UPDATE - Parking at Haverstraw Ferry Dock

To Our Haverstraw-Ossining Ferry Rail Link Customers

While Ginsburg Development Companies, LLC had anticipated completing the project by the June 15 deadline, the work has taken longer than expected and has not yet been fully completed. The project has now progressed to the repaving stage of the parking areas designated for ferry customers, and work is continuing toward final completion by June 26.

During this time, ferry customers will be directed to park in the section of the lot that has already been paved and available for use. Please follow any posted signage and any directions provided by onsite personnel to ensure safe and efficient access to the ferry terminal and parking area.

Please continue to arrive early to allow adequate time for parking and boarding. We ask customers to exercise caution when traveling through the construction area. Temporary traffic patterns and parking arrangements may change as construction progresses.

We understand that this project has caused inconvenience and appreciate your patience and cooperation as these improvements are completed. The reconstruction will provide an improved parking facility for ferry customers.

Thank you for your cooperation and for your continued patronage of the Haverstraw-Ossining Ferry.

For any comments or questions regarding this construction or parking concerns, please call 511 or online at https://contact.mta.info/s/customer-feedback.
