

INDEX

Note: In cases where a subject area is discussed in depth throughout a chapter, the index makes reference to the first page where the discussion begins.

Above-Ground Construction Activities
 Construction Methods and Activities3-22

Access Limitations and Displacement *See also* “Displacement and Relocation”
 Construction 3-61, 8-3

Acquisition of Property **8-34**
 Compensation and Relocation Assistance 8-34
 Effects of Permanent Displacement and Relocation 8-32
 for Permanent Below-Ground Easements 8-34
 for Use During Construction: Staging Areas 8-6
 for Use During Construction: Temporary Subsurface Easements 8-7
 Identification of Potential Properties for Acquisition for Permanent Project Elements 8-11
 Need for Private Property 8-7
 Selection Process for Properties to be Acquired 8-9

Air Quality **11-1**
 Analyzed Pollutants 11-1
 Construction Impacts of the Project Alternatives 11-9
 Existing Conditions 11-8
 Future Conditions Common to All Alternatives 11-8
 Methodology 11-4
 Permanent Impacts of the Project Alternatives 11-23
 Standards and Criteria 11-2
 Summary of Significant Adverse Impacts and Mitigation Measures 11-25

Alignment **2-8, 2-12**

Americans with Disability Act
 Station Access 2-20
 Station Elements 5B-38

Ancillary Facilities
 Description of 2-21
 Displacement and Relocation 8-10

Archaeological Resources **10-1**
 Area of Potential Effect 10-4
 Areas of Potential Sensitivity 10-11
 Construction Impacts of the Project Alternatives 10-9
 Existing Conditions 10-5, 10-6
 Future Conditions Common to All Alternatives 10-9
Illustration of Archaeological Sensitivity or Potential Project Effects *Figs. 10-1–10-6*
 Methodology 10-3
 Mitigation Measures, Summary of 10-21
 Ongoing Future Analyses and Consultation 10-10
 Permanent Impacts of the Project Alternatives 10-20
 Potential Construction Impacts to Burial Grounds 10-9
 Programmatic Agreement Contents 10-20

Public Outreach	10-1
Section 106 Requirements	10-1
Significant Adverse Impacts, Summary of	10-20
Types of Resources	10-1
Area of Potential Effect (APE)	9-2, 10-4
Barge Activities	
Pier 6	3-41
Spoils Removal Activity	3-30
Bonus Plazas	
Impacts to	7-16
Broadway Line	
Connection to	2-14
Existing Ridership	5B-2
Pedestrian Impacts	5F-7
Proposed Second Avenue Subway Service on	5B-23
West Side Neighborhood Zone, Description of	6-17, 6-25, 6-47, 6-52
Burial Grounds	
Deep Chrystie Option	4(f)-49
Forsyth Street Option	4(f)-51
Potential Existence of	10-2, 10-3, 10-6
Potential for Construction Impacts to	10-9
Public Outreach to Descendant Communities	10-19
Shallow Chrystie Option	4(f)-51
Buses	
Potential Relocation During Construction	5C-2
Project Benefits	5C-6
Cemeteries	<i>See “Burial Grounds” and “Human Burials”</i>
Chinatown	
Environmental Justice Analysis	18-3
Historic Resources Within	9-5–9-9
Noise, Airborne	12-10, 12-34
Open Space Impacts	7-3
Social and Economic Conditions	6-12, 6-23, 6-43, 6-52
Vehicular Traffic	5D-2
Coastal Zone	
<i>Illustration of Coastal Zone Near Manhattan Alignment</i>	<i>Fig. 16-1</i>
<i>Illustration of Coastal Zone Near 207th Street Yard</i>	<i>Fig. 16-2</i>
Coastal Zone Consistency	16-1
Construction and Permanent Activities Within the Coastal Zone	16-2
Local Waterfront Revitalization Policies, Conformance with	16-5
Regulatory Framework	16-1
Coenties Slip	
Open Space Impacts During Construction	7-14
Section 4(f) Evaluation	4(f)-44

