2025 Inspection

Deloitte & Touche LLP

(Headquartered in New York, New York)

May 21, 2026

THIS IS A PUBLIC VERSION OF A PCAOB INSPECTION REPORT

PORTIONS OF THE COMPLETE REPORT ARE OMITTED FROM THIS DOCUMENT IN ORDER TO COMPLY WITH SECTIONS 104(g)(2) AND 105(b)(5)(A) OF THE SARBANES-OXLEY ACT OF 2002

PCAOB
PUBLIC COMPANY ACCOUNTING OVERSIGHT BOARD

EXECUTIVE SUMMARY

Our 2025 inspection report on Deloitte & Touche LLP provides information on our inspection to assess the firm's compliance with Public Company Accounting Oversight Board (PCAOB) standards and rules and other applicable regulatory and professional requirements. This executive summary offers a high-level overview of what is included in this report:

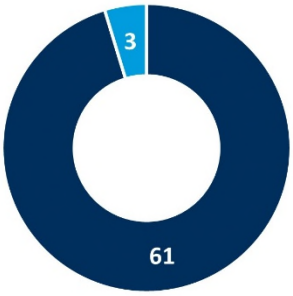

- Part I.A of the report discusses deficiencies ("Part I.A deficiencies") in certain issuer audits that were of such significance that we believe the firm, at the time it issued its audit report(s), had not obtained sufficient appropriate audit evidence to support its opinion(s) on the issuer's financial statements and/or internal control over financial reporting (ICFR).
- Part I.B of the report discusses certain deficiencies ("Part I.B deficiencies") that relate to instances of non-compliance with PCAOB standards or rules other than those where the firm had not obtained sufficient appropriate audit evidence to support its opinion(s). This section does not discuss instances of apparent non-compliance with rules related to maintaining independence.
- Part I.C of the report discusses instances of apparent non-compliance with rules related to maintaining independence ("Part I.C deficiencies").

If we include a Part I.A or Part I.B deficiency in this report — other than those deficiencies for audits with incorrect opinions on the financial statements and/or ICFR — it does not necessarily mean that the issuer's financial statements are materially misstated or that undisclosed material weaknesses in ICFR exist. If we include a Part I.C deficiency in this report, it does not necessarily mean that the Board has concluded the firm was not objective and impartial throughout the audit and professional engagement period. If we include a deficiency in Part I.A, Part I.B, or Part I.C of this report, it does not necessarily mean that the firm has not addressed the deficiency.

Overview of the 2025 Deficiencies Included in Part I

Three of the 64 audits we reviewed in 2025 are included in Part I.A of this report due to the significance of the deficiencies identified. The identified deficiencies related to the firm's testing of controls over and/or substantive testing of revenue.

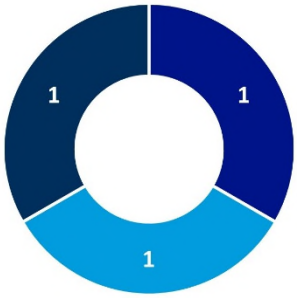

2025

5% Part I.A deficiency rate

- Audits without Part I.A deficiencies
- Audits with Part I.A deficiencies

2025

- Deficiencies in both financial statement and ICFR audits
- Deficiencies in the financial statement audit only
- Deficiencies in the ICFR audit only

The Part I.A deficiencies in 2025 related to identifying controls related to a significant account or relevant assertion, testing data or reports used in substantive testing, and testing an estimate.

The Part I.B deficiencies in 2025 related to risk assessment, audit committee communications, the firm's audit report, and Form 3.

The most common Part I.C deficiencies in 2025 related to audit committee pre-approval, unpaid fees, financial relationships, and employment relationships.

2025 INSPECTION

In the 2025 inspection of Deloitte & Touche LLP, the PCAOB assessed the firm's compliance with laws, rules, and professional standards applicable to the audits of issuers.

We selected for review 64 audits of issuers with fiscal years generally ending in 2024. For each issuer audit selected, we reviewed a portion of the audit. We also evaluated elements of the firm's system of quality control.

What's Included in this Inspection Report

This report includes the following sections:

- **Overview of the 2025 Inspection and Historical Data by Inspection Year:** Information on our inspection, historical data, and common deficiencies.
- **Part I – Inspection Observations:**
  - **Part I.A:** Deficiencies that were of such significance that we believe the firm, at the time it issued its audit report(s), had not obtained sufficient appropriate audit evidence to support its opinion(s) on the issuer's financial statements and/or ICFR.
  - **Part I.B:** Certain deficiencies that relate to instances of non-compliance with PCAOB standards or rules other than those where the firm had not obtained sufficient appropriate audit evidence to support its opinion(s). This section does not discuss instances of apparent non-compliance with rules related to maintaining independence.
  - **Part I.C:** Instances of apparent non-compliance with rules related to maintaining independence.

  Consistent with the Sarbanes-Oxley Act ("Act"), it is the Board's assessment that nothing in Part I of this report deals with a criticism of, or potential defect in, the firm's quality control system. We discuss any such criticisms or potential defects in Part II. Further, you should not infer from any Part I deficiency, or combination of deficiencies, that we identified a quality control finding in Part II.
- **Part II – Observations Related to Quality Control:** Criticisms of, or potential defects in, the firm's system of quality control. Section 104(g)(2) of the Act restricts us from publicly disclosing Part II deficiencies unless the firm does not address the criticisms or potential defects to the Board's satisfaction no later than 12 months after the issuance of this report.
- **Appendix A – Firm's Response to the Draft Inspection Report:** The firm's response to a draft of this report, excluding any portion granted confidential treatment.

2025 Inspection Approach

In selecting issuer audits for review, we use both risk-based and random methods of selection. We make the majority of our selections based on (1) our internal evaluation of audits we believe have a heightened risk of material misstatement, including those with challenging audit areas, and (2) other risk-based characteristics, including issuer and firm considerations. We also select audits randomly to provide an element of unpredictability.

When we review an audit, we do not review every aspect of the audit. Rather, we generally focus our attention on audit areas we believe to be of greater complexity, areas of greater significance or with a heightened risk of material misstatement to the issuer's financial statements, and areas of recurring deficiencies. We may also select some audit areas for review in a manner designed to incorporate unpredictability.

Our selection of audits for review does not constitute a representative sample of the firm's total population of issuer audits. Additionally, our inspection findings are specific to the particular portions of the issuer audits reviewed. They are not an assessment of all of the firm's audit work nor of all of the audit procedures performed for the audits reviewed.

Our target team performs inspection procedures in areas of current audit risk and emerging topics and focuses its reviews primarily on evaluating the firm's procedures related to that risk or topic. In 2025, our target team focused primarily on audit areas in which the firm outsourced certain audit procedures to offshore shared service centers; on audits in which the firm played a role but was not the lead/principal auditor; and on the firm's procedures to test the statement of cash flows, segment reporting, and supplier financing arrangement disclosures.

View the details on the scope of our inspections and our inspections procedures.

Master Page # 7 of 165 - MTA Board Meeting 10/28/2026

OVERVIEW OF THE 2025 INSPECTION AND HISTORICAL DATA BY INSPECTION YEAR

The following information provides an overview of our 2025 inspection as well as data from the previous two inspections. We use a combination of risk-based and random methods to select audits for review and to identify areas on which we focus our review. Because our inspection process evolves over time, it can, and often does, focus on a different mix of audits and audit areas from year to year and firm to firm. As a result of this variation, we caution that our inspection results are not necessarily comparable over time or among firms.

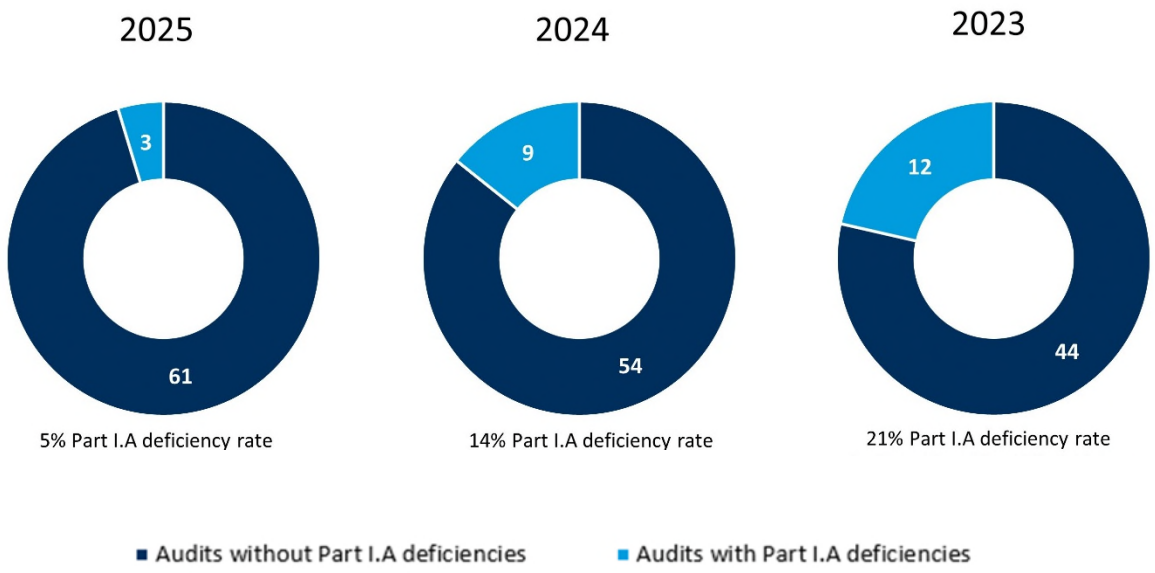

Audits Selected for Review

	2025	2024	2023
Total audits reviewed			
Total audits reviewed	64	63	56
Selection method			
Risk-based selections	48	48	42
Random selections	12	12	10
Target team selections[1]	4	3	4
Total audits reviewed	**64**	**63**	**56**
Lead/Principal auditor			
Audits in which the firm was the lead/principal auditor	62	62	55
Audits in which the firm was not the lead/principal auditor	2	1	1
Total audits reviewed	**64**	**63**	**56**
Audit type			
Integrated audits of financial statements and ICFR	57	50	50
Financial statement audits only	7	13	6
Total audits reviewed	**64**	**63**	**56**

[1] For further information on the target team's activities in 2024 and 2023, refer to those inspection reports.

Part I.A Deficiencies in Audits Reviewed

In 2025 and 2024, all of the audits appearing in Part I.A were selected for review using risk-based criteria. In 2023, nine of the 12 audits appearing in Part I.A were selected for review using risk-based criteria.

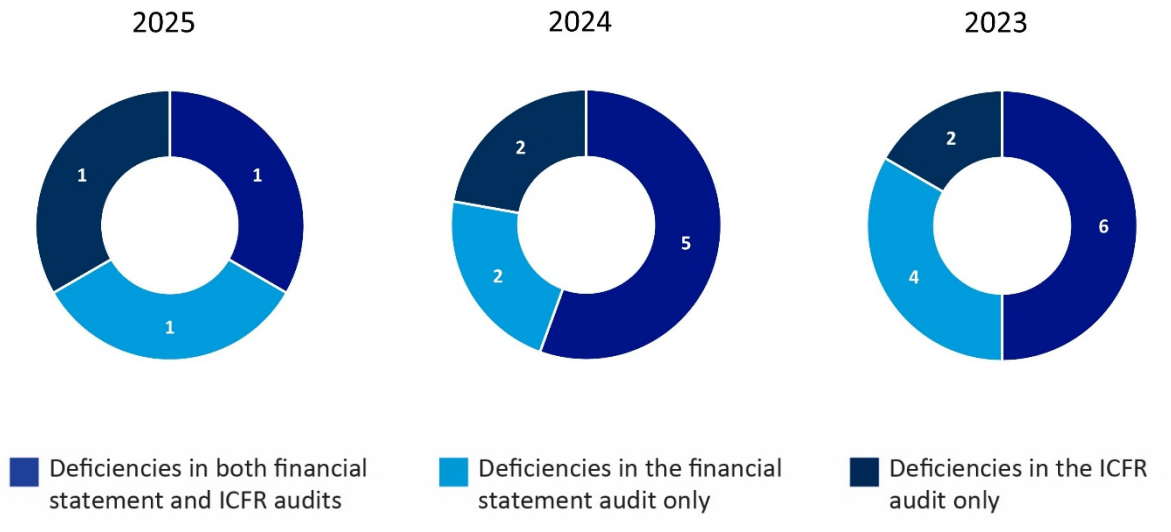

If we include a deficiency in Part I.A of our report, it does not necessarily mean that the firm has not addressed the deficiency. In certain cases, the firm may have performed remedial actions after the deficiency was identified. Depending on the circumstances, remedial actions may include performing additional audit procedures, informing management of the issuer of the need for changes to the financial statements or reporting on ICFR, or taking steps to prevent reliance on prior audit reports.

Our inspection may include a review, on a sample basis, of the adequacy of a firm's remedial actions, either with respect to previously identified deficiencies or deficiencies identified during the current inspection. If a firm does not take appropriate actions to address deficiencies, we may criticize its system of quality control or pursue a disciplinary action.

If we include a Part I.A or Part I.B deficiency in our report — other than those deficiencies for audits with incorrect opinions on the financial statements and/or ICFR — it does not necessarily mean that the issuer's financial statements are materially misstated or that undisclosed material weaknesses in ICFR exist. It is often not possible for us to reach a conclusion on those points based on our inspection procedures and related findings because, for example, we have only the information that the auditor retained and the issuer's public disclosures. We do not have direct access to the issuer's management, underlying books and records, and other information.

Audits Affected by the Deficiencies Identified in Part I.A

The following tables and graphs summarize inspection-related information, by inspection year, for 2025 and the previous two inspections. We caution against making any comparison of the data provided without reading the descriptions of the underlying deficiencies in each respective inspection report.

Most Frequently Identified Part I.A Deficiencies

Deficiencies in audits of financial statements	Audits with Part I.A deficiencies		
	2025	2024	2023
Did not perform sufficient testing of data or reports used in the firm's substantive testing	1	2	3
Did not sufficiently test an estimate	1	2	2
Did not obtain sufficient evidence as a result of overreliance on controls (due to deficiencies in testing controls)	1	2	0

Deficiencies in ICFR audits	Audits with Part I.A deficiencies		
	2025	2024	2023
Did not identify and test any controls that addressed the risks related to a significant account or relevant assertion	2	2	4

Audit Areas Most Frequently Reviewed

This table reflects the five audit areas we have selected most frequently for review in each inspection year (and the related Part I.A deficiencies). For the issuer audits selected for review, we selected these areas because they were generally significant to the issuer's financial statements, may have included complex issues for auditors, and/or involved complex judgments in (1) estimating and auditing the reported value of related accounts and disclosures and (2) implementing and auditing the related controls.

2025			2024			2023		
Audit area	**Audits reviewed**	**Audits with Part I.A deficiencies**	**Audit area**	**Audits reviewed**	**Audits with Part I.A deficiencies**	**Audit area**	**Audits reviewed**	**Audits with Part I.A deficiencies**
Revenue and related accounts	51	3	**Revenue and related accounts**	43	2	**Revenue and related accounts**	40	5
Inventory	22	0	**Inventory**	12	1	**Inventory**	20	2
Goodwill and intangible assets	15	0	**Long-lived assets**	12	1	**Business combinations**	14	1
Long-lived assets	10	0	**Business combinations**	11	0	**Goodwill and intangible assets**	12	1
Business combinations	9	0	**Goodwill and intangible assets**	9	0	**Investment securities**	8	2

Audit Areas with Frequent Part I.A Deficiencies

This table reflects the audit areas with the most frequently identified Part I.A deficiencies in each inspection year with the corresponding results for the other two years presented.

Audit area	2025		2024		2023	
	Audits with Part I.A deficiencies	Audits reviewed	Audits with Part I.A deficiencies	Audits reviewed	Audits with Part I.A deficiencies	Audits reviewed
Revenue and related accounts	3	51	2	43	5	40
Allowance for credit losses/ Allowance for loan losses	0	2	2	4	2	4
Leases	0	3	2	3	0	0
Inventory	0	22	1	12	2	20
Investment securities	0	5	1	8	2	8

Revenue and related accounts: The deficiencies in 2025 primarily related to substantive testing of, or testing controls over, the accuracy of data or reports. The deficiencies in 2024 related to substantive testing of, and testing controls over, revenue. The deficiencies in 2023 primarily related to substantive testing of revenue.

Allowance for credit losses/Allowance for loan losses: The deficiencies in 2024 primarily related to testing controls over the allowance for credit losses. The deficiencies in 2023 related to substantive testing of, and testing controls over, the allowance for credit losses/allowance for loan losses.

Leases: The deficiencies in 2024 primarily related to substantive testing of leases, including evaluating leases for possible impairment.

Inventory: The deficiencies in 2024 related to testing controls over the existence of inventory and the resulting overreliance on controls when performing substantive testing. The deficiencies in 2023 related to substantive testing of, and testing controls over, inventory.

Investment securities: The deficiency in 2024 related to testing controls over the valuation of investment securities. The deficiencies in 2023 primarily related to substantive testing of, and testing controls over, the valuation of investment securities.

Auditing Standards Associated with Identified Part I.A Deficiencies

The following lists the auditing standards referenced in Part I.A of the 2025 and the previous two inspection reports, and the number of times that the standard is cited in Part I.A.

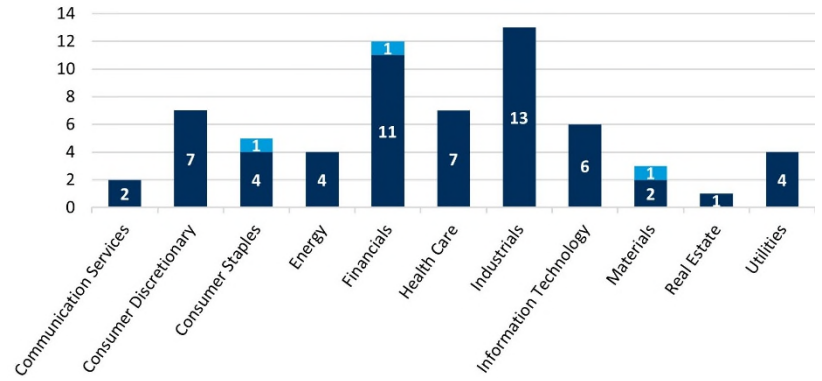

PCAOB Auditing Standards	2025	2024	2023
AS 1105, *Audit Evidence*	1	3	4
AS 2201, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*	2	11	13
AS 2301, *The Auditor's Responses to the Risks of Material Misstatement*	1	4	4
AS 2305, *Substantive Analytical Procedures*	0	2	2
AS 2310, *The Confirmation Process*[2]	0	1	0
AS 2315, *Audit Sampling*	1	0	1
AS 2501, *Auditing Accounting Estimates, Including Fair Value Measurements*	1	1	3
AS 2505, *Inquiry of a Client's Lawyer Concerning Litigation, Claims, and Assessments*	0	0	1
AS 2510, *Auditing Inventories*	0	1	0
AS 2810, *Evaluating Audit Results*	0	1	1

[2] The citations in this report refer to AS 2310, *The Confirmation Process*, which was in effect for these audits. This standard was replaced by AS 2310, *The Auditor's Use of Confirmation*, which became effective for audits of financial statements for fiscal years ending on or after June 15, 2025.

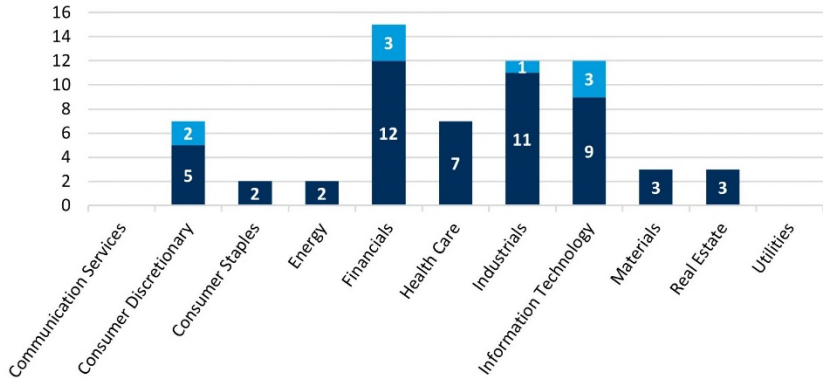

Inspection Results by Issuer Industry Sector

The majority of industry sector data is based on Global Industry Classification Standard (GICS) data obtained from Standard & Poor's (S&P). In instances where GICS data for an issuer is not available from S&P, classifications are assigned based upon North American Industry Classification System data.

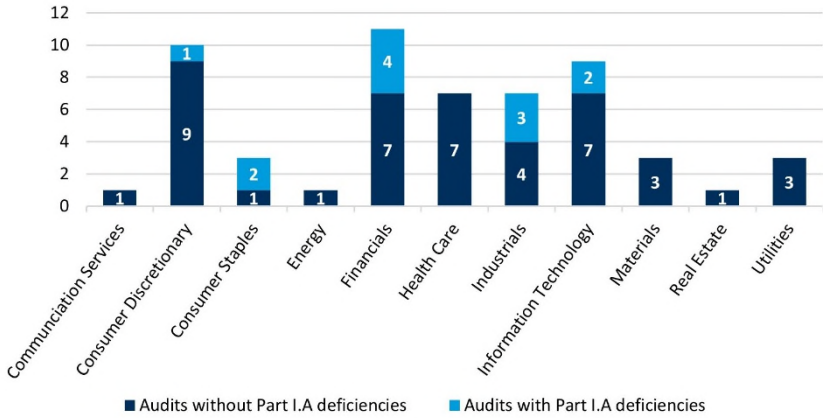

2025

Classification of Audits with Part I.A Deficiencies

Within Part I.A of this report, we classify each issuer audit in one of the categories discussed below based on the Part I.A deficiency or deficiencies identified in our review.

