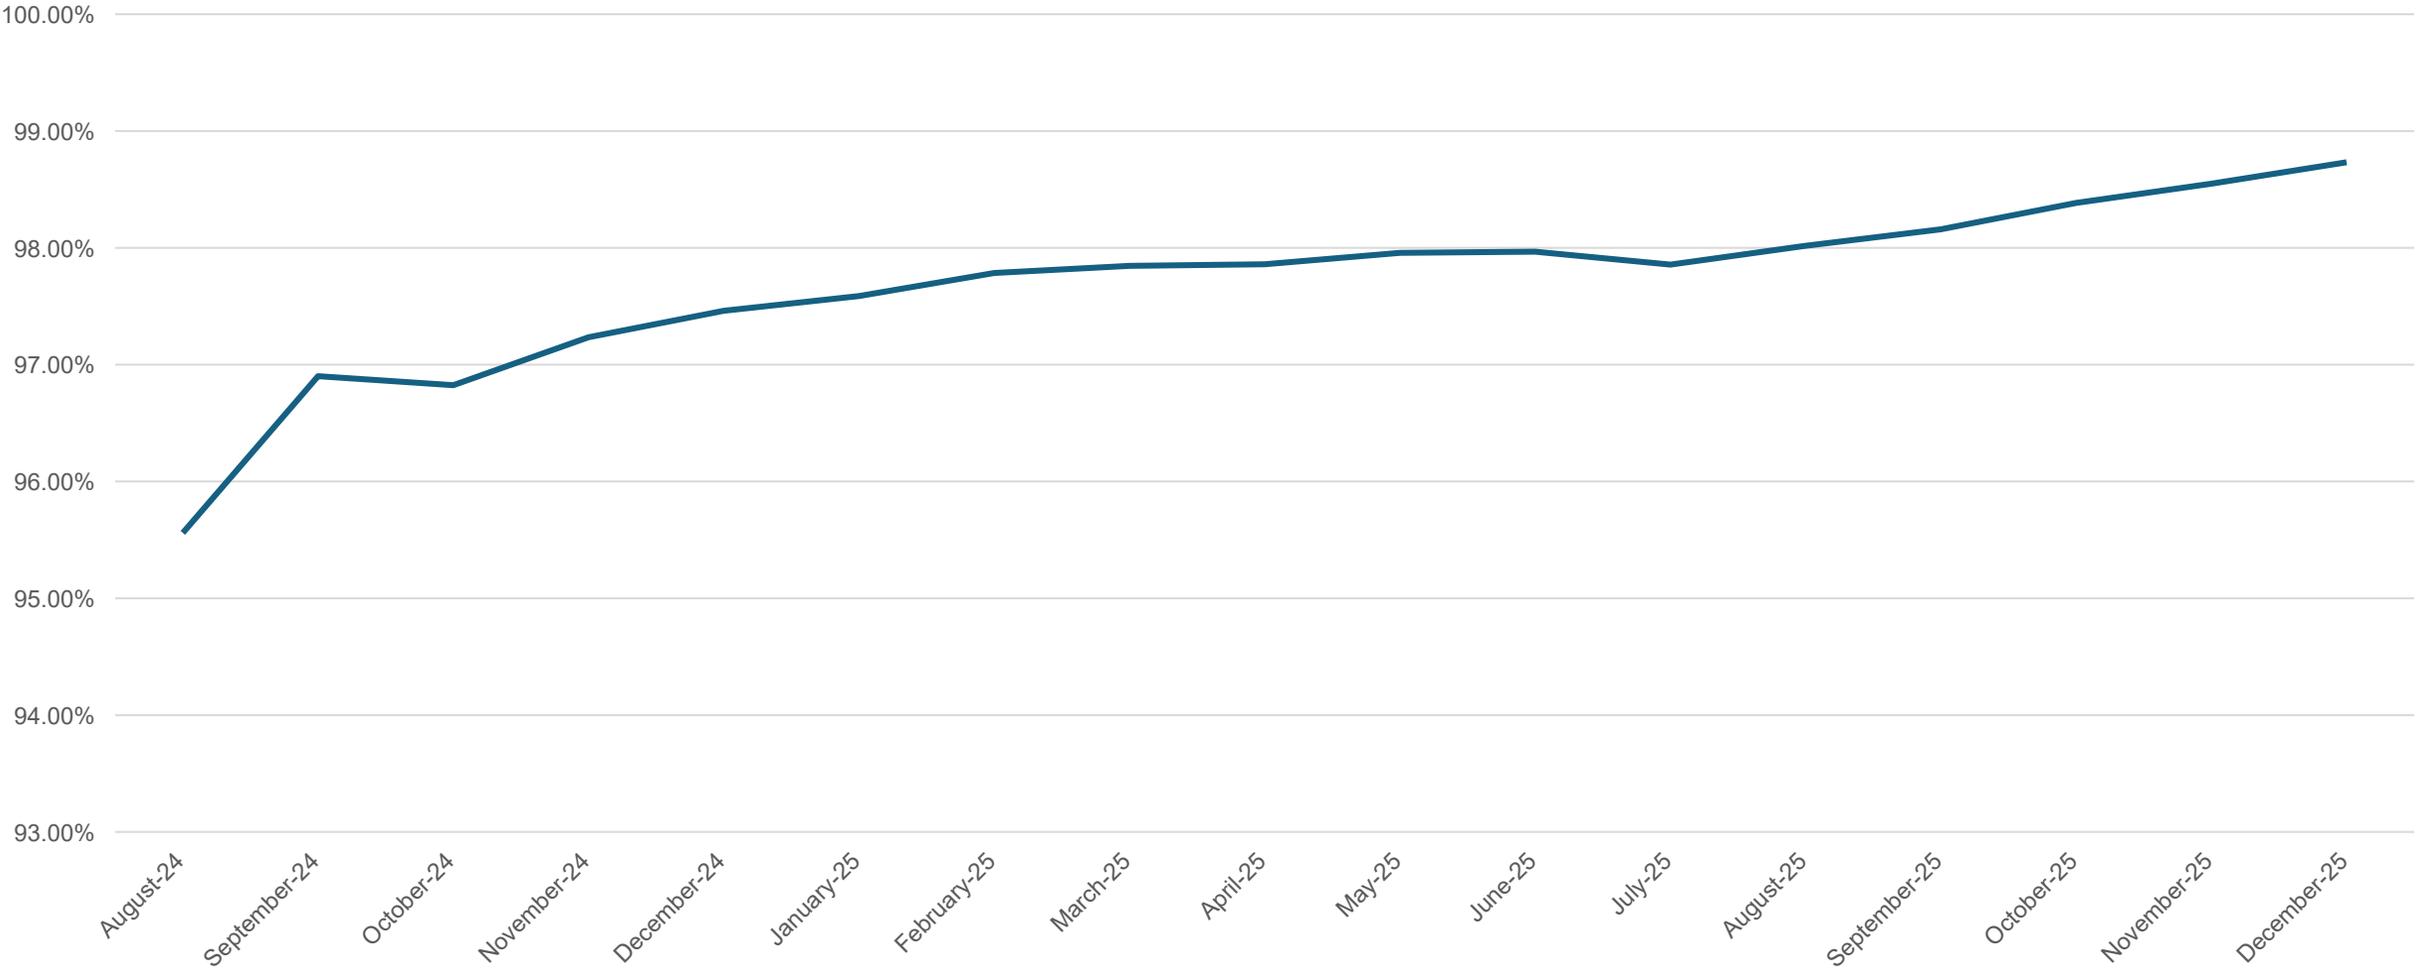

# Audit Tracking

Department of Subways and the Office of System Safety developed the Roadway Worker Protection Manual and the Track Access Guide per the Federal Transit Administrations 49 CFR Part 671, “Rail Transit Roadway Worker Protection” rule.