Comments Received on 1999 MIS/DEIS	4-2, 4-4
Comments Received on 2003 SDEIS.....	23-1
Public Outreach and Review	4-3
Commitment of Resources.....	20-1
Cost and Funding.....	20-5
Irreversible and Irretrievable Commitment of Resources	20-1
Long-Term Productivity.....	20-3
Short-Term Uses of the Environment.....	20-3
Community Board Coordination	4-4, 18-12
Compensation and Relocation Assistance	8-34
Coney Island Creek	
Elimination of Coney Island Yard from FEIS.....	2-11, 15-1, 16-5
Connections to Existing Stations	
Construction Effects on Transit Service.....	5B-13, 5B-34
Proposed Connections	3-51
Construction Impacts	
Air Quality.....	11-9
Archaeological Resources	10-9
Contaminated Materials.....	14-12
Displacement and Relocation	8-1
Historic Resources.....	9-12
Infrastructure and Energy	13-5
Natural Resources.....	15-4
Noise and Vibration	
Airborne Noise	12-6
Vibration and Ground-Borne Noise	12-41
Public Open Space.....	7-7
Social and Economic Conditions.....	6-25
East Harlem.....	6-31
East Midtown	6-38
East Village/Lower East Side/Chinatown	6-43
Gramercy Park/Union Square	6-41
Lower Manhattan	6-45
Upper East Side.....	6-37
West Side Neighborhood Zone	6-47
Transportation	
Parking	5E-2
Pedestrians.....	5F-2
Subway and Commuter Rail.....	5B-12
Surface Transit	5C-2
Vehicular Traffic	5D-5
Construction Methods and Activities	3-1
Above-Ground Construction Activities.....	3-22
Access Limitations and Displacement During Construction.....	3-61
Connections to Existing Stations.....	3-51
Construction at Existing Transit Facilities	3-51
Construction at Yards and Maintenance Facilities	3-60

Construction in Vicinity of Existing Transit Facilities.....	3-21
Construction Options for Tunnels and Stations.....	3-42
Construction Options, Overview.....	3-43
Conventional Mining.....	3-8
Cut-and-Cover Method.....	3-10
Dewatering.....	3-20
Goals.....	3-42
Ground Improvement Measures Employed to Facilitate Use of TBMs.....	3-19
Improvements Following Construction.....	3-63
Mechanized Boring Machines.....	3-5
Options for Managing Spoils.....	3-31
Other Construction Elements.....	3-51
Overview of Construction Methods.....	3-4
Phasing/Sequencing.....	3-3, 3-43
Protective Measures for Existing Structures.....	3-16
Rodent Control.....	3-21
Station Finishes.....	3-21
Shaft Sites and Staging Areas, Requirements for.....	3-22
Shaft Sites and Staging Areas for Mechanized Boring Machines.....	3-23
Spoils Removal and Supply Delivery Operations.....	3-26
Spoils Removal and Supply Delivery by Truck.....	3-28
Spoils Removal and Supply Delivery by Barge.....	3-30
Summary by Location.....	3-52–3-57
Use of Existing Tunnels.....	3-16
Construction Protection Plan	
Historic Resources.....	9-14
Construction Sequencing Plan.....	3-3, 3-43
Selected Option.....	3-45
Contaminated Materials	
Construction Impacts of the Project Alternatives.....	14-12
Existing Conditions.....	14-8
Future Conditions Common to All Alternatives.....	14-12
Methodology.....	14-1
Mitigation Measures, Summary of.....	14-19
Permanent Impacts of the Project Alternatives.....	14-18
Potential Contaminants of Concern.....	14-2
Results of Initial Borings Program Undertaken Since the SDEIS.....	14-9
Significant Adverse Impacts and Mitigation Measures.....	14-19
Conventional Mining Use	
Construction Methods and Activities.....	3-8
Cost.....	2-27, 20-5
Cost by Phase.....	3-3
Crack is Wack Playground	
Air Quality Impacts During Construction.....	11-15
Airborne Noise Mitigation.....	12-34
Open Space Impacts.....	7-16
Section 4(f) Evaluation.....	4(f)-6
Social and Economic Conditions Impacts During Construction.....	6-37