The purpose of this classification system is to group and present issuer audits by the number of Part I.A deficiencies we identified within the audit as well as to highlight audits with an incorrect opinion on the financial statements and/or ICFR.

Audits with an Incorrect Opinion on the Financial Statements and/or ICFR

This classification includes instances where a deficiency was identified in connection with our inspection and, as a result, an issuer's financial statements were determined to be materially misstated, and the issuer restated its financial statements. It also includes instances where a deficiency was identified in connection with our inspection and, as a result, an issuer's ICFR was determined to be ineffective, or there were additional material weaknesses that the firm did not identify, and the firm withdrew its opinion, or revised its report, on ICFR. This classification does not include instances where, unrelated to our review, an issuer restated its financial statements and/or an issuer's ICFR was determined to be ineffective. We include any deficiencies identified in connection with our reviews of these audits in the audits with multiple deficiencies or audits with a single deficiency classification below.

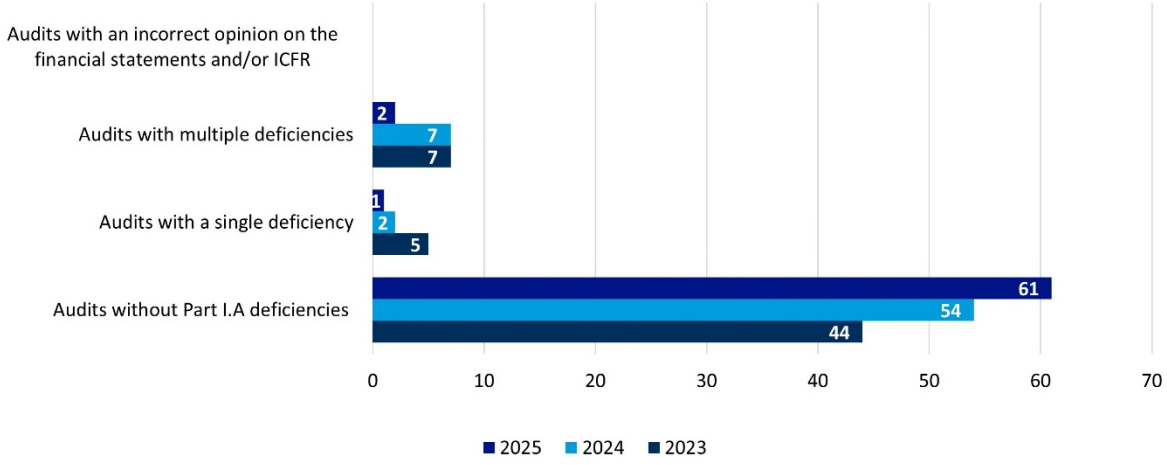

Audits with Multiple Deficiencies

This classification includes instances where multiple deficiencies were identified that related to a combination of one or more financial statement accounts, disclosures, and/or important controls in an ICFR audit.

Audits with a Single Deficiency

This classification includes instances where a single deficiency was identified that related to a financial statement account or disclosure or to an important control in an ICFR audit.

Number of Audits in Each Category

PART I: INSPECTION OBSERVATIONS

Part I.A of our report discusses deficiencies that were of such significance that we believe the firm, at the time it issued its audit report(s), had not obtained sufficient appropriate audit evidence to support its opinion(s) on the issuer's financial statements and/or ICFR.

Part I.B discusses certain deficiencies that relate to instances of non-compliance with PCAOB standards or rules other than those where the firm had not obtained sufficient appropriate audit evidence to support its opinion(s). This section does not discuss instances of apparent non-compliance with rules related to maintaining independence.

Part I.C discusses instances of apparent non-compliance with rules related to maintaining independence.

Consistent with the Act, it is the Board's assessment that nothing in Part I of this report deals with a criticism of, or potential defect in, the firm's quality control system. We discuss any such criticisms or potential defects in Part II. Further, you should not infer from any Part I deficiency, or combination of deficiencies, that we identified a quality control finding in Part II.

PART I.A: AUDITS WITH UNSUPPORTED OPINIONS

This section of our report discusses the deficiencies identified, by specific issuer audit reviewed, in the audit work supporting the firm's opinion(s) on the issuer's financial statements and/or ICFR.

We identify each issuer by a letter (e.g., Issuer A) and industry sector. Each deficiency could relate to several auditing standards, but we reference the PCAOB standard(s) that most directly relates to the requirement with which the firm did not comply.

We present issuer audits below within their respective deficiency classifications (as discussed previously). Within the classifications, we generally present the audits based on our assessment as to the relative significance of the identified deficiencies, taking into account the significance of the financial statement accounts and/or disclosures affected, and/or the nature or extent of the deficiencies.

Audits with an Incorrect Opinion on the Financial Statements and/or ICFR

None

Audits with Multiple Deficiencies

Issuer A – Consumer Staples

Type of audit and related area affected

In our review, we identified deficiencies in the financial statement and ICFR audits related to **Revenue**.

Description of the deficiencies identified

The firm did not identify and test any controls over the accuracy of the prices that the issuer used to record revenue for certain business units. (AS 2201.39)

The sample size the firm used in certain of its substantive procedures to test revenue for one of the issuer's business units was too small to provide sufficient appropriate audit evidence because these procedures were designed based on a level of control reliance that was not supported due to the deficiency in the firm's testing discussed above. (AS 2301.16, .18, and .37; AS 2315.19, .23, and .23A)

Issuer B – Materials

Type of audit and related areas affected

In our review, we identified deficiencies in the financial statement audit related to **Revenue** and **Accounts Receivable**.

Description of the deficiencies identified

With respect to **Revenue**, for which the firm identified a fraud risk:

The issuer recorded revenue net of customer discounts. The firm used an issuer-produced report in its substantive testing of one of the issuer's discount programs but did not test, or test controls over, the accuracy of this report. (AS 1105.10)

With respect to **Accounts Receivable**:

For certain accounts receivable, the firm's approach for substantively testing the allowance for doubtful accounts was to develop an independent expectation of the estimate. The firm did not have a reasonable basis for the assumptions used to develop its independent expectation. (AS 2501.22)

Audits with a Single Deficiency

Issuer C – Financials

Type of audit and related area affected

In our review, we identified a deficiency in the ICFR audit related to **Revenue**.

Description of the deficiency identified

The issuer recognized certain revenue at a point in time based, in part, on the date a contract became effective. The firm selected for testing certain automated and IT-dependent manual controls over revenue recognition but did not test any controls over the accuracy of the effective dates used in the operation of these controls. (AS 2201.39)

PART I.B: OTHER INSTANCES OF NON-COMPLIANCE WITH PCAOB STANDARDS OR RULES

This section of our report discusses certain deficiencies that relate to instances of non-compliance with PCAOB standards or rules other than those where the firm had not obtained sufficient appropriate audit evidence to support its opinion(s). This section does not discuss instances of apparent non-compliance with rules related to maintaining independence.

When we review an audit, we do not review every aspect of the audit. As a result, the areas below were not necessarily reviewed on every audit. In some cases, we assess the firm's compliance with specific PCAOB standards or rules on other audits that were not reviewed and include any instances of non-compliance below.

The deficiencies below are presented in numerical order based on the PCAOB standard or rule with which the firm did not comply. We identified the following deficiencies:

- In one of 61 audits reviewed, the firm did not inquire of the audit committee about fraud risks. In this instance, the firm was non-compliant with AS 2110, *Identifying and Assessing Risks of Material Misstatement*.
- In three of 61 audits reviewed, the firm did not make certain required communications to the audit committee related to its evaluation of the issuer's identification of, accounting for, and disclosure of its relationships and transactions with related parties. In these instances, the firm was non-compliant with AS 2410, *Related Parties*.
- In two of 61 audits reviewed, the firm's audit report did not include a statement indicating that the financial statements included the related notes. In these instances, the firm was non-compliant with AS 3101, *The Auditor's Report on an Audit of Financial Statements When the Auditor Expresses an Unqualified Opinion.*
- In one of 59 audits reviewed, the firm's audit report did not include certain language required to precede critical audit matters communicated in the audit report. In this instance, the firm was non-compliant with AS 3101, *The Auditor's Report on an Audit of Financial Statements When the Auditor Expresses an Unqualified Opinion*.
- In one instance, the firm did not file its report on Form 3 by the relevant deadline. In this instance, the firm was non-compliant with PCAOB Rule 2203, *Special Reports*.
- In one of 61 audits reviewed, the firm did not describe, in writing, to the audit committee the scope of certain permissible tax services and the fee structure for these services. In this instance, the firm was non-compliant with PCAOB Rule 3524, *Audit Committee Pre-approval of Certain Tax Services.*

PART I.C: INDEPENDENCE

PCAOB Rule 3520, *Auditor Independence*, requires a firm and its personnel to be independent of the firm's audit clients. This requirement encompasses not only an obligation to satisfy the independence criteria set out in PCAOB rules and standards but also an obligation to satisfy all other independence criteria applicable to an engagement, including the independence criteria set out by the SEC in Regulation S-X, 17 C.F.R. § 210.2-01, *Qualifications of Accountants* ("Rule 2-01").

This section of our report discusses identified instances of apparent non-compliance with PCAOB Rule 3520. An instance of apparent non-compliance with PCAOB Rule 3520 does not necessarily mean that the Board has concluded the firm was not objective and impartial throughout the audit and professional engagement period. Although this section includes instances of apparent non-compliance with PCAOB Rule 3520 that we identified and the firm brought to our attention, there may be other instances of non-compliance with rules related to independence that were not identified through our procedures or the firm's monitoring activities.

PCAOB-Identified

We identified the following instances of apparent non-compliance with PCAOB Rule 3520:

- Under Rule 2-01(c)(7), an accountant is not independent if it is engaged to render audit or non-audit services to an issuer or its subsidiaries without that engagement having been pre-approved by the audit committee. In 62 audits reviewed, we identified 10 instances across eight issuers in which certain services were not pre-approved by the audit committee as is necessary to satisfy the independence criteria.
- An auditor could appear to have a direct interest in the results of an audit client's operations, inconsistent with independence requirements, in circumstances involving unpaid audit or other professional fees. This can include circumstances in which either (i) unpaid fees are owed by the audit client for an extended period and become material in relation to the fee to be charged for the current audit, and there are not certain commitments and assurances regarding payment (generally inconsistent with the general standard of independence in Rule 2-01(b), see SEC Codification of Financial Reporting Policies 602.02.b.iv), or (ii) billed or unbilled fees, or a note receivable arising from such fees, remain unpaid for any professional services provided more than one year prior to the date of the auditor's issuance of the audit report on the client's current year (independence impaired under PCAOB ET § 191.103-104). In 62 audits reviewed, we identified two audits in which certain unpaid fees appeared to fall into one or both of those categories.

Firm-Identified

During the inspection, the firm brought to our attention that it had identified, through its independence monitoring activities, for a 12-month period, 110 instances across 67 issuers,[3] representing approximately 3% of the firm's total reported issuer audits, in which the firm or its personnel may not have complied with Rule 2-01(b) and/or Rule 2-01(c) or PCAOB Rule 3500T related to maintaining independence. Approximately 35% of these instances of apparent non-compliance involved non-U.S. associated firms.

While we have not evaluated the underlying reasons for the instances of apparent non-compliance with PCAOB Rule 3520, the number, large or small, of firm-identified instances of apparent non-compliance may be reflective of the size of the firm, including the number of non-U.S. associated firms in the global network; the design and effectiveness of the firm's independence monitoring activities; and the size and/or complexity of the issuers it audits, including the number of affiliates of those issuers. Therefore, we caution against making any comparison of these firm-identified instances of apparent non-compliance across firms.

The most common instances of apparent non-compliance related to financial relationships, audit committee pre-approval requirements, and employment relationships:

- The firm reported 40 instances of apparent non-compliance with Rule 2-01(c)(1) regarding financial relationships, all but six of which occurred at the firm or involved its personnel. Of these instances, 34 related to investments in audit clients, 21 of which involved a member of an audit engagement team.
- The firm reported 25 instances of apparent non-compliance with Rule 2-01(c)(7) regarding audit committee pre-approval, 15 of which related to services provided by non-U.S. associated firms. Fourteen instances related to tax services provided without those engagements having been pre-approved by the audit committee.
- The firm reported 23 instances of apparent non-compliance with Rule 2-01(c)(2) regarding employment relationships. Of these instances, 11 related to employees of the firm who were also employed by an audit client, the majority of whom were staff-level employees of the firm. Twelve instances related to a former employee of the firm who was employed at an audit client in an accounting or financial reporting oversight role.

The firm has reported to us that it has evaluated the instances of potential non-compliance for issuer audit clients in which the firm was the lead/principal auditor and determined in all instances that its objectivity and impartiality were not impaired. In addition, the firm reported to us that it has communicated the remaining instances of potential non-compliance to the respective lead/principal auditor and that the lead/principal auditor determined in all instances that its objectivity and impartiality were not impaired. The firm also reported to us that it communicated these instances to the issuers' audit committees as required by PCAOB Rule 3526.

[3] The firm-identified instances of apparent non-compliance do not necessarily relate to the issuer audits that we selected for review.

PART II: OBSERVATIONS RELATED TO QUALITY CONTROL

Part II of our report discusses criticisms of, and potential defects in, the firm's system of quality control.

We include deficiencies in Part II if an analysis of the inspection results, including the results of the reviews of individual audits, indicates that the firm's system of quality control does not provide reasonable assurance that firm personnel will comply with applicable professional standards and requirements. Generally, the report's description of quality control criticisms is based on observations from our inspection procedures.

This report does not reflect changes or improvements to the firm's system of quality control that the firm may have made subsequent to the period covered by our inspection. The Board does consider such changes or improvements in assessing whether the firm has satisfactorily addressed the quality control criticisms or defects no later than 12 months after the issuance of this report.

When we issue our reports, we do not make public criticisms of, and potential defects in, the firm's system of quality control, to the extent any are identified. If a firm does not address to the Board's satisfaction any criticism of, or potential defect in, the firm's system of quality control within 12 months after the issuance of our report, we will make public any such deficiency.

APPENDIX A: FIRM'S RESPONSE TO THE DRAFT INSPECTION REPORT

Pursuant to Section 104(f) of the Act, 15 U.S.C. § 7214(f), and PCAOB Rule 4007(a), the firm provided a written response to a draft of this report. Pursuant to Section 104(f) of the Act and PCAOB Rule 4007(b), the firm's response, excluding any portion granted confidential treatment, is attached hereto and made part of this final inspection report.

The Board does not make public any of a firm's comments that address a nonpublic portion of the report unless a firm specifically requests otherwise. In some cases, the result may be that none of a firm's response is made publicly available.

In addition, pursuant to Section 104(f) of the Act, 15 U.S.C. § 7214(f), and PCAOB Rule 4007(b), if a firm requests, and the Board grants, confidential treatment for any of the firm's comments on a draft report, the Board does not include those comments in the final report. The Board routinely grants confidential treatment, if requested, for any portion of a firm's response that addresses any point in the draft that the Board omits from, or any inaccurate statement in the draft that the Board corrects in, the final report.

Re: Deloitte & Touche LLP – Response to Part I of Draft Report on 2025 Inspection (PUBLIC)

Dear Ms. Gunia:

Deloitte & Touche LLP is pleased to submit this response to Part I of the Public Company Accounting Oversight Board's (PCAOB) draft report on the 2025 Inspection of Deloitte & Touche LLP (the Draft Report). We believe that the PCAOB's inspection process serves an important role in advancing audit quality and driving consistent delivery of audits that promote public trust and confidence in the capital markets.

We have evaluated the matters identified by the PCAOB's inspection team for each of the issuer audits described in Part I of the Draft Report and, as appropriate, have taken actions in accordance with PCAOB standards to comply with our professional responsibilities under AS 2201, *An Audit of Internal Control Over Financial Reporting That Is Integrated with An Audit of Financial Statements*, AS 2901, *Consideration of Omitted Procedures After the Report Date*, and AS 2905, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report*.

Fulfilling our purpose and responsibility to strengthen trust and transparency in the capital markets with integrity and ethical leadership remains our top priority. As described in our US Audit Quality Report, quality informs every aspect of our Audit & Assurance business and is the bedrock of our strategy. Our commitment to audit quality is central to our culture of continuous improvement. To drive continuous improvements, we are maintaining our strategic focus on technology, transforming the way we work, and investing in the development of our people, each of which supports our delivery of high-quality audit and assurance services. We believe an effective system of quality control is critical for the consistent delivery of high-quality audits, and we continue to make significant investments in our audit and assurance processes, our people, and our technologies that support our system of quality control to transform and continuously enhance the quality of our audits for the investing public.

We are confident that our ongoing investments in technology and talent are resulting in significant, sustainable enhancements to our audit quality.

Sincerely,

Dipti S. Gulati
Chair and Chief Executive Officer
Deloitte & Touche LLP

FINANCIAL REPORTING ENTITY

The Metropolitan Transportation Authority ("MTA" or "MTA Group") was established under the New York Public Authorities Law and is a public benefit corporation and a component unit of the State of New York whose mission is to continue, develop, and improve public transportation and to develop and implement a unified public transportation policy in the New York metropolitan area. The financial reporting entity consists of subsidiaries and affiliates, considered component units of the MTA, because the Board of the MTA serves as the overall governing body of these related entities.

The Reporting entity includes the MTA agencies and Fiduciary Funds:

(1) the MTA is comprised of the following:

- Metropolitan Transportation Authority Headquarters ("MTAHQ") provides support in budget, cash management, finance, legal, real estate, treasury, risk and insurance management, and other services to the related groups listed below.
- The Long Island Rail Road Company ("MTA Long Island Rail Road") provides passenger transportation between New York City ("NYC") and Long Island.
- Metro-North Commuter Railroad Company ("MTA Metro-North Railroad") provides passenger transportation between NYC and the suburban communities in Westchester, Dutchess, Putnam, Orange, and Rockland counties in New York State ("NYS") and New Haven and Fairfield counties in Connecticut.
- Staten Island Rapid Transit Operating Authority ("MTA Staten Island Railway") provides passenger transportation on Staten Island.
- First Mutual Transportation Assurance Company ("FMTAC") provides primary insurance coverage for certain losses, some of which are reinsured, and assumes reinsurance coverage for certain other losses.
- MTA Construction and Development Company ("MTA Construction and Development"), formerly called MTA Capital Construction Company, provides oversight for the planning, design and construction of current and future major MTA system-wide expansion projects.
- MTA Bus Company ("MTA Bus") operates certain bus routes in areas previously served by private bus operators pursuant to franchises granted by the NYC.
- New York City Transit Authority ("MTA New York City Transit") and its subsidiary, Manhattan and Bronx Surface Transit Operating Authority ("MaBSTOA"), provide subway and public bus service within the five boroughs of New York City.
- Triborough Bridge and Tunnel Authority ("MTA Bridges and Tunnels" or "TBTA") operates seven toll bridges, two tunnels, and the Battery Parking Garage, all within the five boroughs of New York City. Additionally, it operates the Congestion Relief Zone ("CRZ") Tolling Program which imposes tolls on vehicles entering the designated CRZ zone.
- MTA Grand Central Madison Operating Company ("MTA GCMOC") operates and maintains the infrastructure and structures supporting Long Island Rail Road access into Grand Central Terminal.
- MTAHQ, MTA Long Island Rail Road, MTA Metro-North Railroad, MTA Staten Island Railway, FMTAC, MTA Construction and Development, MTA Bus, MTA New York City Transit, MTA Bridges and Tunnels, and MTA GCMOC collectively are referred to herein as MTA. MTA Long Island Rail Road and MTA Metro-North Railroad are referred to collectively as the Commuter Railroads.

The MTA provides transportation services in the New York metropolitan area, operations of seven bridges and two tunnels within New York City and primary insurance coverage to the MTA related entities. The MTA engages in Business-Type Activities. The financial results of the MTA are reported as consolidated financial statements.

(2) The Fiduciary Funds are comprised of Pension and Other Employee Benefit Trust Funds:

- Pension Trust Funds:
  - MTA Defined Benefit Pension Plan

- The Long Island Rail Road Company Plan for Additional Pensions ("LIRR Additional Plan")
- Manhattan and Bronx Surface Transit Operating Authority ("MaBSTOA Plan")
- Metro-North Commuter Railroad Cash Balance Plan ("MNR Cash Balance Plan")

- Other Employee Benefit Trust Funds
  - MTA Other Postemployment Benefits Plan ("OPEB Plan")

OVERVIEW OF THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Introduction

This report consists of: Management's Discussion and Analysis ("MD&A"), Consolidated Interim Financial Statements, Fiduciary Funds Financial Statements, Notes to the Consolidated Interim Financial Statements, Required Supplementary Information, Supplementary Information - Combining Fiduciary Fund Financial Statements, and Supplementary Information.