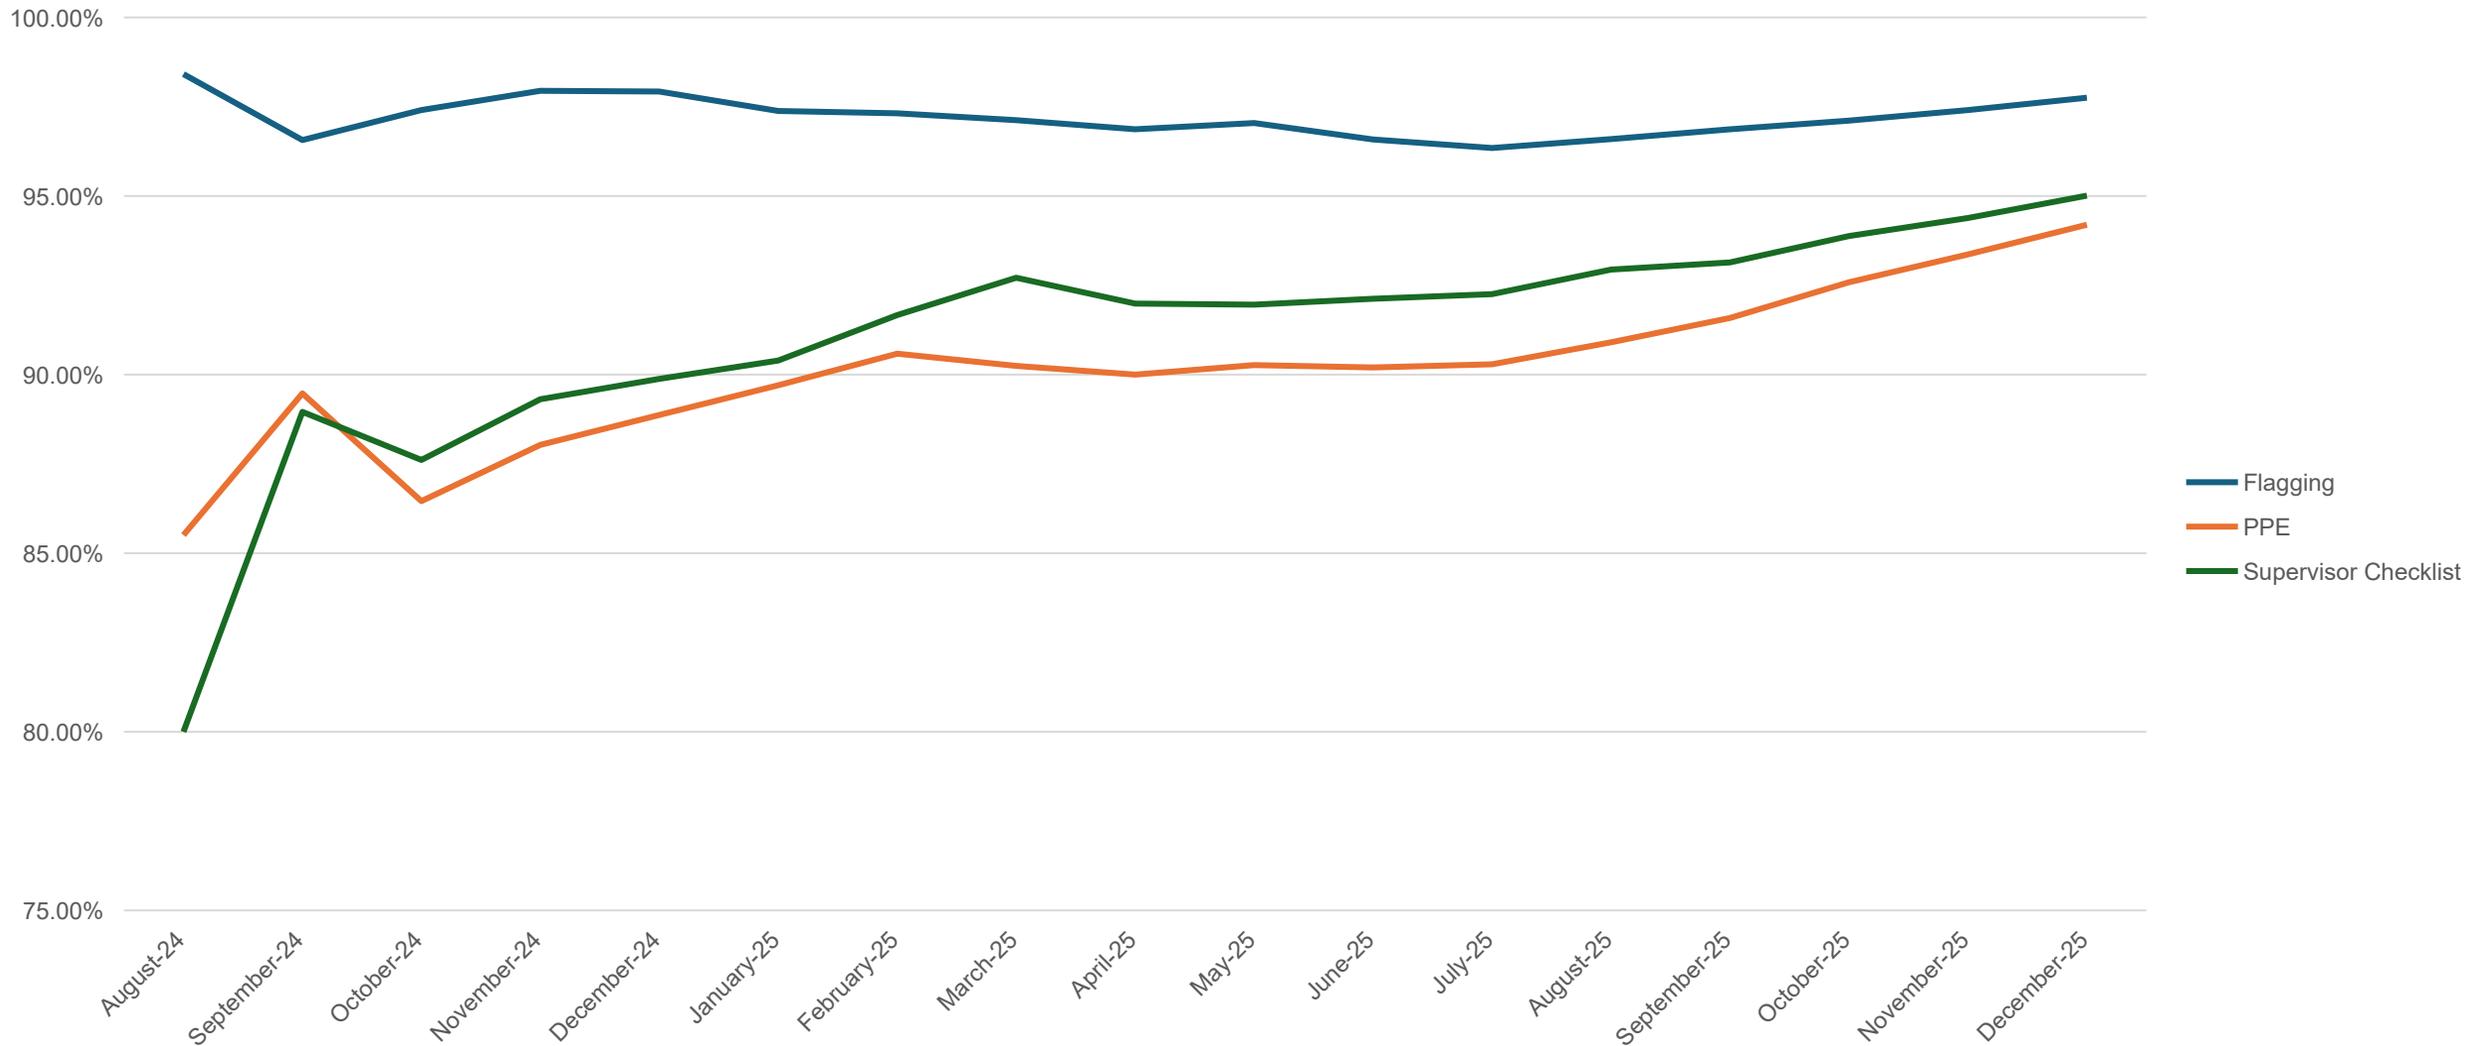

# Overall Roadway Worker Protection Compliance

Total RWP Compliance Rate

# Top RWP Non-Compliance Categories

# Industry Leading

NYCT was honored with the 2025 American Public Transportation Association (APTA) Heavy Rail Safety Gold Award for our Joint Track Safety Audit program

# Looking Forward

## Joint Track Safety Audit Team Expansion

- Additional auditors will allow inspections during daytime and weekend hours
- Continued collaboration between OSS, DOS and our Labor Partners
- Auditors will have additional flexibility to select audit types based on trend analyses

# NYCT Annual PTASP Approval