Cumulative Effects	19-5, 19-11
Other Nearby Projects	19-6
Cut-and-Cover Construction	
Overview	3-10
Potential Locations of.....	3-52–3-57
Relocation of Utilities.....	3-12
Slurry Walls.....	3-12
Street Closures.....	3-11
Street Excavation and Decking.....	3-14, 3-15
Utility Relocation During Construction	13-5
Deep Chrystie Option	4(f)-50
<i>See also</i> “East Village/Lower East Side/Chinatown” and “Lower Manhattan”	
Description of.....	2-8
Environmental Justice Analysis.....	18-23
<i>Illustration of</i>	<i>Fig. 2-6</i>
Impacts to Sara D. Roosevelt Park	6-44
Impacts to Social and Economic Conditions During Construction	6-28
Modified Deep Chrystie Option	2-8
Section 4(f) Evaluation.....	4(f)-33
Traffic Impacts During Construction	5D-22
Dewatering	
Construction Methods and Activities	3-20
Effects of Dewatering on.....	15-7
Potential for Contamination	14-17
Displacement and Relocation	8-1
Acquisition of Permanent Below-Ground Easements	8-34
Acquisition of Private Property for Permanent Project Elements	8-7
Acquisition of Property for Shaft Sites and Staging Areas	8-7
Acquisition of Property for Use During Construction: Staging Areas	8-6
Activities That May Require Displacement or Acquisition to Facilitate Construction	8-2
Compensation and Relocation Assistance.....	8-34
Effects of Permanent Displacement and Relocation	8-32
Identification of Properties for Acquisition for Permanent Project Elements	8-11
Possible Longer-Term Access Limitations During Construction.....	8-4
Short-Term Access Limitation During Construction	8-3
Significant Adverse Impacts and Mitigation Measures, Summary of.....	8-36
Summary of Displacement and Relocation to Facilitate Construction.....	8-7
Dust	<i>See</i> “Air Quality”
East Harlem	
Crack is Wack Playground	
Air Analysis During Construction.....	11-15
Airborne Noise Mitigation	12-34
Construction At or Near	3-41, 11-15
Location of	7-2
Natural Resources Assessment at 129th Street Barge Site.....	15-2
Open Space Impacts.....	7-16
Section 4(f) Evaluation.....	4(f)-6
Social and Economic Conditions Impacts During Construction	6-37

Cumulative Effects	19-12
Environmental Justice Analysis.....	18-3
Other Project Occurring Within	19-6
Historic Resources Within.....	9-5-9-9
Indirect and Cumulative Effects	19-6
Natural Resources Assessment at 129th Street Barge Site.....	15-2
Noise, Airborne	12-10, 12-34
Playground 96	
Airborne Noise Impacts During Construction.....	12-10
Airborne Noise Mitigation	12-34
Construction at	3-37
Location of	7-2
Open Space Impacts During Construction	7-8
Section 4(f) Evaluation.....	4(f)-12
Social and Economic Conditions Impacts During Construction.....	6-35
Public Open Space.....	7-7
Social and Economic Conditions.....	6-2, 6-22, 6-31, 6-50
Vehicular Traffic	5D-1, 5D-12
East Midtown	
Cumulative Effects	19-15
Environmental Justice Analysis.....	18-3
Historic Resources Within.....	9-5-9-9
Indirect and Cumulative Effects	19-8
Noise, Airborne	12-10, 12-34
Other Projects Occurring Within.....	19-8
Public Open Space.....	7-9
St. Vartan Park	
Airborne Noise Impacts During Construction.....	12-10
Airborne Noise Mitigation	12-34
Construction at	3-40
Location of	7-3
Open Space Impacts During Construction	7-9
Public Open Space	7-9
Section 4(f) Evaluation.....	4(f)-21
Social and Economic Conditions Impacts During Construction.....	6-38
Vehicular Traffic Impacts During Construction.....	6-40
Social and Economic Conditions.....	6-7, 6-23, 6-38, 6-51
Vehicular Traffic	5D-18
East Village/Lower East Side/Chinatown	
Cumulative Effects	19-18
Environmental Justice	18-3, 18-23
Historic Resources Within.....	9-5-9-9
Indirect and Cumulative Effects	19-9
Kimlau Sqaure	
Location of	7-3
Open Space Impacts During Construction	7-12
Section 4(f) Evaluation.....	4(f)-39
Public Open Space.....	7-11, 7-12
Sara D. Roosevelt Park: Public Open Space	7-11
Airborne Noise Mitigation	12-34

Location of	7-3
Open Space Impacts During Construction	7-11
Permanent Social and Economic Conditions Impacts	6-52
Public Open Space	7-11, 7-17
Section 4(f) Evaluation	4(f)-33
Social and Economic Conditions	6-12, 6-23, 6-43