Management's Discussion and Analysis

This MD&A provides a narrative overview and analysis of the financial activities of the Metropolitan Transportation Authority and its consolidated subsidiaries and affiliates (the "MTA" or "MTA Group") as of June 30, 2026 and December 31, 2025 and for the six-month periods ended June 30, 2026 and 2025. For financial reporting purposes, the subsidiaries and affiliates of the MTA are blended component units. This management discussion and analysis is intended to serve as an introduction to the MTA Group's consolidated interim financial statements. It provides an assessment of how the MTA Group's position has improved or deteriorated and identifies the factors that, in management's view, significantly affected the MTA Group's overall financial position. It may contain opinions, assumptions, or conclusions by the MTA Group's management that must be read in conjunction with, and should not be considered a replacement for, the consolidated interim financial statements.

The Consolidated Interim Financial Statements

The Consolidated Interim Statements of Net Position provide information about the nature and amounts of resources with present service capacity that the MTA Group presently controls (assets), consumption of net assets by the MTA Group that is applicable to a future reporting period (deferred outflow of resources), present obligations to sacrifice resources that the MTA Group has little or no discretion to avoid (liabilities), and acquisition of net assets by the MTA Group that is applicable to a future reporting period (deferred inflow of resources) with the difference between assets/deferred outflow of resources and liabilities/deferred inflow of resources being reported as net position.

The Consolidated Interim Statements of Revenues, Expenses and Changes in Net Position provide information about the MTA's changes in net position for the period then ended and accounts for all of the period's revenues and expenses, measures the success of the MTA Group's operations during the year and can be used to determine how the MTA has funded its costs.

The Consolidated Interim Statements of Cash Flows provide information about the MTA Group's cash receipts, cash payments and net changes in cash resulting from operations, noncapital financing, capital and related financing, and investing activities.

The Fiduciary Funds Financial Statements

Fiduciary funds are used to account for resources held in a trustee capacity for the benefit of parties outside of a government entity. Fiduciary funds are not reported in the MTA's consolidated financial statements because the resources of those funds are not available to support the MTA's own programs. The MTA's fiduciary funds are collectively reported as Pension and Other Employee Benefit Trust Funds.

The Statements of Fiduciary Net Position presents financial information about the assets, liabilities, and the fiduciary net position held in trust of the fiduciary funds of the MTA.

The Statements of Changes in Fiduciary Net Position presents fiduciary activities of the fiduciary funds as additions and deductions to the fiduciary net position.

Notes to the Consolidated Interim Financial Statements

The notes provide information that is essential to understanding the consolidated interim financial statements, such as the MTA Group's accounting methods and policies, details of cash and investments, employee benefits, long-term debt, lease transactions, future commitments and contingencies of the MTA Group, and information about other events or developing situations that could materially affect the MTA Group's financial position.

Required Supplementary Information

The required supplementary information provides information about the changes in the net pension liability and net other postemployment benefits ("OPEB") liability, employer contributions for the OPEB and pension plans, actuarial assumptions used to calculate the net pension liability and net OPEB liability, historical trends, and other required supplementary information

related to the MTA Group's cost-sharing multiple-employer defined benefit pension plans.

Supplementary Information - Combining Fiduciary Funds Financial Statements

The supplementary information combining fiduciary funds financial statements includes the combining statements of fiduciary net position and the combining statements of changes in fiduciary net position which provides financial information on each fiduciary fund in which the MTA is functioning as a trustee for another party. The MTA's fiduciary funds are categorized as Pension and Other Employee Benefit Trust Funds.

Supplementary Information

The supplementary information provides a series of reconciliations between the MTA Group's financial plan and the consolidated statements of revenues, expenses and changes in net position.

CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

The following sections discuss the significant changes in the MTA Group's financial position as of June 30, 2026 and December 31, 2025 and for the six-month periods ended June 30, 2026 and 2025. An analysis of major economic factors and industry trends that have contributed to these changes is provided. It should be noted that for purposes of the MD&A, the information contained within the summaries of the consolidated interim financial statements and the various exhibits presented were derived from the MTA Group's consolidated interim financial statements.

Total Assets and Deferred Outflows of Resources, Distinguishing Between Capital Assets, Other Assets and Deferred Outflows of Resources

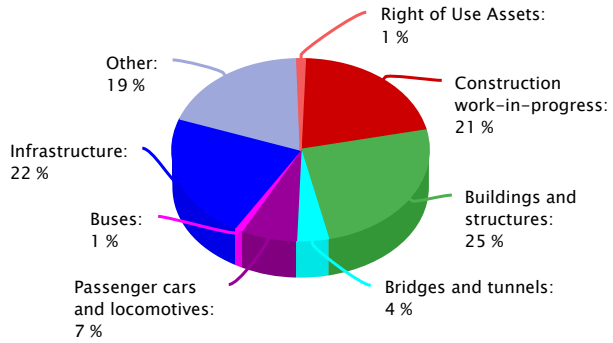

Capital assets include, but are not limited to: bridges, structures, tunnels, construction of buildings and the acquisition of buses, equipment, passenger cars, locomotives, right-of-use assets for leases on building, office space, storage space, equipment and vehicles and intangible right-to-use assets for subscription-based information technology arrangements ("SBITA").

Other assets include, but are not limited to: cash, restricted and unrestricted investments, State and regional mass transit taxes receivables, and receivables from New York State. This also includes the receivable from leases of MTA's land, building, station concession, equipment, and right-of-way to third parties.

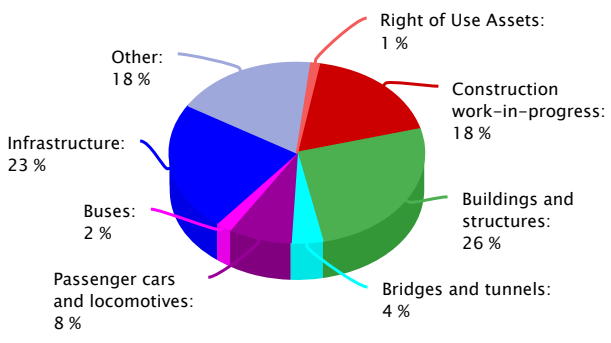

Deferred outflows of resources reflect: changes in fair values of hedging derivative instruments that are determined to be effective, unamortized loss on debt refunding and deferred outflows from pension and OPEB.

(In millions)	June 30, 2026	December 31, 2025	Increase / (Decrease)
Capital assets — net (see Note 4)	$ 100,875	$ 99,312	$ 1,563
Other assets	26,377	23,915	2,462
Total Assets	127,252	123,227	4,025
Deferred outflows of resources	8,093	7,225	868
Total assets and deferred outflows of resources	$ 135,345	$ 130,452	$ 4,893

Capital Assets, Net – June 30, 2026

Capital Assets, Net – December 31, 2025

Significant Changes in Assets and Deferred Outflows of Resources Include:

June 30, 2026 versus December 31, 2025

- Net capital assets increased by $1,563, or 1.6%. There was an increase in construction in progress of $3,325, an increase

in other assets of $106 primarily for elevator and escalator replacements, station renewal and accessibility projects for MTA New York City Transit, an increase in infrastructure and equipment of $98, and an increase in right-to-use assets of $29. These increases were offset by an increase in accumulated depreciation and amortization of $1,995.

Some of the more significant Infrastructure projects contributing to the net increase included:

- MTA Metro-North Railroad continued network expansion work for Penn Station Access.
- MTA Long Island Rail Road continued investment in M9A passenger railcars and Dual-Mode locomotive procurement.
- MTA Metro-North Railroad continued improvement for station rehabilitation and construction work for various projects relating to signals, depots and yards, track and structures, and investment in M9A passenger railcars.
- MTA Long Island Rail Road infrastructure improvements including track and signal rehabilitations and replacements.
- MTA New York City Transit ongoing investments in new subway cars, Second Avenue Subway project, Station Components Investments, New Hybrid Locomotives, and reconstruction of the existing Jamaica Bus Depot.
- MTA Bridges and Tunnels continued reconstruction of the upper-level approach of Verrazano-Narrows Bridge and suspended span retrofit painting on Robert F. Kennedy Bridge.

- Other assets increased by $2,462, or 10.3%. The major items contributing to this change include:
  - A net increase in receivables of $2,246, primarily due to the timing of receipts of mass transit tax subsidies from state and regional governments.
  - A net increase of $735 primarily due to current restricted investments of $1,752, non-current unrestricted investments of $638, and non-current restricted investments held under capital lease obligations of $106. These increases were offset by decreases in non-current restricted investments of $913, current unrestricted investments of $749, and current restricted investments held under capital lease obligations of $99.
  - An increase of $80 from other non-current receivables primarily due to a settlement of an insurance claim.
  - An increase of $30 from materials and supplies.
  - An increase of $17 in derivative assets primarily due to the fair value adjustment.

  Offsetting the increases were:
  - A net decrease of $402 in cash primarily due to capital asset expenditures and investment purchases.
  - A net decrease in allowance for doubtful accounts of $132 primarily due to estimated unpaid Congestion Relief Zone (“CRZ”).
  - A decrease of $40 in other current receivables.
  - A decrease of $39 in other customer receivables primarily due to the timing of payments from customers offset by an increase in receivables from Tolls by Mail.
  - A decrease of $33 in prepaid expenses due to the amortization of prepaid insurance policies.

Deferred outflows of resources increased by $868, or 12.0%, primarily attributed to net increases in deferred outflows related to net contributions to pensions and other post-employment benefits of $979, offset by decreases in the loss on debt refunding of $83 primarily from PMT bonds and decrease in the fair value of derivative instruments of $28 as a result of market movements.

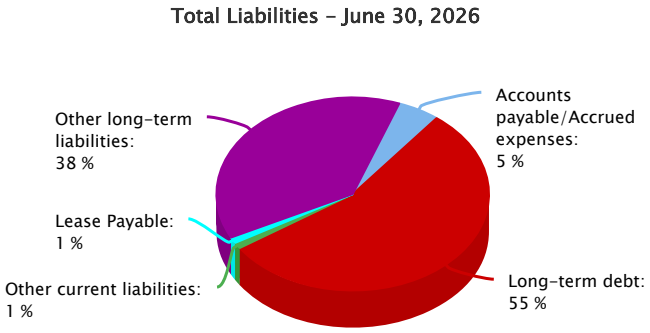

Total Liabilities and Deferred Inflows of Resources, Distinguishing Between Current Liabilities, Non-Current Liabilities and Deferred Inflows of Resources

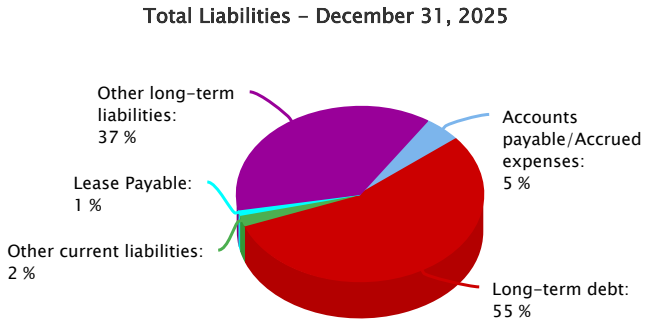

Current liabilities include: accounts payable, accrued expenses including current portion of compensated absences, current portion of long-term debt, pollution remediation liabilities, unredeemed fares and tolls, the current portion of long-term lease liability, and other current liabilities.

Non-current liabilities include: long-term debt, claims for injuries to persons, post-employment benefits, long-term lease liability, compensated absences, and other non-current liabilities.

Deferred inflows of resources reflect unamortized gains on debt refunding and deferred inflows related to leases, pensions, and OPEB.

(In millions)	June 30, 2026	December 31, 2025	Increase / (Decrease)
Current liabilities	$ 7,972	$ 8,704	$ (732)
Non-current liabilities	85,286	84,351	935
Total liabilities	93,258	93,055	203
Deferred inflows of resources	9,552	9,559	(7)
Total liabilities and deferred inflows of resources	$ 102,810	$ 102,614	$ 196

Significant Changes in Liabilities and Deferred Inflows of Resources Include:

June 30, 2026 versus December 31, 2025

- Current liabilities decreased by $732, or 8.4%. The decrease was primarily due to:
  - A decrease of $502 in loan payable primarily due to the refinance of the CRZ loan.
  - A decrease of $440 in unearned revenues, primarily due to timing of NYS funding towards the MTA Capital Program and the processing of capital payments.
  - A decrease of $379 in capital accruals primarily for MTA New York City Transit and MTA Long Island Rail Road.
  - A decrease of $100 in estimated liability from injuries to persons primarily due to MTA New York City Transit workers' compensation payments.
  - A decrease of $46 in other accrued expenses.
  - A decrease of $6 in derivative liabilities attributable to the fuel hedge mark-to-market adjustment.

  Offsetting the decreases were:
  - An increase of $320 in the current portion of long-term debt due to scheduled principal debt service payments.
  - A net increase of $270 in employee-related expenses due to a larger payroll accrual and fringe allocation.
  - An increase of $131 in accounts payable mainly due to the timing of vendor payments and other payables.
  - An increase of $20 in accrued interest mainly due to the timing of interest payments on long-term debt.
- Non-current liabilities increased by $935, or 1.1%. This increase was mainly due to:
  - An increase of $497 in loans payable primarily due to the refinancing of the $500 CRZ loan maturing in October 2027.
  - An increase of $266 in the non-current portion of long-term debt mainly as a result of issuance of MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Refunding Bonds, Series 2026A-2 and MTA Bridges and Tunnels General Revenue Refunding Bonds, Subseries 2026A-2 offset by the refunding of MTA Transportation Revenue Bonds.
  - An increase of $194 in estimated liability arising from injury to persons resulting from an increased provision for claims.
  - An increase of $21 in contract retainage payable due to increased capital construction activity.
  - An increase of $14 in compensated absences due to unused leave time.
  - An increase of $4 in Financed Purchase.

- An increase of $1 in derivative liabilities with off-market elements.

Offsetting the increases were:

- A decrease of $22 in derivative liabilities due to the fair value adjustment of derivative assets.
- A decrease of $12 in lease payable and $10 in subscription-based information technology arrangements due to expiring contracts that were not renewed.
- A decrease of $11 in pollution remediation projects primarily due to the timing of when payments are due.
- A decrease of $7 in other long-term liabilities due to sales with leaseback provisions.

- Deferred inflows of resources decreased by $7, or 0.1% primarily attributed to decreases in deferred inflows from leases.

Total Net Position, Distinguishing Between Net Investment in Capital Assets, Restricted Amounts, and Unrestricted Amounts

(In millions)	June 30, 2026	December 31, 2025	Increase / (Decrease)
Net investment in capital assets	$ 47,235	$ 46,147	$ 1,088
Restricted for debt service	1,387	893	494
Restricted for claims	274	231	43
Restricted for other purposes	5,767	5,560	207
Unrestricted	(22,128)	(24,993)	2,865
Total Net Position	$ 32,535	$ 27,838	$ 4,697

Significant Changes in Net Position Include:

June 30, 2026 versus December 31, 2025

On June 30, 2026, total net position increased by $4,697, or 16.9%, when compared with December 31, 2025. This change is a result of net non-operating revenues of $8,571, appropriations, grants and other receipts externally restricted for capital projects of $2,006, which was offset by operating losses of $5,880.

The net investment in capital assets increased by $1,088, or 2.4%. Funds restricted for debt service, claims and capital programs increased by $744, or 11.1% in the aggregate, mainly due to scheduled debt service payments. Unrestricted net position increased by $2,865, or 11.5%.

Condensed Consolidated Interim Statement of Revenues, Expenses and Changes in Net Position

(In millions)	Six-Month Period Ended June 30, 2026	2025	Increase / (Decrease)
Operating revenues			
Passenger and tolls	$ 4,347	$ 4,132	$ 215
Other	471	516	(45)
Total operating revenues	4,818	4,648	170
Non-operating revenues			
Grants, appropriations and taxes	7,155	4,051	3,104
Other	2,386	1,153	1,233
Total non-operating revenues	9,541	5,204	4,337
Total revenues	14,359	9,852	4,507
Operating expenses			
Salaries and wages	3,841	3,686	155
Retirement and other employee benefits	2,063	1,970	93
Postemployment benefits other than pensions	462	400	62
Depreciation and amortization	2,048	1,997	51
Other expenses	2,284	2,174	110

Total non-operating expenses	970	978	(8)
Total expenses	11,668	11,205	463
Income (loss) before appropriations, grants and other receipts externally restricted for capital projects	2,691	(1,353)	4,044
Appropriations, grants and other receipts externally restricted for capital projects	2,006	2,306	(300)
Change in net position	4,697	953	3,744
Net position, beginning of period	27,838	20,194	7,644
Net position, end of period	$ 32,535	$ 21,147	$ 11,388

Revenues and Expenses, by Major Source:

Period ended June 30, 2026 versus 2025

- Total operating revenues increased by $170, or 3.7%. The increase was mainly due to the fare and toll rate increases which took effect on January 4, 2026, and increased ridership on trains and subways from two major sporting events, FIFA World Cup and NBA Championship. Fare and toll revenues increased by $109 and $106, respectively. Other operating revenues decreased by $45 primarily due to Hurricane Ida insurance recoveries received in 2025.
- Total non-operating revenues increased by $4,337, or 83.3%.
  - Grants, appropriations, and taxes increased by $3,104 primarily due to increases in Metropolitan Mass Transportation Operating Assistance subsidies of $1,545, Payroll Mobility Tax subsidies of $985, Mass Transportation Trust Fund subsidies of $323, Operating Assistance - 18-B program of $147, Urban Tax subsidies of $83, Mortgage Recording Tax subsidies of $32 and Real Estate Transfer Tax of $28. These increases were offset by decreases in MTA Aid Trust Account subsidies of $27 and Build America Bond subsidy of $12.
  - Other non-operating revenues increased by $1,233, primarily due to receipt of Commercial gaming license fees from NYS Gaming Commission of $1,000, a net increase of $168 in Federal reimbursements from FEMA receipts of $590 from Covid-related expenses incurred during the pandemic offset by a decrease of $426 in FTA reimbursements due to the timing in the submission of grant requisitions, an increase in Investment income and other net non-operating revenues of $53, an increase in Operating subsidies recoverable from NYC of $8, and an increase in Station maintenance, operation and use assessments of $7. These increases were offset by a decrease in subsidy from Connecticut Department of Transportation of $3.
- Labor costs increased by $310, or 5.1% due to a $155 increase in salaries and wages and a net increase of $155 in employee benefits, including post-retirement benefits. The increase in salary and wages resulted from general wage increases implemented in January 2026, retroactive wage adjustments for unsettled bargaining groups, essential worker bonuses, and overtime associated with winter storms Fern and Hernando, while the increase in employee benefits was attributable to higher health and welfare medical premiums, increased number of retirees receiving benefits and timing

of net claims processed for self-insured benefits.

- Non-labor operating costs increased by $161, or 3.9%. The variance was primarily due to:
  - An increase in electric power of $58 due to higher energy costs.
  - An increase in depreciation and amortization of $51 due to capital projects reaching substantial completion primarily on station rehabilitation, signal track and structures.
  - An increase in professional service contracts of $43 primarily due to an increase in claims administration service fees.
  - An increase in claims of $43 primarily due to an increase in bus claim reserves.
  - An increase in fuel of $31 due to higher fuel prices.
  - An increase in paratransit service contracts of $29 due to the use of third-party services, higher trip volumes and increased costs per trip.
  - An increase in material and supplies of $28.
  - An increase in maintenance and other operating contracts of $13.
  - An increase in pollution remediation projects of $1.

  These increases were offset by the following decreases:
  - A decrease in other operating expense of $96 primarily due to the billing of MTA Construction and Development payroll expenses to the Capital Program.
  - A decrease in insurance of $40 primarily due to the cost savings from Owner-Controlled Insurance Program premium earnings in 2026.
- Total net non-operating expenses decreased by $8, or 0.8%, due to a decrease in interest on long-term debt.
- Appropriations, grants and other receipts externally restricted for capital projects decreased by $300, or 13.0% mainly due to the timing of requisitioning for Federal and State grants.

OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS AND IMPORTANT ECONOMIC CONDITIONS

Economic Conditions

Metropolitan New York is the most transit-intensive region in the United States, and a financially sound and reliable transportation system is critical to the region's economic well-being. The MTA consists of urban subway and bus systems, suburban rail systems, bridge and tunnel facilities, all of which are affected by a myriad of economic forces. To achieve maximum efficiency and success in its operations, the MTA must identify economic trends and continually implement strategies to adapt to changing economic conditions.

Preliminary MTA system-wide ridership for second quarter 2026 remained below the pre-pandemic level, with paid ridership 171 million trips (-35%) below 2019 second quarter ridership. The second quarter of 2026 increased above the paid ridership during the second quarter of 2025 by 744 thousand (0.2%). For the second quarter of 2026 compared with the second quarter of 2025, MTA New York City Transit subway paid ridership increased by 8 million trips (2.5%), MTA New York City Transit bus paid ridership decreased by 8 million trips (-8.9%), MTA Long Island Rail Road paid ridership increased by 748 thousand trips (3.6%), MTA Metro-North Railroad paid ridership increased by 2 million trips (8.9%), MTA Bus paid ridership decreased by 1 million trips (-6.0%), and MTA Staten Island Railway paid ridership increased by 6 thousand trips (1.0%). Paid vehicle traffic at MTA Bridges and Tunnels facilities for the second quarter of 2026 was above 2019 levels by 2 million crossings (1.7%), and MTA Bridges and Tunnels traffic in the second quarter, compared with the second quarter of 2025, was down 379 thousand crossings (-0.4%).

Seasonally adjusted non-agricultural employment in NYC for the second quarter was higher in 2026 than in 2025 by 55 thousand jobs (1.1%). On a quarter-to-quarter basis, NYC employment gained 7 thousand jobs (0.1%).

