## Utility Relocation Progress Second Avenue Subway Phase 2

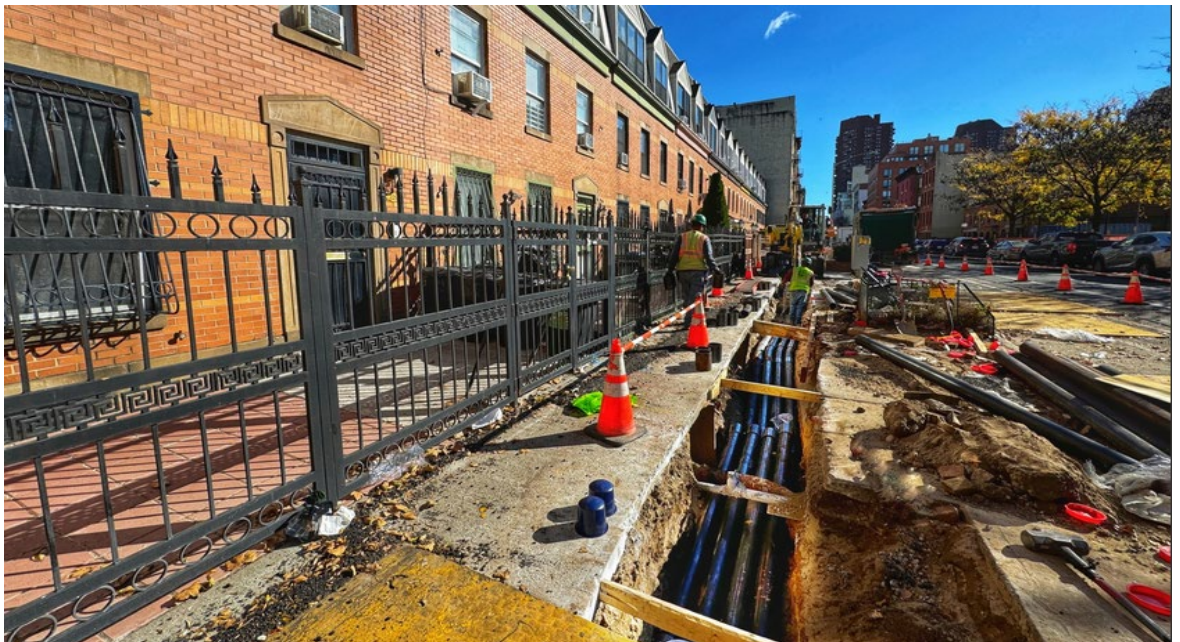

Excavator installing protective jersey barriers on Second Avenue

Work is progressing for utility relocation on Second Avenue. This construction will build on electrical and water main work completed on the side streets in 2024, on 105<sup>th</sup>, 106<sup>th</sup>, 108<sup>th</sup>, 109<sup>th</sup>, and 110<sup>th</sup> Street. The contractor continues to advance pre-construction surveys and the installation of monitoring equipment in preparation for the future excavation on Second Avenue. Work in the coming months will include installation of utility vaults, and ongoing utility relocation on the east side of Second Avenue.

The contractor will be working in several locations simultaneously and these areas will be enclosed in protective barriers (MPT) to protect the public, as well as the workers while they do this work. If you have any questions, please contact our Community Information Center at 212. 722. 3700.

## Re-Routing Electrical Conduit Infrastructure

Relocating and installing electrical conduit on 110th Street between Second and Third Avenue

MTA's contractor C.A.C. Industries, Inc., has been busy installing new electrical lines along the project corridor, both on 2nd Avenue and select side streets (106<sup>th</sup>, 108<sup>th</sup>, 109<sup>th</sup>, and 110<sup>th</sup>).

These new electrical lines will allow us to move old infrastructure out of the way of the future subway, while also upgrading these services for residents and extending their useful life. C.A.C. will be replacing water and sewer infrastructure next.

## Keeping You Informed

# Community Information Center

NYU students attend briefing at the Community Information Center

Did you know that the Second Avenue Subway project has a Community Information Center on 125th Street. The center provides information about how Phase 2 will be constructed, complete with interactive kiosks and videos detailing how the work will be completed in the upcoming years.

School classes and local groups are welcome at the center. Just give us a call and reserve your slot. We look forward to seeing you.

# Construction Notification Signs

Multi-Language Resident Advisory Notices

As part of our commitment to keep you informed, you may have noticed signage posted on buildings and along the Second Avenue Subway construction area. Most often, those notifications to the public indicate the work that is being carried out along the alignment such as water shutdowns, night work, parking regulation changes, and electrical utility relocation.

Please be aware of these signs, particularly if they are posted on your building door or in your lobby. If you have any questions about posted notifications, please contact the project team at 212-722-3700.