National economic growth, as measured by Real Gross Domestic Product ("RGDP"), increased at an annualized rate of 1.5% in the second quarter of 2026 and 2.1% in the first quarter 2026, according to the most recent estimate released by the Bureau of Economic Analysis. Compared to the first quarter, the deceleration in RGDP in the second quarter reflected a downturn in government spending and slowing growth in investment and exports that were partly offset by an acceleration in consumer spending. Imports increased more in the second quarter than in the first quarter. The increase in consumer spending reflected increases in both goods and services. Within goods, the increase was led by other nondurable goods (mainly, prescription drugs) and within services, the leading contributors to household consumption expenditures were food services and accommodations.

Within government spending, the decrease was led by federal government spending, primarily in nondefense consumption expenditures reflecting sales of crude oil from the Strategic Petroleum Reserve.

The NYC metropolitan area's price inflation rate, as measured by the Consumer Price Index for All Urban Consumers ("CPI-U"), was above the national average in the second quarter of 2026, with the metropolitan area index increasing 4.6% while the national index increased 3.9% when compared with the second quarter of 2025. Regional prices for energy products increased 22.2% while national prices for energy products increased 19.0%. In the metropolitan area, the CPI-U exclusive of energy products increased by 3.6%, while U.S. inflation exclusive of energy products increased 2.8%. The New York Harbor spot price for conventional gasoline increased by 65.5% from an average price of $1.99 per gallon to an average price of $3.29 per gallon between the second quarters of 2025 and 2026.

In its announcement on July 29, 2026, the Federal Open Market Committee ("FOMC") maintained its target for the Federal Funds rate at the 3.50% to 3.75% range. Prior to the April 29th decision, the FOMC lowered the target rate range six consecutive times since September 18, 2024, reducing the target from a 5.25% to 5.50% range to a 4.75% to 5% range, to a 4.5% to 4.75% range on November 7, 2024, to a 4.25% to 4.5% range on December 18, 2024, to a 4.0% to 4.25% range on September 17, 2025, to a 3.75% to 4% range on October 29, 2025 and to a 3.5% to 3.75% range on December 10, 2025. The FOMC issued this statement in support of the decision: "Economic activity is expanding at a solid pace despite elevated uncertainty that owes, in part, to the conflict in the Middle East. Productivity growth and capital investment are strong. Job gains have kept pace with the workforce, and the unemployment rate has changed little". On September 16, 2026, the FOMC increased the rate from 3.75% to 4.00%.

MRT collections in the second quarter of 2026 were higher than the second quarter of 2025 by $17 million (18.0%). Average monthly receipts in the first quarter of 2026 were $25 million (-38.8%) lower than the monthly average for 2006, just prior to the steep decline in Mortgage Recording Tax revenues during the Great Recession. MTA's Urban Tax receipts during the second quarter of 2026, which are derived from commercial real estate transactions and mortgage recording activity within NYC and can vary significantly from quarter to quarter based on the timing of exceptionally high-priced transactions, were $24 million (23.7%) higher than receipts during the second quarter of 2025. Average monthly receipts in the second quarter of 2026 were $18 million (-23.9%) lower than the monthly average for 2007, just prior to the steep decline in Urban Tax revenues during the Great Recession.

Results of Operations

MTA Bridges and Tunnels – For the six months ended June 30, 2026, operating revenue from tolls totaled $1,697, which was $105, or 6.6%, higher than the first six months of 2025. Paid traffic for the second quarter of 2026 totaled 162.3 million crossings, which was 2.4 million, or 1.5% lower than the second quarter of 2025. Winter traffic fluctuated from January to March but followed the regular gradual traffic increase for spring.

MTA New York City Transit – For the six months ended June 30, 2026, revenue from fares was $1,884, an increase of $78, or 4.3%, compared to June 30, 2025. The increase was primarily attributable to an increase in subway revenue, driven by the recent fare increase and higher ridership associated with two major sporting events, FIFA and the NBA Championships partially offset by a decrease in bus fare revenue. For the same comparative period, total operating expenses were higher by $253, or 4.0%, totaling $6,576 for the six months ended June 30, 2026.

MTA Long Island Rail Road – Total operating revenue for the six months ended June 30, 2026 was $364, which was higher by $13, or 3.7%, compared to six months ended June 30, 2025. MTA Long Island Rail Road ridership as of the second quarter of 2026 was 40,356 (thousand), an increase of 1,422 (thousand), or 3.7%, compared with the second quarter of 2025. For the same comparative period, operating expenses were higher by $90, or 7.1%, totaling $1,364 for the six months ended June 30, 2026.

MTA Metro-North Railroad – For the six months ended June 30, 2026, operating revenues totaled $356, an increase of $11, or 3.0%, compared to June 30, 2025. MTA Metro-North Railroad ridership as of the second quarter of 2026 was 35,921 (thousand) an increase of 1,668 (thousand), or 4.9%, compared with the second quarter of 2025. During the same period, operating expenses increased by $49, or 5.0%, to $1,029. For the six months ended June 30, 2026, fare revenue increased by 6.7%, to $335, compared to the six months ended June 30, 2025. Passenger fares accounted for 94.25% and 90.88% of operating revenues in 2026 and 2025, respectively. The remaining revenue represents collection of rental income from stores in and around passenger stations and revenue generated from advertising.

The MTA receives the equivalent of four quarters of Metropolitan Mass Transportation Operating Assistance ("MMTOA") receipts each year, with the state advancing the first quarter of each succeeding calendar year's receipts in the fourth quarter of the current year. This results in little or no Metropolitan Mass Transportation Operating Assistance receipts being received during the first quarter of each calendar year. The MTA has made other provisions to provide for cash liquidity during this period. During April 2024, the State appropriated $2.99 billion in MMTOA funds. There has been no change in the timing of the State's payment of, or MTA's receipt of, Dedicated Mass Transportation Trust Fund ("MTTF") receipts, which MTA anticipates will be sufficient to make monthly principal and interest deposits into the Debt Service Fund for the Dedicated Tax Fund Bonds. The total MRT for the period ended June 30, 2026 was $233 compared to $201 at June 30, 2025.

Capital Programs

At June 30, 2026, $8,055 had been committed and $968 expended for the combined 2025-2029 Capital Programs and the 2025-2029 MTA Bridges and Tunnels Capital Program, and $40,702 had been committed and $21,765 had been expended for the combined 2020-2024 Capital Programs and the 2020-2024 MTA Bridges and Tunnels Capital Program.

The MTA Group has ongoing capital programs, which except for MTA Bridges and Tunnels are subject to the approval of the Metropolitan Transportation Authority Capital Program Review Board ("CPRB") and are designed to improve public transportation in the New York Metropolitan area.

2025-2029 Capital Program – Capital programs totaling $65,400 covering the years 2025-2029 for: (1) the commuter railroad operations of the MTA conducted by MTA Long Island Rail Road and MTA Metro-North Railroad (the "2025–2029 Commuter Capital Program"), (2) the transit system operated by MTA New York City Transit and its subsidiary, MaBSTOA, the MTA Bus Company, and the rail system operated by MTA Staten Island Railway (the "2025–2029 Transit Capital Program") were originally approved by the MTA Board on September 25, 2024. The capital programs were subsequently disapproved by the Capital Program Review Board ("CPRB") on December 24, 2024, because fund sources for the plan had not yet been fully identified. The capital program totaling $3,000 for the toll bridges and tunnels operated by MTA Bridges and Tunnels (the "2025–2029 MTA Bridges and Tunnels Capital Program") was approved by the MTA Board on September 25, 2024 and was not subject to CPRB approval. On May 28, 2025, the MTA Board approved the resubmitted capital programs. This resubmission was subsequently approved by the CPRB on June 17, 2025.

The approved 2025-2029 Capital Programs provided $68,400 in capital expenditures. The combined funding sources for the 2025–2029 MTA Capital Programs and the 2025-2029 MTA Bridges and Tunnels Capital Program, include $31,500 in Payroll Mobility Tax new revenue source (MTA Capital Lockbox), $9,700 in MTA bonds and PAYGO, $14,000 in Federal funds, $4,200 in State of New York funding, $3,000 in City of New York funding, $3,000 from additional MTA self-funding, and $3,000 in MTA Bridges and Tunnels dedicated funds.

2020-2024 Capital Program – Capital programs totaling $54,799 covering the years 2020-2024 for: (1) the commuter railroad operations of the MTA conducted by MTA Long Island Rail Road and MTA Metro-North Railroad (the "2020–2024 Commuter Capital Program"), (2) the transit system operated by MTA New York City Transit and its subsidiary, MaBSTOA, the MTA Bus Company, and the rail system operated by MTA Staten Island Railway (the "2020–2024 Transit Capital Program") were originally approved by the MTA Board on September 25, 2019. The capital programs were subsequently submitted to the Capital Program Review Board ("CPRB") on October 1, 2019 and approved on January 1, 2020. The capital program for the toll bridges and tunnels operated by MTA Bridges and Tunnels (the "2020–2024 MTA Bridges and Tunnels Capital Program") was approved by the MTA Board on September 25, 2019 and was not subject to CPRB approval. On December 15, 2021, the MTA Board approved an amendment to increase the 2020-2024 Capital Program by $535 million to support the Penn Station Access project. On July 27, 2022 the MTA Board approved an amendment to increase the 2020-2024 Capital Program by $108 million to reflect addition of new projects, additional support for existing projects and changes to existing project budgets. The capital programs were subsequently submitted to the CPRB on August 1, 2022 and approved on August 30, 2022. On June 27, 2023, the MTA Board approved an amendment primarily to reflect $678 million in budget transfers from the core agencies to support Network Expansion's Penn Station Access project. The amendment to the capital programs was subsequently submitted to the CPRB, and deemed approved on July 31, 2023. The revised 2020-2024 MTA Bridges and Tunnels Capital Program totaling $3,327 as last approved by the MTA Board on July 27, 2022, remains unchanged and is not subject to CPRB approval. On October 30, 2024, the MTA Board approved an amendment to increase the 2020-2024 Capital Program by $120.9 million received from MTA's capital funding partners to support Penn reconstruction, Interborough Express project, and Second Avenue Subway West. This amendment was submitted to the CPRB and deemed approved on December 9, 2024. On October 29, 2025, the MTA Board approved an amendment to recognize additional federal funding for Penn Station Access, savings from the Congestion Pricing infrastructure project, and other practical changes that resulted in a net decrease to the program by $131 million. The amendment to the capital programs was submitted to the CPRB and deemed approved on December 2, 2025.

The last approved 2020-2024 Capital Programs provided $55,432 in capital expenditures. The combined funding sources for the 2020–2024 MTA Capital Programs and the 2020-2024 MTA Bridges and Tunnels Capital Program, include $15,000 in Central Business District tolling sources, $10,000 in new revenue sources, $6,043 in MTA bonds and PAYGO, $3,251 in MTA Bridges and Tunnels dedicated funds, $14,750 in Federal funds, $3,159 in State of New York funding, $3,052 in City of New York funding, and $177 in other contributions.

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS

The 2025 MTA November Financial Plan (the "November Plan" or "Plan"), which includes the 2025 November Forecast, the 2026 Final Proposed Budget and a Financial Plan for the years 2026 to 2029, updates the 2025 July Financial Plan (the "July Plan"), which included the 2025 Mid-Year Forecast and the 2026 Preliminary Budget.

The November Plan remains balanced through 2026 with deficits of $160 in 2027, $243 in 2028, and $306 in 2029. In comparison, the July Plan was balanced through 2026, with deficits of $345 in 2027, $354 in 2028, and $428 in 2029. The February Plan was

also balanced through 2026 and included deficits of $378 in 2027 and $419 in 2028.

Compared with the July Plan, the November Plan is $419 favorable over the Plan period. Plan-to-plan changes reflect Agency updates—including savings from new Operating Efficiencies, New Needs, Farebox and Toll Revenue, and other Agency reestimates— as well as Subsidy receipts and Debt Service expense re-forecasts.

The July Plan included additional farebox and toll revenues from proposed fare and toll rate and policy changes for implementation in January 2026. With MTA Board approval in September 2025, the additional revenue projected from these actions, which were represented below-the-line in the July Plan, have been incorporated into Agency financial plans. Overall, farebox and toll revenues, compared with the July Plan, are $20 favorable over the Plan period.

Compared with the July Plan, Debt Service expense is $161 favorable.

The net cost of Paratransit service, which reflects paratransit service contracts and other expenses, Paratransit fare revenue, Urban Tax receipts dedicated to Paratransit, and City Subsidy for Paratransit, is $11 higher than in the July Plan, driven primarily by higher service expenses due to increased ridership. While the City's contribution to Paratransit is currently legislated at 80 percent of expenses, there is a contribution cap of 50 percent plus $165. As a result, the City's contribution is less than 80 percent and is further reduced each year as expenses continue to increase.

Other Agency baseline operating expenses are $319 higher than in the July Plan. Major expense changes include Workers' Compensation, FELA and Pension, which are $378 unfavorable due to higher actuarial re-estimates, and Electric Power and Fuel, which are $95 unfavorable due to rate and price increases. Health & Welfare expenses are $532 favorable stemming from 2025 vacancy savings and higher prescription drug credits.

From 2009 through 2022, the MTA identified and captured about $3.2 billion in annually recurring savings. In 2023, the MTA committed to achieving an additional $500 in annually recurring cost savings through operating efficiencies, which was attained by the end of 2025 with initiatives ranging from insourcing functions like cleaning, using reliability data to tailor maintenance frequencies, and standardizing work practices to improve productivity.

Savings targets from new operating efficiencies are being introduced in this Plan. While the 2023 operating efficiencies focused primarily on operations at MTA New York City Transit, MTA Long Island Rail Road, MTA Metro-North Railroad and MTA Bridges and Tunnels, new operating efficiencies will also include MTAHQ as shared services have recently been centralized as part of the MTA consolidation efforts to standardize practices and seize economies of scale. Initiatives have been identified to capture savings for 2026 and subsequent years.

Revenues from Taxes and State and Local Subsidies are unchanged from the July Plan.

Consistent with prior Plans, this Plan proposes, effective March 2027 and March 2029, biennial fare and toll rate changes to generate a 4 percent yield increase in farebox and toll revenues.

The Plan also reflects re-timing of the Penn Station Access project. Full completion of the project, which extends MTA Metro-North's New Haven Line to reach Penn Station with four new accessible stations in the Bronx, has experienced delays due to coordination issues with Amtrak for work on its right-of-way. The full completion of the project, originally scheduled for 2027, is now expected to be delayed until 2030. MTA is planning to provide about 30 percent of the original scheduled service to three of the four new Bronx stations. This interim plan, which is predicated on cooperation by Amtrak, could result in shifts in operating budget spending, lowering net costs over the Plan period.

MTA expects a further delay in the reimbursement of direct COVID-related expenses through the FEMA. In the July Plan, reimbursements were anticipated in 2025 and 2026, while the February Plan assumed the reimbursement would be received earlier. In this Plan, the reimbursement is expected over the 2026 to 2028 period. Tolling through the CRZ Tolling Program began in January 2025. CRZ net revenue, dedicated to the 2020-2024 MTA Capital Program, is deposited into the Capital Lockbox Fund, and does not impact the bottom line of the Plan.

The November Plan presents a balanced budget through 2026, with deficits in 2027, 2028 and 2029.

Dedicated tax receipts. Almost 45 percent of operating revenues that are necessary to cover operating budget expenses are derived from dedicated taxes, and an economic slowdown or recession could adversely impact MTA's ability to cover costs.

FEMA COVID reimbursement. As of May 27th, 2026, the MTA has received reimbursements totaling $590 from the FEMA for direct COVID-related expenses of $600 incurred during the pandemic. The 2025 November and 2026 February Financial Plans had assumed reimbursements of $200 in each of 2026, 2027 and 2028. The MTA is still $9.846 short of the combined $600 assumed in the financial plan but expects to receive the remaining balance before the end of 2026.

Casino revenue. Three casino projects received their final approval from NYS's Gaming Commission in December 2025. The first of the three casino licenses of $500 was received in December 2025; the 2025 November Financial Plan had assumed this first license payment would have been received in 2026. The other two casino license fees of $500 each were received in January 2026; the 2025 November Financial Plan had assumed one license fee of $500 in 2027 and the other $500 in 2028. These receipts are timing-related and have been reflected in the 2026 February Financial Plan.

Approval and implementation of fare and toll yield increases. The Plan includes fare and toll rate increases proposed for March 2027 and March 2029. These increases are expected to generate additional revenues over the Plan period.

Labor agreements. Major collective bargaining agreements expire over the course of the Plan period, and the Plan assumes annual wage increases at the conclusion of existing agreements.

City paratransit reimbursements. The net cost of Paratransit service, which reflects paratransit service contracts and other expenses, Paratransit fare revenue, Urban Tax receipts dedicated to Paratransit, and City Subsidy for Paratransit, continues to increase. Under current State law, the City's responsibility for reimbursing paratransit expenses reduces from a cap of 50 percent plus $165 to 50 percent in July 2027 through June 2030, when the State law requiring City contribution expires. Beginning in July 2030, City reimbursement would revert to City reimbursement being the lesser of one-third of net costs or twenty percent more than the prior year's reimbursement. The Plan assumes a continuation of an 80 percent contribution from the City, and without an extension of State law maintaining the 80 percent reimbursement, deficits will increase.

Financials are unchanged from the November Plan, which was adopted by the MTA Board in December 2025. The February Plan reflects the inclusion of MTA Adjustments that were presented in the November Plan and adopted by the Board, including:

- MTA Operating Efficiencies for various new initiatives that have been identified and are being implemented in 2026:
- Re-timing of Penn Station Access.

Minor technical adjustments with no material impact have also been incorporated into this Plan.

The February Plan continues to present a balanced budget annually through 2026. Detailed explanations of the programs and assumptions supporting this Plan can be found in the 2025 November Plan.

More detailed information on the February Plan can be found in the MTA 2026 Adopted Budget - February Financial Plan 2026-2029 at www.MTA.info.

Tropical Storm Sandy Update

The total allocation of emergency relief funding from the Federal Transit Administration ("FTA") to MTA in connection with Superstorm Sandy to date is $5.90 billion, including $1.599 billion allocated on September 22, 2014, through a competitive resiliency program. A total of $5.90 billion in FTA Emergency Relief Funding has been executed: seven repair/local priority resiliency grants totaling $4.55 billion and seventeen competitive resiliency grants totaling $1.26 billion. As of June 30, 2026, MTA has drawn down a total of $4.64 billion in grant reimbursement for eligible operating and capital expenses. The balance of funds to be drawn down from all twenty-four grants is available to MTA for reimbursement of eligible expenses as requisitions are submitted by MTA and approved by FTA. Additional requisitions are in process. At MTA and Amtrak's request, in April 2018, FTA transferred $13.5 million of MTA's emergency relief allocation to the Federal Railroad Administration to allow Amtrak to execute a portion of MTA Long Island Rail Road's Competitive Resilience scope.

Labor Update

At the end of the second quarter of 2026, MTA employs approximately 74,543 people on a full-time basis, more than 90% of whom are represented by labor unions. Throughout the quarter, labor negotiations continued with bargaining groups whose agreements are in expired or in amendable status. Two significant developments occurred during the quarter: first, the 2023-2026 labor agreement with MTA's largest union—the Transportation Workers Union, Local 100 ("TWU Local 100")—expired, initiating a new round of collective bargaining; and second, the MTA Long Island Rail Road reached agreements with five large labor unions, ending the first strike at either of the commuter railroads since 1994. The ensuing paragraphs will describe the overall status of collective bargaining at MTA agencies through March 31, 2026.

MTA Long Island Rail Road – At the end of the second quarter of 2026, MTA Long Island Rail Road has approximately 7,457 employees. Approximately 6,752 of these employees are represented by 10 different unions in 18 bargaining units.

In the second quarter of 2026, MTA Long Island Rail Road reached an agreement with five large unions: the Brotherhood of Locomotive Engineers and Trainmen, the Brotherhood of Railroad Signalmen, the International Association of Machinists, the International Brotherhood of Electrical Workers and the Transportation Communications Union ("TCU"). All five agreements were ratified by the MTA Board in June 2026.

The unions, with a membership that constitutes approximately half the railroad's represented population, had chosen not to accept agreement terms that aligned with the established economic pattern for the 2023-2026 period [1], but instead sought higher wage increases. Collective bargaining with these groups, therefore, had been conducted in accordance with the Railway Labor Act (the "RLA"), which lays out a lengthy and elaborate process through which parties' disputes may be resolved. Notwithstanding this mechanism—which included an unsuccessful attempt at mediation by the National Mediation Board, as well as the empanelment of two advisory Presidential Emergency Boards--the parties were unable to reach an agreement. On May 16, 2026, the unions chose to go on strike, as permissible under the RLA at that point in the process. The strike—the first

since 1994 for either of the MTA commuter railroads—lasted three days, until May 18, 2026, when the MTA announced that the parties had at last agreed to a settlement.

All five agreements cover the fifty-month, two-week period from June 16, 2023 through August 30, 2027, and they provide a common set of wage increases and savings provisions. For the first thirty seven months, the agreements are fully consistent with earlier pattern agreements, both at MTA Long Island Rail Road and across the MTA, and with the MTA Financial Plan: over this period they contain the same recurring net cost (relative to base labor costs) as virtually every other agreement reached with MTA unions. Through July 15, 2026, therefore, all MTA Long Island Rail Road unionized employees are covered by agreements consistent with the pattern and with the MTA Financial Plan.

The subsequent thirteen-and-a-half-month period, from July 16, 2026 through August 30, 2027, however, extends beyond the three-year pattern previously expected in the MTA Financial Plan, and provides a 4.5% wage increase, effective July 16, 2026. On the savings side, the agreements all include the introduction of Computer Based Training—an element of earlier railroad agreements that is expected to reduce overtime expenses—as well as a contract extension.

All labor agreements at MTA Long Island Rail Road, as of the end of the second quarter, remain in effect.

MTA Metro-North Railroad – At the end of the second quarter of 2026, MTA Metro-North Railroad employs approximately 6,396 people. Among these are approximately 5,494 employees represented by ten different unions.

In April 2026, the MTA Board approved two new labor agreements with unions at MTA Metro-North Railroad. The first agreement, which runs from September 2, 2021 through May 1, 2027, is between MT Metro-North Railroad and the Association of Commuter Rail Employees, Division 1, Yardmasters, representing approximately 45 employees; and the second agreement, running from January 9, 2025 through January 8, 2026, is between MTA Metro-North Railroad and the International Association of Fire Fighters, with approximately 40 members. Both agreements are consistent with MTA financial expectations, and with these agreements in place, approximately 60% of MTA Metro-North Railroad's represented employees are covered under the terms of collective bargaining agreements corresponding to the 2023-2026/2027 period.

At MTA Metro-North Railroad, negotiations continue with its other unions whose terms are now amendable.

MTA Headquarters – At the end of the second quarter of 2026, MTAHQ employs approximately 5,627 people, of whom 3,437 are union members [2]. Through the second quarter, no new agreements were reached, with most existing agreements having now expired. Both agreements with the MTA Police unions--the Police Benevolent Association (with more than 1,300 members) and the Commanding Officers Association (with 35 members)--expired on April 15, 2024; and all three bargaining units of the TCU, which cover IT titles, Business Service Center ("BSC") titles and Procurement titles expired in 2024 (with the BSC and Procurement titles having expired on May 31, 2024; and the IT titles on February 29, 2024).

MTA New York City Transit and MaBSTOA – At the end of the second quarter of 2026, MTA New York City Transit and MaBSTOA employs approximately 48,009 people, 46,597 of whom are represented by 14 unions with 23 bargaining units.

At 12:01am on May 16, 2026, MTA New York City Transit's 2023-2026 agreement with TWU Local 100 expired. TWU Local 100 is the MTA's largest labor union, covering nearly 38,000 hourly operating employees [3] who work at MTA New York City Transit/MaBSTOA and MTA Bus. Because TWU Local 100 members constitute around 56% of MTA's total represented workforce, their contract expiration has the immediate result that the majority of MTA represented employees are now under expired or amendable agreements. This includes the TWU Local 100 employees, as well as the employees of other unions who have not yet reached agreements for the collective bargaining round corresponding to 2023-2026, and other employees whose agreements also expired in May–notably, approximately 3,783 members of the Amalgamated Transit Union (Locals 726 and 1056), which represents Bus Operators, Mechanics and other titles at MTA New York City Transit.

Because TWU Local 100 agreements set the economic parameters for most other labor agreements at the MTA—in other words, because they are considered pattern-setters for collective bargaining-- the expiration of the TWU Local 100 agreement marks the start of a new round of collective bargaining—the current round, with a start date of May 16, 2026 and an end date that has yet to be determined.

Under the NYS Taylor Law, if a voluntary agreement is not reached by the contract expiration date, the parties are obligated to continue bargaining, with the existing contract terms in effect, until either or both parties petition the Public Employment Relations Board to declare an impasse. As of the end of the second quarter 2026, labor negotiations with TWU Local 100 are in progress, and negotiations continue with other groups at MTA New York City Transit and MaBSTOA whose agreements remain unsettled post-2023.

MTA Bus – At the end of the second quarter of 2026, MTA Bus has 3,917 employees, approximately 3,801 of whom are represented by five different unions (now including the United Transit Leadership Organization) and six bargaining units. The largest of these is TWU Local 100, whose more than 2,000 members were co-parties to the 2023-2026 agreement approved by the MTA Board in July 2023. As described above, that agreement expired on May 16, 2026, and the members at MTA Bus are in negotiations for new agreement terms. Meanwhile, labor agreements with MTA Bus' other bargaining units of TWU Local 100 (Administrative, Professional and Technical titles) and its agreements with its bargaining units of the Amalgamated

Transportation Union (Locals 1181 and 1179) remain in effect until the fall of 2026.

MTA Bridges and Tunnels – At the end of the second quarter, MTA Bridges and Tunnels has 762 employees, approximately 558 of whom are represented by three different labor unions (four bargaining units). No new agreements with MTA Bridges and Tunnels unions were reached during the second quarter. Agreements with the Superior Officers Benevolent Association (representing around 100 active employees) and with AFSCME DC 37 Local 1655 (with an active membership of around 20) remain in effect, with both agreements expiring in November 2026; meanwhile, agreements with the Authority's other two bargaining groups—District Council 37 Local 1931, representing Maintainers and City Custodial Assistants; and Bridge and Tunnel Officers, represented by the Bridge and Tunnel Officers Benevolent Association, have expired, and their membership will be seeking new agreement terms going forward.

MTA Staten Island Railway – At the end of the second quarter of 2026, MTA Staten Island Railway had 402 employees, approximately 381 of whom are represented by five different unions (six bargaining units). No new labor agreements have been reached this year, and by the end of the second quarter, all agreements have expired. Going forward, the unions will therefore be looking for new agreement terms.

---

[1] The established economic pattern was agreed to by all other unions representing MTA Long Island Rail Road employees.

[2] This number includes "matrixed" employees who work at MTA Headquarters but are on the payroll of another agency.

[3] Other TWU Local 100 units represent hundreds of other employees in various titles, such as administrative, analyst, computer and telecommunications, and career and salary titles. The agreements with these groups, unlike with the larger TWU Local 100 Hourly Operating unit, remain in effect through November 30, 2026.

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS AS OF JUNE 30, 2026 AND DECEMBER 31, 2025 AND FOR THE SIX-MONTH PERIODS ENDED JUNE 30, 2026 AND 2025

($ In millions, except as noted)

1. BASIS OF PRESENTATION

Reporting Entity — The Metropolitan Transportation Authority ("MTA") was established in 1965, under Section 1263 of the New York Public Authorities Law, and is a public benefit corporation and a component unit of the State of New York ("NYS") whose mission is to continue, develop and improve public transportation and to develop and implement a unified public transportation policy in the New York metropolitan area.

These consolidated interim financial statements are of the Metropolitan Transportation Authority ("MTA"), including its related groups (collectively, the "MTA Group"), which are listed below. The Business-Type activities in these consolidated financial statements purport the operations of the MTA Group.

Metropolitan Transportation Authority and Related Groups (Component Units)

- Metropolitan Transportation Authority Headquarters ("MTAHQ") provides support in budget, cash management, finance, legal, real estate, treasury, risk and insurance management, and other services to the related groups listed below.
- The Long Island Rail Road Company ("MTA Long Island Rail Road") provides passenger transportation between New York City ("NYC") and Long Island.
- Metro-North Commuter Railroad Company ("MTA Metro-North Railroad") provides passenger transportation between NYC and the suburban communities in Westchester, Dutchess, Putnam, Orange, and Rockland counties in NYS and New Haven and Fairfield counties in Connecticut.
- Staten Island Rapid Transit Operating Authority ("MTA Staten Island Railway") provides passenger transportation on Staten Island.
- First Mutual Transportation Assurance Company ("FMTAC") provides primary insurance coverage for certain losses, some of which are reinsured, and assumes reinsurance coverage for certain other losses.
- MTA Construction and Development ("MTA Construction and Development") provides oversight for the planning, design and construction of current and future major MTA system-wide expansion projects.
- MTA Bus Company ("MTA Bus") operates certain bus routes in areas previously served by private bus operators pursuant to franchises granted by the City of New York.
- MTA Grand Central Madison Operating Company ("MTA GCMOC") operates and maintains the infrastructure and structures supporting Long Island Rail Road access into Grand Central Terminal.
- MTAHQ, MTA Long Island Rail Road, MTA Metro-North Railroad, MTA Staten Island Railway, FMTAC, MTA Capital Construction, MTA Bus, and MTA GCMOC collectively are referred to herein as MTA. MTA Long Island Rail Road and MTA Metro-North Railroad are referred to collectively as the Commuter Railroads.
- New York City Transit Authority ("MTA New York City Transit") and its subsidiary, Manhattan and Bronx Surface Transit Operating Authority ("MaBSTOA"), provide subway and public bus service within the five boroughs of New York City.
- Triborough Bridge and Tunnel Authority ("MTA Bridges and Tunnels") operates seven toll bridges, two tunnels, and the Battery Parking Garage, all within the five boroughs of New York City. Additionally, it also operates the Congestion Relief Zone ("CRZ") Tolling Program which imposes tolls on vehicles entering the designated CRZ zone.

The subsidiaries and affiliates, considered component units of the MTA, are operationally and legally independent of the MTA. These related groups enjoy certain rights typically associated with separate legal status including, in some cases, the ability to issue debt. However, they are included in the MTA's consolidated financial statements as blended component units because of the MTA's financial accountability for these entities and they are under the direction of the MTA Board (a reference to "MTA Board" means the board of MTAHQ and/or the boards of the other MTA Group entities that apply in the specific context, all of which are comprised of the same persons). Under accounting principles generally accepted in the United States of America ("GAAP"), the MTA is required to include these related groups in its financial statements. While certain units are separate legal entities, they do have legal capital requirements and the revenues of all of the related groups

of the MTA are used to support the organizations as a whole. The components do not constitute a separate accounting entity (fund) since there is no legal requirement to account for the activities of the components as discrete accounting entities. Therefore, the MTA financial statements are presented on a consolidated basis with segment disclosure for each distinct operating activity. All of the component units publish separate annual financial statements, which are available by writing to the MTA Deputy Chief, Controller's Office, 2 Broadway, 15th Floor, New York, New York 10004.

Basis of Presentation — Fiduciary Funds – The fiduciary fund financial statements provide information about the funds that are used to report resources held in trust for retirees and beneficiaries covered by pension plans and other employee benefit trust funds of the MTA. Separate financial statements are presented for the fiduciary funds.

The following MTA fiduciary component units comprise the fiduciary activities of the MTA and are categorized within Pension and Other Employee Benefit Trust Funds.

- Pension Trust Funds
  - MTA Defined Benefit Plan
  - The Long Island Rail Road Company Plan for Additional Pensions ("LIRR Additional Plan")
  - Manhattan and Bronx Surface Transit Operating Authority ("MaBSTOA Plan")
  - Metro-North Commuter Railroad Company Cash Balance Plan ("MNR Cash Balance Plan")
- Other Employee Benefit Trust Funds
  - MTA Other Postemployment Benefits Plan ("OPEB" Plan)

These fiduciary statements of the fiduciary funds are prepared using the accrual basis of accounting and a measurement focus on the periodic determination of additions, deductions, and net position restricted for benefits. Both proprietary funds and fiduciary funds use the economic resources measurement focus. For reporting purposes, the financial results of the MNR Cash Balance Plan are not material and therefore not included in the fiduciary statements.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying consolidated interim financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The MTA applies Governmental Accounting Standards Board ("GASB") Codification of Governmental Accounting and Financial Reporting Standards ("GASB Codification") Section P80, Proprietary Accounting and Financial Reporting.

Accounting Standards Issued but Not Yet Adopted

GASB has issued the following pronouncements that may affect the future financial position, results of operations, cash flows, or financial presentation of the MTA upon implementation. Management has not yet evaluated the effect of implementation of these standards.

GASB Statement No.	GASB Accounting Standard	Required Year of Adoption
103	*Financial Reporting Model Improvements*	2026
104	*Disclosure of Certain Capital Assets*	2026
105	*Subsequent Events*	2027

Use of Management Estimates — The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the fair value of investments, allowances for doubtful accounts, valuation of derivative instruments, incremental borrowing rate, arbitrage rebate liability, accrued expenses and other liabilities, depreciable lives of capital assets, estimated liability arising from injuries to persons, pension benefits and other postemployment benefits. Actual results could differ significantly from those estimates.

Principles of Consolidation — The consolidated interim financial statements consist of MTAHQ, MTA Long Island Rail Road, MTA Metro-North Railroad, MTA Staten Island Railway, MTA GCMOC, FMTAC, MTA Bus, MTA Construction and Development, MTA New York City Transit (including its subsidiary MaBSTOA), and MTA Bridges and Tunnels for years presented in the financial statements. All related group transactions have been eliminated for consolidation purposes.

Net Position – Restricted and Unrestricted — When both restricted and unrestricted resources are available for use, the MTA normally uses restricted resources first, and then unrestricted resources as needed, unless there are legal requirements to the contrary. The MTA does not have a formal policy with respect to the order in which unrestricted resources are to be

used, therefore, in accordance with GASB Statement No. 54, the MTA's unrestricted resources will be used in the following order: committed, assigned, and unassigned. Unrestricted net position may be designated for specific purposes by actions of management or the Board of Directors or may otherwise be limited by contractual agreements with outside parties.

Investments — The MTA Group's investment policies comply with the NYS Comptroller's guidelines for such operating and capital policies. Those policies permit investments in, among others, obligations of the U.S. Treasury, its agencies and instrumentalities, and repurchase agreements secured by such obligations. FMTAC's investment policies comply with NYS Comptroller guidelines and NYS Department of Insurance guidelines.

Investments with a maturity of 12 months or less from the balance sheet date have been classified as current assets in the consolidated interim financial statements. Investments with a maturity beyond 12 months from the balance sheet date are classified as non-current.In addition to days of maturity, Restricted investments are classified as noncurrent and current, based on the use of proceeds in accordance with GASB 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. Resources accounted for in the general fund, special revenue funds, and debt service funds are generally expected to be used in current operations or to liquidate current obligations and thus generally are classified as current restricted investments. Conversely, a portion of the resources accounted for in capital projects funds and permanent funds are classified as non-current restricted investments

In accordance with the provisions of GASB Statement No. 72, *Fair Value Measurement and Application* ("GASB 72"), investments are recorded on the consolidated statements of net position at fair value, except for commercial paper, certificates of deposit, and repurchase agreements, which are recorded at amortized cost or contract value. All investment income, including changes in the fair value of investments, is reported as revenue on the consolidated statements of revenues, expenses and changes in net position. Fair values have been determined using quoted market values on June 30, 2026 and December 31, 2025.

Investment derivative contracts are reported at fair value using the income approach.

Materials and Supplies — Materials and supplies are valued at average cost, net of obsolescence reserve of $292 and $286 at June 30, 2026 and December 31, 2025, respectively.

Prepaid Expenses and Other Current Assets — Prepaid expenses and other current assets reflect advance payment of insurance premiums as well as 2024 and 2025 projected actuarially determined contributions of MTA-sponsored pension plans for the MTA Defined Benefit Pension Plan, Additional Plan, and MaBSTOA Pension Plan.

Capital Assets — Properties and equipment are carried at cost and are depreciated on a straight-line basis over their estimated useful lives. Expenses for maintenance and repairs are charged to operations as incurred. Capital assets and improvements include all land, buildings, equipment, and infrastructure of the MTA having a minimum useful life of two years and having a cost of more than $25 thousand. Capital assets are stated at historical cost, or at estimated historical cost based on appraisals, or on other acceptable methods when historical cost is not available. GASB Statement No. 87, *Leases* ("GASB 87") are classified as right-to-use assets and measured at the present value of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* ("GASB 96") are classified as intangible right-to-use assets measured at the present value of subscription payments expected to be made during the subscription term, including any payments made before the commencement of the subscription term, and capitalizable implementations costs, less any incentives received. Accumulated depreciation and amortization are reported as reductions of capital and right-to-use assets. Depreciation is computed using the straight-line method based upon estimated useful lives of 25 to 50 years for buildings, 2 to 40 years for equipment, and 25 to 100 years for infrastructure. Right-to-use lease assets and leasehold improvements are amortized over the term of the lease or the life of the asset whichever is less. Right-to-use SBITA assets are amortized over the subscription term.

Leases — Per GASB 87, certain lease agreements are classified as financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Lease receivables and liabilities are measured at the present value of payments expected to be made during the lease term, using an applicable discount rate stated or implicit in the lease and if not available, using incremental borrowing rate at the time of valuation. Lease assets and deferred inflows are amortized on a straight-line basis over the term of the lease.

Subscription-Based Information Technology Arrangements ("SBITA") — Per GASB 96, subscriptions to certain information technology ("IT") software, alone or in combination with tangible capital assets (the underlying IT assets) are recognized as an intangible right-to-use subscription asset with a corresponding subscription liability at the commencement of the subscription term. The subscription liability is initially measured at the present value of subscription payments expected to be made during the subscription term. Future subscription payments are discounted using the rate charged by the vendor, which may be implicit, or MTA's incremental borrowing rate if the interest rate is not readily determinable. The amortization of the subscription asset and discount on the subscription liability are both recognized as outflow of resources over the subscription term.

Public-Private and Public-Public Partnerships — Per GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, certain public-private and public-public partnership arrangements ("PPP") in which a government ("transferor") contracts with an operator to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset, are classified as financings of the right to use an underlying asset.

Availability Payment Arrangements — Per GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, certain agreements in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset are classified as availability payment arrangements ("APA"). Components of an APA related to designing, constructing, and financing a nonfinancial asset in which ownership of the asset transfers by the end of the contract are considered as a financed purchase of the underlying nonfinancial asset. Payments for the operations or maintenance are recognized as outflows of resources as payments become due over the arrangement.

Operating and Non-operating Expenses — Operating and non-operating expenses are recognized in the accounting period in which the liability is incurred. All expenses related to operating the MTA (e.g. salaries, insurance, depreciation, lease and SBITA amortization, etc.) are reported as operating expenses. All other expenses (e.g. interest on long-term debt, interest on leases and SBITAs, subsidies paid to counties, etc.) are reported as non-operating expenses.

Compensated Absences — Per GASB 101, the MTA has accrued the value (including certain salary-related payments) of vacation, sick, compensatory time and other leave benefits earned by employees to date for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means (if any). Unexpired benefits that are more than likely to be used or settled at separation of service are recognized in the financial statements according to timing of estimated payment.

Pollution remediation projects — Pollution remediation costs have been expensed in accordance with the provisions of GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* (See Note 17). An operating expense provision and corresponding liability measured at current value using the expected cash flow method has been recognized for certain pollution remediation obligations, which previously may not have been required to be recognized, have been recognized earlier than in the past or are no longer able to be capitalized as a component of a capital project. Pollution remediation obligations occur when any one of the following obligating events takes place: the MTA is in violation of a pollution prevention-related permit or license; an imminent threat to public health due to pollution exists; the MTA is named by a regulator as a responsible or potentially responsible party to participate in remediation; the MTA voluntarily commences or legally obligates itself to commence remediation efforts; or the MTA is named or there is evidence to indicate that it will be named in a lawsuit that compels participation in remediation activities.

Operating Revenues — Passenger Revenue and Tolls — Revenues from the sale of tickets, tokens, electronic toll collection system, and farecards are recognized as income when tickets or farecards are used. Tickets are assumed to be used in the month of purchase, with the exception of advance purchases of monthly and weekly tickets. When the farecards expire, revenue is recorded for the unused value of the farecards.

MTA Bridges and Tunnel has two toll rebate programs at the Verrazano-Narrows Bridge: the Staten Island Resident ("SIR") Rebate Program, available for residents of Staten Island participating in the SIR E-ZPass toll discount plan, and the Verrazano-Narrows Bridge Commercial Rebate Program ("VNB Commercial Rebate Program"), available for commercial vehicles making more than ten trips per month using the same New York Customer Service Center ("NYCSC") E-ZPass account. The VNB Commercial Rebate Program and SIR Rebate Program are funded by the State and MTA.

Capital Financing — The MTA has ongoing programs on behalf of its subsidiaries and affiliates, subject to approval by the New York State Metropolitan Transportation Authority Capital Program Review Board (the "State Review Board"), which are intended to improve public transportation in the New York Metropolitan area.

The federal government has a contingent equity interest in assets acquired by the MTA with federal funds and upon disposal of such assets, the federal government may have a right to its share of the proceeds from the sale. This provision has not been a substantial impediment to the MTA's operations.

Non-operating Revenues

Operating Assistance — The MTA Group receives, subject to annual appropriation, NYS operating assistance funds that are recognized as revenue after the NYS budget is approved and adopted. Generally, funds received under the NYS operating assistance program are fully matched by contributions from NYC and the seven other counties within the MTA's service area.

Mortgage Recording Taxes ("MRT") — Under NYS law, the MTA receives capital and operating assistance through a Mortgage Recording Tax ("MRT-1"). MRT-1 is collected by NYC and the seven other counties within the MTA's service area, at the rate of 0.25% of the debt secured by certain real estate mortgages. Effective September 2005, the rate was increased from 25 cents per 100 dollars of recorded mortgage to 30 cents per 100 dollars of recorded mortgage. The MTA

also receives an additional Mortgage Recording Tax ("MRT-2") of 0.25% of certain mortgages secured by real estate improved or to be improved by structures containing one to nine dwelling units in the MTA's service area. MRT-1 and MRT-2 taxes are recognized as revenue based upon reported amounts of taxes collected.

- MRT-1 proceeds are initially used to pay MTAHQ's operating expenses. Remaining funds, if any, are allocated 55% to certain transit operations and 45% to the commuter railroads operations. The commuter railroad portion is first used to fund the NYS Suburban Highway Transportation Fund in an amount not to exceed $20 annually (subject to the monies being returned under the conditions set forth in the governing statute if the Commuter Railroads are operating at a deficit).
- The first $5 of the MRT-2 proceeds is transferred to the MTA Dutchess, Orange, and Rockland ("DOR") Fund ($1.5 each for Dutchess and Orange Counties and $2 for Rockland County). Additionally, the MTA must transfer to each County's fund an amount equal to the product of (i) the percentage by which each respective County's mortgage recording tax payments (both MRT-1 and MRT-2) to the MTA increased over such payments in 1989 and (ii) the base amount received by each county as described above. The counties do not receive any portion of the September 1, 2005 increase in MRT-1 from 25 cents per $100 of recorded mortgage to 30 cents. As of June 30, 2026, the MTA paid Dutchess, Orange and Rockland Counties the 2025 excess amounts of MRT-1 and MRT-2 totaling $11.7.
- In addition, MTA New York City Transit receives operating assistance directly from NYC through a mortgage recording tax at the rate of 0.625% of the debt secured by certain real estate mortgages and through a property transfer tax at the rate of one percent of the assessed value (collectively referred to as "Urban Tax Subsidies") of certain properties.

Mobility Tax — In June of 2009, Chapter 25 of the NYS Laws of 2009 added Article 23, which establishes the Metropolitan Commuter Transportation Mobility Tax ("MCTMT"). The proceeds of this tax, administered by the NYS Tax Department, are to be distributed to the MTA. This tax is imposed on certain employers and self-employed individuals engaging in business within the metropolitan commuter transportation district which includes NYC, and the counties of Rockland, Nassau, Suffolk, Orange, Putnam, Dutchess, and Westchester. This tax is imposed on certain employers that have payroll expenses within the Metropolitan Commuter Transportation District, to pay at a rate of 0.34% of an employer's payroll expenses for all covered employees for each calendar quarter. The employer is prohibited from deducting from wages or compensation of an employee any amount that represents all or any portion of the MCTMT. The effective date of this tax was March 1, 2009 for employers other than public school districts; September 1, 2009 for Public school districts and January 1, 2009 for individuals. Revenue is recognized monthly and adjusted when received. On May 3, 2023, New York Governor Kathy Hochul approved Senate Bill 4008 which, effective July 1, 2023, increases the top rate for the MCTMT from 0.34% to 0.60% for employers and individuals in certain New York counties and clarifies the application of the tax for limited partners. Mobility Tax is recognized as revenue based upon reported amounts of taxes collected.

Supplemental Aid — In 2009, several amendments to the existing tax law provided the MTA supplemental revenues to be deposited into the AID Trust Account of the Metropolitan Transportation Authority Financial Assistance Fund established pursuant to Section 92 of the State Finance law. These supplemental revenues relate to: 1) supplemental learner permit/license fee in the Metropolitan Commuter Transportation District, 2) supplemental registration fee, 3) supplemental tax on every taxicab owner per taxicab ride on every ride that originated in NYC and terminates anywhere within the territorial boundaries of the Metropolitan Commuter Transportation District, and 4) supplemental tax on passenger car rental. This Supplemental Aid Tax is provided to the MTA in conjunction with the Mobility Tax. Supplemental aid is recognized as revenue based upon reported amounts of taxes collected.

Dedicated Taxes — Under NYS law, subject to annual appropriation, the MTA receives operating assistance through a portion of the Dedicated Mass Transportation Trust Fund ("MTTF") and Metropolitan Mass Transportation Operating Assistance Fund ("MMTOA"). The MTTF receipts consist of a portion of the revenues derived from certain business privilege taxes imposed by the State on petroleum businesses, a portion of the motor fuel tax on gasoline and diesel fuel, and a portion of certain motor vehicle fees, including registration and non-registration fees. Effective October 1, 2005, the State increased the amount of motor vehicle fees deposited into the MTTF for the benefit of the MTA. MTTF receipts are applied first to meet certain debt service requirements or obligations and second to the Transit System (defined as MTA New York City Transit and MaBSTOA), MTA Staten Island Railway and the Commuter Railroads to pay operating and capital costs. The MMTOA receipts are 0.375% regional sales tax, regional franchise tax surcharge, a portion of taxes on certain transportation and transmission companies, and an additional portion of the business privilege tax imposed on petroleum businesses. MMTOA receipts, to the extent that MTTF receipts are not sufficient to meet debt service requirements, will also be applied to certain debt service obligations, and secondly to operating and capital costs of the Transit System, and the Commuter Railroads.

The State Legislature enacts in an annual budget bill for each state fiscal year an appropriation to the MTA Dedicated Tax Fund for the then-current state fiscal year and an appropriation of the amounts projected by the Director of the Budget of the State to be deposited in the MTA Dedicated Tax Fund for the next succeeding state fiscal year. The assistance deposited into the MTTF is required by law to be allocated, after provision for debt service on Dedicated Tax Fund Bonds (See Note

7), 85% to certain transit operations (not including MTA Bus) and 15% to the commuter railroads operations. Revenues from this funding source are recognized based upon amounts of tax reported as collected by New York State, to the extent of the appropriation. MMTOA is recognized as revenue based upon reported amounts of taxes collected.

Build America Bond Subsidy — The MTA is receiving cash subsidy payments from the United States Treasury equal to 35% of the interest payable on the Series of Bonds issued as "Build America Bonds" and authorized by the Recovery Act. The Internal Revenue Code of 1986 imposes requirements that MTA must meet and continue to meet after the issuance in order to receive the cash subsidy payments. The interest on these bonds is fully subject to Federal income taxation to the bondholder. Revenue is recognized when received.

Congestion Zone Surcharges — In April 2018, the approved 2018-2019 NYS Budget enacted legislation that provided additional sources of revenue, in the form of surcharges and fines, as defined by Article 29-C, Chapter 59 of the Tax Law, to address the financial needs of the MTA. Beginning on January 1, 2019, the legislation imposed the following:

- A surcharge of $2.75 on for-hire transportation trips provided by motor vehicles carrying passengers for hire (or $2.50 in the case of taxicabs that are subject to the $0.50 cents tax on hailed trips that are part of the MTA Aid Trust Account Receipts), other than pool vehicles, ambulance and buses, on each trip that (1) originates and terminates south of and excluding 96th Street in NYC, in the Borough of Manhattan (the "Congestion Zone"), (2) originates anywhere in NYS and terminates within the Congestion Zone, (3) originates in the Congestion Zone and terminates anywhere in New York State, or (4) originates anywhere in NYS, enters into the Congestion Zone while in transit, and terminates anywhere in NYS.
- A surcharge of $0.75 cents for each person who both enters and exits a pool vehicle in NYS and who is picked up in, dropped off in, or travels through the Congestion Zone.

The Congestion Zone Surcharges do not apply to transportation services administered by or on behalf of MTA, including paratransit services. Congestion zone surcharges are recognized as revenue based upon reported amounts of surcharges collected.

The April 2018 legislation also created the New York City Transportation Assistance Fund, held by MTA. The fund consists of the three sub-accounts, the Subway Action Plan Account, the Outer Borough Transportation Account and the General Transportation Account.

- **Subway Action Plan Account** – Funds in this account may be used exclusively for funding the operating and capital costs, and debt service associated with the Subway Action Plan.
- **Outer Borough Transportation Account** – Funds in this account may be used exclusively for funding (1) the operating and capital costs of, and debt service associated with, the MTA facilities, equipment and services in the counties of Bronx, Kings, Queens and Richmond, and any projects improving transportation connections from such counties to Manhattan, or (2) a toll reduction program for any crossing under the jurisdiction of MTA or MTA Bridges and Tunnels.
- **General Transportation Account** – Funds in this account may be used exclusively for funding the operating and capital costs of MTA. In each case, funds may be used for various operations and capital needs or for debt service and reserve requirements.

Dedicated Revenues — In April 2019, CRZ Tolling Program, formerly referred to as the Central Business District Tolling Program or the CBD Tolling Program, was established pursuant to the Traffic Mobility Act, as part of the NYS Budget for Fiscal Year 2019-2020. The CRZ Tolling Program charges a toll for vehicles entering the CRZ, defined as south and inclusive of 60th Street in Manhattan, but excluding the FDR Drive, the West Side Highway, the Battery Park underpass, and any surface roadway portion of the Hugh L. Carey Tunnel connecting to West Street.

The MTA Bridges and Tunnels Board approved a toll rate schedule for the CRZ Tolling Program on March 27, 2024, which was confirmed through a NEPA reevaluation (Reevaluation 1) in June 2024 as meeting all environmental, congestion, reduction,and revenue goals.

On November 14, 2024, following a pause in implementation of the CBDTP, Governor Hochul announced a proposal to proceed with the CBDTP, but with the toll structure and rates that had been adopted by the MTA Bridges and Tunnels Board on March 27, 2024 being phased-in gradually over several years with proportionally lower toll rates for all vehicle classes in the first six-years of the program. In response, the MTA Bridges and Tunnels Board, at its November 18, 2024 meeting, adopted the phase-in approach to the toll rate schedule that it had approved on March 27, 2024

On November 21, 2024, the Federal Highway Administration ("FHWA") approved Re-evaluation 2 and conferred tolling authority through an agreement pursuant to its Value Pricing Pilot Program. The CBDTP went into effect and tolling commenced on January 5, 2025.

The NYS 2019-20 Enacted Budget also established a Real Estate Transfer Tax (RETT), effective July 1, 2019, which is

comprised of an additional base tax and supplemental tax on residential properties located in New York City valued $2 million or above and on non-residential properties located in NYC valued at $25 million or above. The NYS 2019-20 also eliminated a tax loophole that had provided an exemption to third-party internet marketplace providers from requiring collection and remittance of NYS and NYC sales taxes on transactions conducted on their sites. Since June 1, 2019, internet marketplace providers have been required to collect and remit NYS and NYC sales taxes from out-of-state retailers on their sites with gross receipts exceeding $300,000 from sales of tangible property and delivering more than one hundred sales into NYS in the previous four quarters. These sales taxes are collected at the normal State sales tax rate of 4% plus local applicable sales taxes. The legislation does not, however, directly tie the MTA support from these additional State and City sales tax receipts to the actual revenues collected, instead specifying an annual allotment of revenues for the MTA from these taxes. For the NYS sales tax component, on a fiscal year basis, the MTA was allotted $112.5 million in 2020, $150 million in 2021, and thereafter an increase of one percent annually. The statutory allotment to the MTA for the NYC sales tax component was legislated at $127.5 million in 2020 and $170 million in 2021, followed by annual increases of one percent.

The proceeds from the CRZ Tolling Program, the Internet Tax and RETT will be deposited into the MTA Capital Lockbox Fund (formerly referred to as the Central Business District Tolling Capital Lockbox Fund) and specifically, MTA's 2020-2024 Capital Program Account. Pursuant to Public Authorities Law Section 553-j that was created by the Traffic Mobility Act, monies in the MTA Capital Lockbox Fund may only be used to support the CRZ Tolling Program and financing of the 2020-2024 Capital Program or any successor capital program.

Operating Subsidies Recoverable from Connecticut Department of Transportation ("CDOT") — A portion of the deficit from operations relating to MTA Metro-North Railroad's New Haven line is recoverable from CDOT. Under the terms of a renewed Service Agreement, which began on January 1, 2015, and the 1998 resolution of an arbitration proceeding initiated by the State of Connecticut, CDOT pays 100.0% of the net operating deficit of MTA Metro-North Railroad's branch lines in Connecticut (New Canaan, Danbury, and Waterbury), 65.0% of the New Haven mainline operating deficit, and 54.3% of the Grand Central Terminal ("GCT") operating deficit. The New Haven line's share of the net operating deficit for the use of GCT is a fixed fee, calculated using several years as a base, with annual increases for inflation, and the actual cost of operating GCT's North End Access beginning in 1999. The Service Agreement also provides that CDOT pay 100% of the cost of non-movable capital assets located in Connecticut, 100% of movable capital assets to be used primarily on the branch lines and 65% of the cost of other movable capital assets allocated to the New Haven line. Remaining funding for New Haven line capital assets is provided by the MTA. Capital assets completely funded by CDOT are not reflected in these financial statements, as ownership is retained by CDOT. The Service Agreement provides that final billings for each year be subject to audit by CDOT.

Revenue is recognized according to the calculated operating deficit and is adjusted when the annual bill is completed. The Service Agreement provides that final billings for each year be subject to audit by CDOT. The audits of 2025 and 2024 billings are in progress. The 2023 audit was closed on July 1, 2026.

Reimbursement of Expenses — The cost of operating and maintaining the passenger stations of the Commuter Railroads in NYS is assessable by the MTA to NYC and the other counties in which such stations are located for each NYS fiscal year ending December 31, under provisions of the NYS Public Authorities Law. This funding is recognized as revenue based upon an amount, fixed by statute, for the costs to operate and maintain passenger stations and is revised annually by the increase or decrease of the regional Consumer Price Index.

In 1995, The City ceased reimbursing the Authority for the full costs of the free/reduced fare program for students. Beginning in 1996, the State and The City each began paying $45 million per annum to the Authority toward the cost of the program. In 2009, the State reduced their $45 million reimbursement to $6.3 million. Beginning in 2010, the State increased their annual commitment to $25.3 million while The City's annual commitment remained at $45 million. In 2024, The City entered an agreement to increase their annual commitment from $45 million to $50.5 million for its fiscal year while The State's annual commitment remained at $25.3 million. These commitments have been met by both the State and The City in 2024 and 2025. As of June 2026, the Authority had received 6.3 million from the State and 50.5 million from The City.

Prior to April 1995, NYC was obligated to reimburse MTA New York City Transit for the transit police force. As a result of the April 1995 merger of the transit police force into the NYC Police Department, NYC no longer reimburses MTA New York City Transit for the costs of policing the Transit System on an ongoing basis since policing of the Transit System is being carried out by the NYC Police Department at NYC's expense. MTA New York City Transit continues to be responsible for certain capital costs and support services related to such police activities, a portion of which is reimbursed by NYC. MTA New York City Transit received approximately $2.2 in the six months ended June 30, 2026 and $5.7 in the six months ended June 30, 2025 from New York City for the reimbursement of transit police costs.

MTAHQ bills MTA Metro-North Railroad through its consolidated services for MTA police costs in the New Haven line of which MTA Metro-North Railroad recovers approximately 65% from CDOT. The amounts billed for the periods ended June 30, 2026 and 2025 were $16.2 and $15.0, respectively. The amounts recovered for the periods ended June 30, 2026 and 2025 were approximately $10.5 and $9.7, respectively.

Federal law and regulations require a paratransit system for passengers who are not able to ride the buses and trains because

of their disabilities. Pursuant to an agreement between NYC and the MTA, MTA New York City Transit, effective July 1, 1993, assumed operating responsibility for all paratransit service required by the Americans with Disability Act of 1990. Services are provided by private vendors under contract with MTA New York City Transit. NYC reimburses MTA New York City Transit for the lesser of 33% of net paratransit operating expenses defined as labor, transportation, and administrative costs less fare revenues and 6% of gross urban tax proceeds as described above or, an amount that is 20% greater than the amount paid by NYC for the preceding calendar year. Fare revenues and NYC's reimbursement aggregated approximately $263.9 for the six months ended June 30, 2026 and $251.2 for the six months ended June 30, 2025.

Grants and Appropriations — Grants and appropriations for capital projects are recorded when requests are submitted to the funding agencies for reimbursement of capital expenditures meeting eligibility requirements. These amounts are reported separately after Net Non-operating Revenues in the Statements of Revenues, Expenses, and Changes in Net Position.

Operating and Non-operating Expenses

Operating and non-operating expenses are recognized in the accounting period in which the liability is incurred. All expenses related to operating the MTA (e.g. salaries, insurance, depreciation, and amortization, etc.) are reported as operating expenses. All other expenses (e.g. interest on long-term debt, subsidies paid to counties, etc.) are reported as non-operating expenses.

Liability Insurance — FMTAC, an insurance captive subsidiary of MTA, provides a liability insurance program (referred to as "ELF") that insures certain claims in excess of the agencies self-insured retention. Effective October 31, 2025, the self-insured retention limit for MTA New York City Transit and MaBSTOA increased to $20, MTA Bus increased to $15, MTA Long Island Rail Road, MTA Metro-North Railroad, and MTA Staten Island Railway remained at $11; the self-insured retention limit for MTAHQ and MTA Bridges and Tunnels remained at $3.2. The maximum amount that the ELF is responsible for arising out of any one occurrence and in the aggregate is the total assets of the ELF program available for claims, but in no event greater than $50 for all agencies and an additional $10 for MTA New York City Transit. FMTAC charges appropriate annual premiums based on loss experience and exposure analysis to maintain the fiscal viability of the program. On June 30, 2026, the balance of the assets in this program was $223.25.

MTA also maintains an All-Agency Excess Liability Insurance Policy ("ELP"), which is reinsured through FMTAC. The ELP affords the MTA Group coverage limits of $342 in excess of the ELF program for a total limit of $392 ($342 excess of $50).

On March 1, 2026, the "nonrevenue fleet" automobile liability policy program was renewed. This program provides third-party auto liability insurance protection for MTA Long Island Rail Road, MTA Staten Island Railway, MTA Police, MTA Metro-North Railroad, MTA Inspector General, MTA Construction & Development Company, and MTA Headquarters. The program limit is $11 per occurrence on a combined single limit with a $1 self-insured retention for each accident. A primary limit of $1 was procured through the commercial marketplace. Excess limits of $9 were procured through FMTAC.

On March 1, 2025, the "Access-A-Ride" automobile liability policy program was renewed. This program provides third-party auto liability insurance coverage to vendors under the Access-A-Ride contract, to perform services on behalf of MTA New York City Transit. This policy provides a $3 per occurrence to fund self-insured losses.

On December 15, 2025, FMTAC renewed the primary coverage on the Station Liability and Force Account liability policies at $11 per occurrence loss for MTA Metro-North Railroad and MTA Long Island Rail Road.

Property Insurance — Effective May 1, 2026, FMTAC renewed the all-agency property insurance program. For the annual period commencing May 1, 2026, FMTAC directly insures property damage claims of the Related Entities in excess of a $25 per occurrence deductible, subject to an annual $75 aggregate deductible. The total All Risk program annual limit is $500 per occurrence and in the annual aggregate for Flood and Earthquake covering property of the Related Entities collectively. FMTAC is reinsured in the domestic, London, European, and Bermuda reinsurance markets for this coverage.

Losses occurring after exhaustion of the deductible aggregate are subject to a deductible of $7.5 per occurrence. The property insurance policy provides replacement cost coverage for all risks (including Earthquake, Flood and Wind) of direct physical loss or damage to all real and personal property, with minor exceptions. The policy also provides extra expense and business interruption coverage.

With respect to acts of terrorism, FMTAC provides direct coverage that is reinsured by the United States Government for 80% of "certified" losses, as covered by the Terrorism Risk Insurance Program Reauthorization Act ("TRIPRA") of 2019. The remaining 20% of the Related Entities' losses arising from an act of terrorism would be covered under the additional terrorism policy described below. No federal compensation will be paid unless the aggregate industry insured losses exceed a trigger of $200. The United States government's reinsurance is in place through December 31, 2027.

To supplement the reinsurance to FMTAC through the TRIPRA, MTA obtained an additional commercial reinsurance policy with various reinsurance carriers in the domestic, London and European marketplaces. That policy provides coverage for (1) 20% of any "certified" act of terrorism up to a maximum recovery of $215 *(being 20% of $1,075)* for any one occurrence

and in the annual aggregate (2) the TRIPRA FMTAC captive deductible (per occurrence and on an aggregated basis) that applies when recovering under the "certified" acts of terrorism insurance, but not to exceed $40 for any one occurrence, or (3) 100% of any "certified" terrorism loss which exceeds $5 and less than the $200 TRIPRA trigger up to a maximum recovery of $200 for any one occurrence and in the annual aggregate.

Additionally, MTA purchases coverage for acts of terrorism which are not certified under TRIPRA to a maximum of $255 for any one occurrence. Recovery under the terrorism policy is subject to a deductible of $25 for any one occurrence per occurrence and $75 in the annual aggregate in the event of multiple losses during the policy year. Should the Related Entities' deductible in any one year exceed $75, future losses in that policy year are subject to a deductible of $7.5 for any one occurrence. The terrorism coverages expire at midnight on May 1, 2028.

In the event that TRIA is not extended or renewed on or before January 1, 2028, then effective January 1, 2028, coverage will be limited to $255 for any one occurrence.

Pension Plans — In accordance with the provisions of GASB 68, the MTA recognizes a net pension liability for each qualified pension plan in which it participates, which represents the excess of the total pension liability over the fiduciary net position of the qualified pension plan, or the MTA's proportionate share thereof in the case of a cost-sharing multiple-employer plan, measured as of the measurement date of each of the qualified pension plans. Changes in the net pension liability during the year are recorded as pension expense, or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change, in the year incurred. Those changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and recorded as a component of pension expense beginning with the year in which they are incurred. Projected earnings on qualified pension plan investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the year in which the difference occurred.

Postemployment Benefits Other Than Pensions — In accordance with the provisions of GASB 75, and GASB Statement No. 85*, Omnibus,* for the OPEB Plan, the MTA recognizes a net OPEB liability, which represents the excess of the total OPEB liability over the fiduciary net position of the OPEB Plan, measured as of the measurement date of the plan.

Changes in the net OPEB liability during the year are recorded as OPEB expense, or as deferred outflows of resources or deferred inflows of resources relating to OPEB depending on the nature of the change, in the year incurred. Changes in net OPEB liability that are recorded as deferred outflows of resources or deferred inflows of resources that arise from changes in actuarial assumptions and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the OPEB plan and recorded as a component of OPEB expense beginning with the year in which they are incurred. Projected earnings on qualified OPEB plan investments are recognized as a component of OPEB expenses. Differences between projected and actual investment earnings are reported as deferred outflows of resources or deferred inflow of resources as a component of OPEB expense on a closed basis over a five-year period beginning with the year in which the difference occurred.

3. CASH AND INVESTMENTS

Cash - The bank balances are insured up to $250 thousand in the aggregate by the Federal Deposit Insurance Corporation ("FDIC") for each bank in which funds are deposited. As of June 30, 2026, restricted cash, primarily for capital projects, totaled $587. Cash, including deposits in transit, consists of the following at June 30, 2026 and December 31, 2025 (in millions):

	June 30, 2026		December 31, 2025	
	Carrying Amount	Bank Balance	Carrying Amount	Bank Balance
FDIC insured or collateralized deposits	$ 192	$ 189	$ 97	$ 94
Uninsured and not collateralized	996	945	1,493	1,484
Total Balance	$ 1,188	$ 1,134	$ 1,590	$ 1,578

All collateralized deposits are held by the MTA or its agent in the MTA's name.

The MTA, on behalf of itself, its affiliates and subsidiaries, invests funds which are not immediately required for the MTA's operations in securities permitted by the NYS Public Authorities Law, including repurchase agreements collateralized by U.S. Treasury securities, U.S. Treasury notes, and U.S. Treasury zero coupon bonds.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the MTA will not be able to recover the value of its deposits. While the MTA does not have a formal deposit policy for custodial credit risk, NYS statutes govern the MTA's investment policies. The MTA's uninsured and uncollateralized deposits are primarily

held by commercial banks in the metropolitan New York area and are subject to the credit risks of those institutions.

Investments - MTA holds most of its investments at a custodian bank. The custodian must meet certain banking institution criteria enumerated in MTA's Investment Guidelines. The Investment Guidelines also require the Treasury Division to hold at least $100 of its portfolio with a separate emergency custodian bank. The purpose of this deposit is in the event that the MTA's main custodian cannot execute transactions due to an emergency outside of the custodian's control, the MTA has an immediate alternate source of liquidity.

The MTA categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The MTA had the following recurring fair value measurements as of June 30, 2026 and December 31, 2025 (in millions):

Investments by fair value level	**June 30, 2026**			**December 31, 2025**		
	Total	**Level 1**	**Level 2**	**Total**	**Level 1**	**Level 2**
Debt Securities:						
U.S. treasury securities	$ 18,668	$ 18,039	$ 629	$ 17,972	$ 17,190	$ 782
U.S. government agency	123	-	123	188	-	188
Asset-backed securities	59	-	59	69	-	69
Commercial mortgage-backed securities	179	-	179	180	-	180
Foreign bonds	19	19	-	19	19	-
Corporate bonds	150	150	-	141	141	-
Tax Benefit Lease Investments:						
U.S. treasury securities	156	156	-	154	154	-
U.S. government agency	136	75	61	136	75	61
Repurchase agreements	169	169	-	69	69	-
Total investments by fair value level	19,659	$ 18,608	$ 1,051	18,928	$ 17,648	$ 1,280
Financed Purchases	128			124		
Total Investments	$ 19,787			$ 19,052		

Investments classified as Level 1 of the fair value hierarchy, totaling $18,608 and $17,648 as of June 30, 2026 and December 31, 2025, respectively, are valued using quoted prices in active markets. Fair values include accrued interest to the extent that interest is included in the carrying amounts. Accrued interest on investments other than Treasury bills and coupons is included in other receivables on the statement of net position. The MTA's investment policy states that securities underlying repurchase agreements must have a fair value at least equal to the cost of the investment.

U.S. Government agency securities totaling $184 and $249, U.S, treasury securities totaling $629 and $782, asset-backed securities totaling $59 and $69, and commercial mortgage-backed securities totaling $179 and $180 as of June 30, 2026 and December 31, 2025, respectively, classified in Level 2 of the fair value hierarchy, are valued using matrix pricing techniques maintained by a third-party pricing service. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices and indices. Fair value is defined as the quoted fair value on the last trading day of the period. These prices are obtained from a third-party pricing service or our custodian bank.

In connection with certain financed purchases transactions described in Note 11, the MTA has purchased securities or entered into payment undertaking, letter of credit, or similar type agreements or instruments (guaranteed investment contracts) with financial institutions, which generate sufficient proceeds to make basic rent and purchase option payments under the terms of the leases. If the obligors do not perform, the MTA may have an obligation to make the related rent payments.

All investments, other than the investments restricted for financed purchase obligations, are either insured or registered and held by the MTA or its agent in the MTA's name. Investments restricted for financed purchases are either held by MTA or its agent in the MTA's name or held by a custodian as collateral for MTA's obligation to make rent payments under financed purchase obligations. Investments had weighted average yields of 3.67% and 3.86% for the six months ended June 30, 2026 and year ended December 31, 2025, respectively.

Credit Risk — At June 30, 2026 and December 31, 2025, the following credit quality rating has been assigned to MTA investments by a nationally recognized rating organization (in millions):

Quality Rating Standard & Poor's	June 30, 2026	Percent of Portfolio	December 31, 2025	Percent of Portfolio
AAA	$ 64	1%	$ 114	1%
AA+	61	0%	61	0%
AA	218	1%	225	1%
A	92	1%	98	1%
A-	6	0%	59	0%
BBB	53	0%	47	0%
BB	1	0%	-	0%
Not Rated	267	1%	120	1%
U.S. Government	18,897	96%	18,204	96%
Total	19,659	100%	18,928	100%
Financed Purchases	128		124	
Total investment	$ 19,787		$ 19,052	

Interest Rate Risk — Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investment. Duration is a measure of interest rate risk. The greater the duration of a bond or portfolio of bonds, the greater its price volatility will be in response to a change in interest rate risk and vice versa. Duration is an indicator of bond price's sensitivity to a 100 basis point change in interest rates.

	June 30, 2026		December 31, 2025

[1] These securities are only included in the FMTAC portfolio.

MTA is a public benefit corporation established under the NYS Public Authorities Law. MTA's Treasury Division is responsible for the investment management of the funds of the component units. The investment activity covers all operating and capital funds, including bond proceeds, and the activity is governed by State statutes, bond resolutions and the Board-adopted investment guidelines (the "Investment Guidelines"). The MTA Act currently permits the Related Entities to invest in the following general types of obligations:

- obligations of the State or the United States Government;
- obligations of which the principal and interest are guaranteed by the State or the United States government;
- obligations issued or guaranteed by certain Federal agencies;
- repurchase agreements fully collateralized by the obligations of the foregoing United States Government and Federal agencies;
- certain certificates of deposit of banks or trust companies in the State;
- certain banker's acceptances with a maturity of 90 days or less;
- certain commercial paper;
- certain municipal obligations; and
- certain mutual funds up to $10 in the aggregate.

The MTA adopted NYS Statutory Requirements with respect to credit risk of its investments, which include, but are not

limited to the following sections:

i. Public Authorities Law Sections 1265(4) (MTA), 1204(19) (MTA New York City Transit Authority) and 553(21) (MTA Bridges and Tunnels);

ii. Public Authorities Law Section 2925 Investment of funds by public authorities and public benefit corporations; general provisions; and

iii. State Finance Law Article 15 – EXCELSIOR LINKED DEPOSIT ACT.

MTA Investment Guidelines limit the dollar amount invested in banker acceptances, commercial paper, and obligations issued or guaranteed by certain Federal agencies to $250 at cost. There are no dollar limits on the purchase of obligations of the United States government, the State or obligations the principal and interest of which are guaranteed by the State or the United States government. Investments in collateralized repurchase agreements are limited by dealer or bank's capital. MTA can invest no greater than $300 with a bank or dealer rated in Tier 1 (e.g., $1 billion or more of capital).

FMTAC is created as a MTA subsidiary and is licensed as a captive direct insurer and reinsurer by the NYS Department of Insurance. As such, FMTAC is responsible for the investment management of its funds. The investment activity is governed by State statutes and the FMTAC Board adopted investment guidelines. The minimum surplus to policyholders and reserve instruments are invested in the following investments:

- obligations of the United States or any agency thereof provided such agency obligations are guaranteed as to principal and interest by the United States;
- direct obligations of the State or of any county, district or municipality thereof;
- any state, territory, possession or any other governmental unit of the United States;
- certain bonds of agencies or instrumentalities of any state, territory, possession or any other governmental unit of the United States;
- the obligations of a solvent American institution which are rated investment grade or higher (or the equivalent thereto) by a securities rating agency; and
- certain mortgage backed securities in amounts no greater than five percent of FMTAC's admitted assets.

FMTAC may also invest non-reserve instruments in a broader range of investments including the following general types of obligations:

- certain equities; and
- certain mutual funds.

FMTAC is prohibited from making the following investments:

- investment in an insolvent entity;
- any investment as a general partner; and
- any investment found to be against public policy.

FMTAC investment guidelines do include other investments, but FMTAC has limited itself to the above permissible investments at this time.

Master Page # 65 of 165 - MTA Board Meeting 10/28/2026

4. CAPITAL ASSETS

Capital assets and improvements include all land, buildings, equipment, and infrastructure of the MTA having a minimum useful life of two years and having a cost of more than $25 thousand. Capital assets are stated at historical cost, or at estimated historical cost based on appraisals, or on other acceptable methods when historical cost is not available. GASB 87 Leases are classified as right-of-use assets and measured at the present value of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. GASB 96, SBITAs are classified as right-to-use assets measured at the present value of subscription payments expected to be made during the subscription term, including any payments made before the commencement of the subscription term, and capitalizable implementation costs, less any incentives received. GASB 94 public-private and public-public partnerships that result in a newly purchased or constructed underlying nonfinancial asset being transferred to the agency are classified as capital assets and recognized at the cost of the underlying asset when the arrangement meets the definition of a service concession arrangement or when ownership transfers to the MTA.

Accumulated depreciation and amortization are reported as reductions of fixed assets and right-of-use assets. Depreciation is computed using the straight-line method based upon estimated useful lives of 25 to 50 years for buildings, 2 to 40 years for equipment, and 25 to 100 years for infrastructure. Right-of-use assets and leasehold improvements are amortized over the term of the lease or the life of the asset whichever is less. Right-to-use SBITA assets are amortized over the subscription term. Capital and right-of-use assets consist of the following at December 31, 2024, December 31, 2025 and June 30, 2026 (in millions):

	December 31, 2024	Additions / Reclassifications	Deletions / Reclassifications	December 31, 2025	Additions / Reclassifications	Deletions / Reclassifications	June 30, 2026

Capital assets acquired prior to April 1982 for MTA New York City Transit were funded primarily by NYC with capital grants made available to MTA New York City Transit. NYC has title to a substantial portion of such assets and, accordingly, these assets are not recorded on the books of the MTA. Subsequent acquisitions, which are part of the MTA Capital Program, are recorded at cost by MTA New York City Transit. In certain instances, title to MTA Bridges and Tunnels' real property may revert to NYC in the event the MTA determines such property is unnecessary for its corporate purpose. With respect to MTA Metro-North Rail Road, capital assets completely funded by CDOT are not reflected in MTA's financial statements, as ownership is retained by CDOT.

For certain construction projects, the MTA holds in a trust account marketable securities pledged by third-party contractors in lieu of cash retainages. On June 30, 2026 and December 31, 2025, these securities, which are not included in these interim financial statements, had a fair value of $186.9 and $137.1.

As of June 30, 2026, $108.7 billion is unexpended from the MTA's Capital Program (2005-2029) and $31.0 billion has been committed.

As of December 31, 2025, $113.2 billion is unexpended from the MTA's Capital Program (2005-2024) and $30.5 billion has been committed.

Master Page # 66 of 165 - MTA Board Meeting 10/28/2026

5. EMPLOYEE BENEFITS

Pensions — The MTA Group sponsor and participate in several defined benefit pension plans for their employees, the Long Island Railroad Company Plan for Additional Pensions (the "LIRR Additional Plan"), the Manhattan and Bronx Surface Transit Operating Authority Pension Plan (the "MaBSTOA Pension Plan"), the Metro-North Commuter Railroad Company Cash Balance Plan (the "MNR Cash Balance Plan"), the Metropolitan Transportation Authority Defined Benefit Plan (the "MTA Defined Benefit Pension Plan"), the New York City Employees' Retirement System ("NYCERS"), and the New York State and Local Employees' Retirement System ("NYSLERS"). A brief description of each of these pension plans follows:

Plan Descriptions

1. LIRR Additional Plan —

The LIRR Additional Plan is a single-employer defined benefit pension plan that provides retirement, disability and survivor benefits to members and beneficiaries. The LIRR Additional Plan covers MTA Long Island Rail Road employees hired effective July 1, 1971 and prior to January 1, 1988. The LIRR Additional Plan's activities, including establishing and amending contributions and benefits are administered by the Board of Managers of Pensions. The LIRR Additional Plan is a governmental plan and accordingly, is not subject to the funding and other requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"). The LIRR Additional Plan is a closed plan.

The Board of Managers of Pensions is composed of the Chairman of the MTA, MTA Chief Financial Officer, MTA Director of Labor Relations and the agency head of each participating Employer or the designee of a member of the Board of Managers. The LIRR Additional Plan may be amended by action of the MTA Board. The LIRR Additional Plan is a fiduciary component unit of the MTA and is reflected in the Pension and Other Employee Benefit Trust Funds section of the MTA's basic financial statements.

The pension plan has a separately issued financial statement that is publicly available and contains required descriptions and supplemental information regarding the employee benefit plan. The financial statements may be obtained at www.mta.info or by writing to the MTA Deputy Chief, Controller's Office, 2 Broadway, 15th Floor New York, NY 10004 or at www.mta.info.

2. MaBSTOA Pension Plan —

The MaBSTOA Pension Plan is a cost-sharing multiple-employer defined benefit plan administered by MTA Headquarters and funded by MTA New York City Transit covering employees of MaBSTOA and certain employees of MTAHQ. Prior to January 1, 2020, this was a single employer defined benefit retirement plan covering only MaBSTOA employees. Employees of MaBSTOA and MTAHQ are specifically excluded from participating in the New York City Employees' Retirement System ("NYCERS"). The Plan provides retirement as well as death, accident and disability benefits in order to afford managerial and non-represented MaBSTOA employees the same pension rights as title employees in the MTA New York City Transit. Effective January 1, 1999, membership in the MaBSTOA Pension Plan is not mandatory for managerial and represented employees.

The Board of Administration, established in 1963, determines the eligibility of employees and beneficiaries for retirement and death benefits. The MaBSTOA Pension Plan assigns authority to the MaBSTOA Board to modify, amend or restrict the MaBSTOA Pension Plan or to discontinue it altogether, subject, however, to the obligations under its collective bargaining agreements. The Board is composed of five members: two representatives from the Transport Workers Union, Local 100 ("TWU") and three employer representatives. The MaBSTOA Pension Plan is a fiduciary component unit of the MTA and is reflected in the Pension and Other Employee Benefit Trust Funds section of the MTA's basic financial statements.

The pension plan issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to the MTA Deputy Chief, Controller's Office, 2 Broadway, 15th Floor, New York, NY 10004 or at www.mta.info.

3. MNR Cash Balance Plan —

The MNR Cash Balance Plan is a single employer, defined benefit pension plan administered by MTA Headquarters and funded by MTA Metro-North Railroad. The MNR Cash Balance Plan covers non-collectively bargained employees formerly employed by Conrail, who joined MTA Metro-North Railroad as management employees between January 1 and June 30, 1983, and were still employed as of December 31, 1988. Effective January 1, 1989, these management employees were covered under the Metro-North Commuter Railroad Defined Contribution Plan for Management Employees (the "Management Plan") and the MNR Cash Balance Plan was closed to new participants. The MNR Cash Balance Plan is designed to satisfy the applicable requirements for governmental plans under Section 401(a) and 501(a) of the Internal Revenue Code. Accordingly, the MNR Cash Balance Plan is tax-exempt.

Further information about the MNR Cash Balance Plan is more fully described in the separately issued financial statements that can be obtained by writing to the MTA Deputy Chief, Controller's Office, 2 Broadway, 15th Floor, New York, NY 10004 or at www.mta.info.

4. MTA Defined Benefit Pension Plan —

The MTA Defined Benefit Pension Plan is a cost sharing, multiple-employer defined benefit pension plan. The MTA Defined Benefit Pension Plan covers certain MTA Long Island Rail Road non-represented employees hired after January 1, 1988, MTA Metro-North Railroad non-represented employees, certain employees of the former MTA Long Island Bus hired prior to January 24, 1983, MTA Police, MTA Long Island Railroad represented employees hired after December 31, 1987, certain MTA Metro-North Railroad represented employees, MTA Staten Island Railway represented and non-represented employees and certain employees of the MTA Bus Company. The MTA, MTA Long Island Rail Road, MTA Metro-North Railroad, MTA Staten Island Railway and MTA Bus contribute to the MTA Defined Benefit Pension Plan, which offers distinct retirement, disability retirement, and death benefit programs for their covered employees and beneficiaries.

The MTA Defined Benefit Pension Plan is administered by the Board of Managers of Pensions. The MTA Defined Benefit Pension Plan, including benefits and contributions, may be amended by action of the MTA Board. The MTA Defined Benefit Pension Plan is a fiduciary component unit of the MTA and is reflected in the Pension and Other Employee Benefit Trust Funds section of the MTA's basic financial statements.

The pension plan issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to the MTA Deputy Chief, Controller's Office, 2 Broadway, 15th Floor, New York, NY 10004 or at www.mta.info.

5. NYCERS —

NYCERS is a cost-sharing, multiple-employer retirement system for employees of NYC and certain other governmental units whose employees are not otherwise members of The City's four other pension systems. NYCERS administers the New York City Employees Retirement System qualified pension plan. This plan covers employees of MTA New York City Transit and MTA Bridges and Tunnels.

NYCERS was established by an act of the Legislature of the State of New York under Chapter 427 of the Laws of 1920. NYCERS functions in accordance with the governing statutes contained in the New York State Retirement and Social Security Law ("RSSL"), and the Administrative Code of the City of New York ("ACNY"), which are the basis by which benefit terms and employer and member contribution requirements are established and amended. The head of the retirement system is the Board of Trustees. NYCERS is a fiduciary component unit of The City and is in the Pension and Other Employee Benefit Trust Funds section of The City's Annual Comprehensive Financial Report ("ACFR").

NYCERS issues a publicly available comprehensive annual financial. This report may be obtained by writing to the New York City Employees' Retirement System at 335 Adams Street, Suite 2300, Brooklyn, NY 11201-3724 or at www.nycers.org.

All employees of the Related Group holding permanent civil service positions in the competitive or labor class are required to become members of NYCERS six months after their date of appointment, but may voluntarily elect to join NYCERS prior to their mandated membership date. All other eligible employees have the option of joining NYCERS upon appointment or anytime thereafter. NYCERS members are assigned to a "tier" depending on the date of their membership.

Tier 1	All members who joined prior to July 1, 1973.
Tier 2	All members who joined on or after July 1, 1973 and before July 27, 1976.
Tier 3	Only certain members who joined on or after July 27, 1976 and prior to April 1, 2012.
Tier 4	All members (with certain member exceptions) who joined on or after July 27, 1976 but prior to April 1, 2012. Members who joined on or after July 27, 1976 but prior to September 1, 1983 retain all rights and benefits of Tier 3 membership.
Tier 6	Members who joined on or after April 1, 2012.

6. NYSLERS —

NYSLERS is a cost-sharing, multiple-employer defined benefit retirement system. The NYS Comptroller's Office administers the NYSLERS' plan. The net position of NYSLERS is held in the NYS Common Retirement Fund (the "Fund"), which was established to hold all assets and record changes in fiduciary net position allocated to the plan. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of NYSLERS. NYSLERS' benefits are established under the provisions of the New York State RSSL. Once a public employer elects to

participate in NYSLERS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. This plan covers nonrepresented MTAHQ employees earning less than $70,000 per year, those nonrepresented MTAHQ employees that do not choose the Voluntary Defined Contribution Plan provided for under RSSL Tier 6 legislation, and employees represented by the International Brotherhood of Teamsters.

NYSLERS is included in NYS's financial report as a pension trust fund. The report can be accessed on the NYS Comptroller's website at: www.osc.state.ny.us/retire/about_us/financial_statements_index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244-001.

Pension legislation enacted in 1973, 1976, 1983, 2009 and 2012 established distinct classes of tier membership.

Tier 1	All members who joined prior to July 1, 1973.
Tier 2	All members who joined on or after July 1, 1973 and before July 27, 1976.
Tier 3	Generally, certain members who joined on or after July 27, 1976 but before January 1, 2010 and all other members who joined on or after July 27, 1976, but before September 1, 1983.
Tier 4	Generally, members (with certain member exceptions) who joined on or after September 1, 1983, but before January 1, 2010.
Tier 5	Members who joined on or after January 1, 2010, but before April 1, 2012.
Tier 6	Members who joined on or after April 1, 2012.

Benefits Provided

1. LIRR Additional Plan —

Pension Benefits — An eligible MTA Long Island Rail Road employee who retires under the LIRR Additional Plan, either: (a) after completing at least 20 years of credited service, or (b) after both attaining age 65 while in service and completing at least five years of credited service, or in the case of those who were active employees on January 1, 1988, after completing at least 10 years of credited service, is entitled to an annual retirement benefit, payable monthly for life. Payments commence to an employee referred to in: (a) only after attaining age 50, or (b) only after attaining age 65.

Benefit and contribution provisions, which are based on the point in time at which participants last entered qualifying service and their length of credited service, are established by, and may only be amended by the MTA Long Island Rail Road, subject to the obligations of the MTA Long Island Rail Road under its collective bargaining agreements.

The LIRR Additional Plan has both contributory and non-contributory requirements, with retirement ages varying from 50 to 65 depending upon a participant's length of credited service. Pension benefits payable to age 65, where eligible, are calculated as 2% of the employee's applicable final average earnings for each year of qualifying service up to 25 years plus 1.5% of applicable final average earnings for each year of qualifying service in excess of 25 years. For pension benefits payable at and after age 65, regardless of whether benefits commenced before or after the employee attained age 65, benefits are calculated in the same manner as pension benefits payable prior to age 65 except that the amount so determined is reduced by a percentage of the employee's annuity (not including any supplemental annuity) value at age 65 under the Federal Railroad Retirement Act.

Participants who entered qualifying service before July 1, 1978 are not required to contribute. Participants who entered qualifying service on or after July 1, 1978, are required to contribute 3% of their wages. The MTA Long Island Railroad contributes additional amounts based on actuarially determined amounts that are designed to accumulate sufficient assets to pay benefits when due.

Death Benefits — Survivorship benefits are paid to the participant's spouse when a survivorship option is elected or when an active participant has not divested his or her spouse of benefits. The survivorship benefit is payable at the time of death or when the vested participant would have attained an eligible age. The amount payable is in the form of an annuity. A lump sum death benefit no greater than five thousand dollars is payable upon death on behalf of a non-vested participant or vested participant whose pension rights were waived.

Retirement benefits establishment and changes for representative employees are collectively bargained and must be ratified by the respective union and the MTA Board. For non-represented employees, amendments must be approved by the MTA Board.

2. MaBSTOA Pension Plan —

The MaBSTOA Pension Plan provides retirement as well as death, accident, and disability benefits. The benefits provided by the MaBSTOA Pension Plan are generally similar to the benefits provided to MTA New York City Transit participants in NYCERS. Benefits vest after either 5, 10, or 20 years of credited service, depending on the date of

membership.

In 2008, NYCERS had determined that Tier 4 employees are and have been eligible for a post retirement death benefit retroactive to 1986. In June 2012, the MTA Board approved an amendment to the MaBSTOA Pension Plan to provide for incorporation of this benefit.

Chapter 716 of the Laws of 2023 enacted in December 2023 modified the pre-retirement and postretirement ordinary death benefits applicable to Tier 2, 3, 4 and 6 members effective July 1, 2021. This affects the benefits payable after the death of a member who is over age 60. The law lowers the existing age-based reductions, resulting in an increased benefit for eligible beneficiaries.

Chapter 55 of the Laws of 2024, Part KK, extends until December 31, 2026 the exclusion of pensionable earnings above the annual base wages of Tier 6 members for purposes of calculating Basic Member Contributions.

Chapter 56 of the Laws of 2024, Part QQ, reduces the number of years used to calculate the Final Average Salary ("FAS") from five years to three years for certain Tier 6 members.

Tier 1 —

Eligibility and Benefit Calculation: Tier 1 members must be at least age 50 with the completion of 20 years of service to be eligible to collect a service retirement benefit. Generally, the benefit is 1.50% for service before March 1, 1962, plus 2.0% for service from March 1, 1962 to June 30, 1970, plus 2.5% for service after June 30, 1970. The accumulated percentage, up to a maximum of 50%, is multiplied by the member's compensation, which is the greater of earned salary during the year prior to retirement. Once the accumulated reaches 50%, the percentage for each further year of service reverts back to 1.5%. The percentage in excess of 50% is multiplied by the final compensation, which is the highest average earnings over five consecutive years.

Ordinary Disability Benefits — Generally, ordinary disability benefits are provided to eligible Tier 1 members after ten years of service with the benefit equal to the greater of the service retirement percentages or 25% multiplied by final compensation.

Accidental Disability Benefits — The accidental disability benefit to eligible Tier 1 members is equal to 75% of final compensation reduced by 100% of any worker's compensation payments.

Ordinary Death Benefits — For Tier 1 members the amount of the death benefit is a lump sum equal to six months' pay for members with less than 10 years of service; a lump sum equal to a 12 months of pay for members with more than 10 but less than 20 years of service, and a lump sum equal to two times 12 months of pay for members with more than 20 years of service.

Tier 2 —

Eligibility and Benefit Calculation: Tier 2 members must be at least age 55 with the completion of 25 years of service to be eligible to collect a service retirement benefit. Generally, the benefit equals 50% of final 3-year average compensation, defined as the highest average earnings over three consecutive years, plus 1% of final 5-year average compensation, defined as the highest average earnings over five consecutive years, per year of credited service in excess of 20 years. For early retirement, members must be at least age 50 with the completion of at least 20 years of service. The benefit is determined in the same manner as the service retirement but not greater than 2.0% of final 3-year average compensation per year of service.

Ordinary Disability Benefits — Generally, ordinary disability benefits are provided to eligible Tier 2 members after ten years of service with the benefit equal to the greater of the service retirement percentages or 25% multiplied by the final 5-year average compensation.

Accidental Disability Benefits — The accidental disability benefit to eligible Tier 2 members is equal to 75% of the final 5-year average compensation reduced by any worker's compensation payments.

Ordinary Death Benefits — Tier 2 members require the completion of 90 days of service to receive a lump sum equal to 3 times salary, raised to the next multiple of $1,000 dollars.

Tiers 3, 4 —

Eligibility and Benefit Calculation: Tier 3 and 4 members in the Regular 62 and 5 Plan must be at least age 62 with the completion of at least 5 years of service to be eligible to collect a service retirement benefit. Generally, the benefit for members with at least 20 years of service, is equal to 2.0% of Final Average Compensation ("FAC") for the first 30 years of service plus 1.5% of FAC for years of service in excess of 30. FAC is defined as the highest average earnings over three consecutive years, of which earnings in a year cannot exceed 110% of the average of the two preceding years. If the member completes less than 20 years of credited service, the benefit equals 1-2/3% of FAC multiplied by years of service. For early retirement, members must be at least age 55 with the completion of at least 5 years of

service. The benefit equals the service retirement benefit reduced by 6% for each of the first two years prior to age 62, and by 3% for years prior to age 60.

Tier 3 and 4 members in the basic 55/25 Plan must be at least age 55 with the completion of at least 25 years of service, or be at least age 62 with the completion of at least 5 years of service, to be eligible to collect a service retirement benefit. Generally, the benefit for members with at least 25 years of service, is equal to 2.0% of FAC for the first 30 years of service plus 1.5% of FAC for years of service in excess of 30. If the member completes less than 25 years of credited service, the benefit equals 1-2/3% of FAC multiplied by years of service.

Tier 4 members in the 57/5 Plan must be at least age 57 with the completion of at least 5 years of service to be eligible to collect a service retirement benefit. Generally, the benefit for members with at least 20 years of service, is equal to 2.0% of FAC for the first 30 years of service plus 1.5% of FAC for years of service in excess of 30. If the member completes less than 20 years of credited service, the benefit equals 1-2/3% of FAC multiplied by years of service.

Ordinary and Accidental Disability Benefits — For eligible members of the Regular 62/5 Plan, 57/25 Plan and 57/5 Plan, ordinary and accidental disability benefits are provided after 10 years of service for ordinary and no service required for accidental disability benefit. The benefit equals the greater of 1-2/3% of FAC per year of service and 1/3 of FAC.

Ordinary Death Benefits — For eligible members of the Regular 62/5 Plan, 55/25 Plan, 57/5 Plan, the pre-retirement ordinary death benefit is equal to a lump sum of annual salary times the lesser of completed years of service and 3. After age 60, the benefit is reduced 3% per year, to a maximum reduction of 30%. Accumulated regular member contributions with interest and one-half of accumulated additional member contributions with interest are also payable. Upon retirement, the post-retirement benefit is reduced by 50% and reduced an additional 25% after completion of one year of retirement. After completion of two years of retirement, the benefit equals 10% of the pre-retirement benefit in force at age 60 or at the time of retirement was earlier than age 60, but not less than 10% of the pre-retirement benefit in force at the time of retirement.

Tier 6 —

Eligibility and Benefit Calculation: Chapter 56 of the Laws of 2022 enacted in April 2022 reduced the Tier 6 vesting requirement from 10 years to 5 years of service. Tier 6 members in the 55/25 Special Plan must be at least age 55 with the completion of at least 25 years, or at least age 63 with the completion of at least 5 years of service, to be eligible to collect a service retirement benefit. Generally, the benefit for members with at least 25 years of service, is equal to 2.0% of FAS for the first 30 years of service plus 1.5% of FAS for years of service in excess of 30. If the member completes less than 20 years of credited service, the benefit equals 1- 2/3% of FAS multiplied by years of service. FAS is defined as the highest average pensionable compensation over five consecutive years.

Tier 6 members in the Basic 63/5 Plan must be at least age 63 with the completion of at least 5 years to be eligible to collect a service retirement benefit. Generally, the benefit for members with at least 20 years of service, is equal to 35% of FAS plus 2.0% of FAS for years of service in excess of 20. If the member completes less than 20 years of credited service, the benefit equals 1-2/3% of FAS multiplied by years of service. FAS is defined as the highest average pensionable earnings over five consecutive years. For early retirement, members must be at least age 55 with the completion of at least 10 years of service. The benefit equals the service retirement benefit reduced by 6.5% for each year early retirement precedes age 63.

Ordinary and Accidental Disability Benefits — For eligible members of the 55/25 Special Plan and the Basic 63/5 Plan, ordinary and accidental disability benefits are provided after 10 years of credited service for ordinary. There is no service requirement for accidental disability benefit. The benefit equals the greater of 1-2/3% of FAS per year of service and 1/3 of FAS.

Ordinary Death Benefits — For eligible members of the 55/25 Special Plan and the Basic 63/5 Plan, the pre-retirement ordinary death benefit is equal to a lump sum of annual salary times the lesser of completed years of service and 3. After age 60, the benefit is reduced 3% per year, to a maximum reduction of 30%. Accumulated regular member contributions with interest are also payable. Upon retirement, the post-retirement benefit is reduced by 50% and reduced an additional 25% after completion of one year of retirement. After completion of two years of retirement, the benefit equals 10% of the pre-retirement benefit in force at age 60 or at the time of retirement if retirement was earlier than age 60, but not less than 10% of the pre-retirement benefit in force at the time of retirement.

3. MNR Cash Balance Plan —

Pension Benefits — Participants of the MNR Cash Balance Plan are vested in their benefit upon the earlier of (a) the completion of 5 years of service with MTA Metro-North Railroad or (b) the attainment of age 62. The accrued benefit is a participant's Initial Account Balance increased each month by the benefit escalator. The benefit escalator is defined as the Pension Benefit Guaranty Corporation ("PBGC") immediate annuity rate in effect for December of the year preceding the year for which the determination is being made divided by 180. The accrued benefit is paid as an escalating annuity. Vested participants are entitled to receive pension benefits commencing at age sixty-five. Participants

may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or they may elect a monthly life annuity. Participants may elect to receive their pension in the form of a joint and survivor annuity.

Participants of the MNR Cash Balance Plan are eligible for early retirement benefits upon termination of employment, the attainment of age 62, or age 60 and completion of 15 years of service, or age 55 and the completion of 30 years of service. The early retirement benefits paid is the normal retirement pension deferred to age 65 or an immediate pension equal to the life annuity actuarial equivalent of a participant's escalating annuity at normal retirement date indexed by the Initial Benefit Escalator from early retirement date to normal retirement date and reduced by 5/9 of 1% for each month retirement precedes age 65 up to 60 months and 5/18 of 1% for each month after 60 months.

For members with cash balances who are currently members of the MTA Defined Benefit Pension Plan, an additional benefit is provided equal to the amount needed to bring their total benefits (i.e., Railroad Retirement Tier I and II benefits, Conrail Plan benefits, Cash Balance Plan benefits, and MTA Defined Benefit Pension Plan benefits) up to a minimum of 65% of their 3-year final average pay under the MTA Defined Benefit Pension Plan. In no event will the Additional Benefit exceed 2% of 3-year final average pay multiplied by the Conrail Management Service prior to July 1, 1983. This benefit is payable as a life annuity and is reduced for commencement prior to age 65 in the same manner as the regular cash balance benefit. This additional benefit is payable only in the form of a life annuity or 100% or 50% contingent annuity.

Death Benefits — Benefits are paid to vested participants' beneficiaries in the event of a participants' death. The amount of benefits payable is the participant's account balance at the date of his or her death. Pre-retirement death benefits paid for a participant's death after 55 is equal to the amount the spouse would have received had the participant elected retirement under the normal form of payment on the day preceding his death. Pre-retirement death benefits paid for a participant's death before 55 is equal to the amount the spouse would have received had the participant survived to age 55 and retired under the normal form of payment on that date. The benefit is based on service to the participant's date of death and is payable beginning on the date the participant would have attained age 55.

In lieu of the above benefit, the surviving spouse can elect to receive the participant's account balance in a single lump sum payment immediately. If the participant was not married, the participant's beneficiary is entitled to receive the participant's Account Balance as of the participant's date of death in a single lump sum payment.

4. MTA Defined Benefit Pension Plan —

Pension Benefits — Retirement benefits are paid from the MTA Defined Benefit Pension Plan to cover MTA Metro-North Railroad, MTA Staten Island Railway and post-1987 MTA Long Island Rail Road employees as service retirement allowances or early retirement allowances. A participant is eligible for a service retirement allowance upon termination if the participant satisfied both age and service requirements. A participant is eligible for an early retirement allowance if the participant has attained age 55 and completed at least 10 years of credited service. Terminated participants with 5 or more years of credited service are eligible for a deferred vested benefit. Deferred vested benefits are payable on an unreduced basis on the first day of the month following the participant's 62nd birthday.

Certain represented employees of the MTA Long Island Rail Road and the MTA Metro-North Railroad continue to make contributions to the Plan for 10 or 15 years, depending on Date of Hire and Collective Bargaining Agreement. Certain represented employees of the MTA Long Island Rail Road and the MTA Metro-North Railroad are eligible for an early retirement allowance if the participant has attained age 60 or 62 and completed at least 5 years of credited service, or has attained age 55 and completed at least 30 years of credited service for unreduced benefit. The early retirement allowance is reduced one-quarter of 1% per month for each full month that retirement predates age 60 for certain represented employees of the MTA Long Island Rail Road and the MTA Metro-North Railroad, and one-half of 1% per month for each full month that retirement predates age 62 until age 60, for certain represented employees of the MTA Long Island Rail Road and MTA Metro-North Railroad.

Effective in 2007, members and certain former members who become (or became) employed by another MTA agency which does not participate in the Plan continue to accrue service credit based on such other employment. Upon retirement, the member's vested retirement benefit from the Plan will be calculated on the FAS of the subsequent MTA agency, if higher. Moreover, the Plan benefit will be reduced by the benefit, if any, payable by the other plan based on such MTA agency employment. Such member's disability and ordinary death benefit will be determined in the same way.

Retirement benefits are paid from the MTA Defined Benefit Pension Plan under the MTA 20-Year Police Retirement Program. A participant is eligible for service retirement at the earlier of completing twenty years of credited police service or attainment of age 62. Terminated participants with five years of credited police service, who are not eligible for retirement, are eligible for a deferred benefit. Deferred vested benefits are payable on the first of the month following the participant's attainment of age 55 or age 63 for a participant who first joins the MTA 20-Year Police Retirement Program on or after April 1, 2012.

Retirement benefits paid from the MTA Defined Benefit Pension Plan to covered represented MTA Bus employees include service retirement allowances or early retirement allowances. Under the programs covering all represented employees at Baisley Park, Eastchester, LaGuardia, Spring Creek, and Yonkers Depots and the represented employees at College Point Depot, JFK, and Far Rockaway, a participant is eligible for a service retirement allowance upon termination if the participant has attained age sixty-five and completed at least five years of credited service or if the participant has attained age 57 and completed at least 20 years of credited service. A participant hired prior to June 2009 from Baisley Park, College Point, and LaGuardia Depots is eligible for an early retirement allowance if the participant has attained age 55 and completed 20 years of credited service. Terminated participants with five or more years of credited service who are not eligible to receive a service retirement allowance or early retirement allowance are eligible for a deferred vested benefit. Deferred vested benefits are payable on an unreduced basis on or after the participant attains age 65.

At Baisley Park, Far Rockaway, JFK, LaGuardia and Spring Creek Depots, a participant who is a non-represented employee is eligible for an early retirement allowance upon termination if the participant has attained age 55 and completed 15 years of service. Terminated participants with five or more years of credited service who are not eligible to receive a service retirement allowance or early retirement allowance are eligible for a deferred vested benefit. Deferred vested benefits are payable on an unreduced basis on or after the participant attains age 62.

The MTA Bus retirement programs covering represented and non-represented employees at Eastchester and Yonkers and covering the represented employees at Baisley Park, College Point, Far Rockaway, JFK, LaGuardia and Spring Creek are fixed dollar plans, i.e., the benefits are a product of credited service and a specific dollar amount.

The retirement benefits for certain non-represented employees at Baisley Park, Far Rockaway, JFK, LaGuardia and Spring Creek are based on FAS. Certain participants may elect to receive the retirement benefit as a single life annuity or in the form of an unreduced 75% joint and survivor benefit.

Pre-1988 MTA Long Island Rail Road participants are eligible for a service retirement allowance upon termination if the participants has either: (a) attained age sixty-five and completed at least five years of credited service, or if an employee on January 1, 1988 completed at least 10 years of credited service, or (b) attained age fifty and has completed at least 20 years of credited service. Terminated participants who were not employees on January 1, 1988 with five or more years of credited service are eligible for a deferred vested benefit. Pension benefits payable to age 65, where eligible, are calculated as 2% of the employee's applicable final average earnings for each year of qualifying service up to 25 years plus 1.5% of applicable final average earnings of each year of qualifying service in excess of 25 years. For pension benefits payable at and after age 65 regardless of whether benefits commenced before or after the employee attained age 65, benefits are calculated in the same manner as pension benefits payable prior to age 65 except that the amount so determined is reduced by a percentage of the employee's annuity (not including supplemental annuity) value at age 65 under the Federal Railroad Retirement Act. The reduction of pension benefits for amounts payable under the Federal Railroad Retirement Act is 50%.

Death and Disability Benefits — In addition to service retirement benefits, participants of the Plan are eligible to receive disability retirement allowances and death benefits. Participants who become disabled may be eligible to receive disability retirement allowances after 10 years of covered MTA Bus service; 10 years of credited service for covered MTA Metro-North Railroad and MTA Long Island Rail Road management and represented employees, covered MTA Staten Island Railway employees and covered MTA police participants.

The disability retirement allowance for covered MTA Metro-North Railroad and MTA Long Island Rail Road management and represented covered MTA Staten Island Railway employees is calculated based on the participant's credited service and FAS but not less than ⅓ of FAS. Under the MTA 20 Year Police Retirement Program, a disabled participant may be eligible for one of three forms of disability retirement: (a) ordinary disability which is payable if a participant has ten years of credited Police service and is calculated based on the participant's credited Police service and FAS but not less than ⅓ of FAS; (b) performance of duty, which is payable if a participant is disabled in the performance of duty and is ½ of FAS, and (c) accidental disability, which is payable if a participant is disabled as the result of an on-the-job accidental injury and is ¾ of FAS subject to an offset of Workers' Compensation benefits. Pursuant to the MTA Bus programs, the disability benefit is the same as the service retirement benefit.

Survivorship benefits for pre-1988 MTA Long Island Rail Road participants are paid to the spouse when a survivorship option is elected or when an active participant has not divested their spouse of benefits. The survivorship benefit is payable at the time of death or when the vested participant would have attained an eligible age. The amount payable is in the form of an annuity. A lump sum death benefit no greater than $5,000 (whole dollars) is payable upon death on behalf of a non-vested participant or vested participant whose pension rights were waived.

Death benefits are paid to the participant's beneficiary in the event of the death of a covered MTA Metro-North Railroad, post-1987 MTA Long Island Rail Road or MTA Staten Island Railway employee after completion of one year of credited service. The death benefit payable is calculated based on a multiple of a participant's salary based on years of credited service up to three years and is reduced beginning at age 61. There is also a post-retirement death benefit which, in

the 1st year of retirement, is equal to 50% of the pre-retirement death benefit amount, whichever is greater, 25% the 2nd year and 10% of the death benefit payable at age 60 for the 3rd and later years. For the Police 20 Year Retirement Program, the death benefit is payable after ninety days of credited MTA police service, and is equal to three times their salary. For non-Police groups, this death benefit is payable in a lump sum distribution while for Police, the member or the beneficiary can elect to have it paid as an annuity. The MTA police do not have a post retirement benefit.

In the MSBA Employees' Pension Plan, there are special spousal benefits payable upon the death of a participant who is eligible for an early retirement benefit, or a normal service retirement benefit, or who is a vested participant or vested former participant. To be eligible, the spouse and participant must have been married at least one year at the time of death. Where the participant was eligible for an early service retirement benefit or was a vested participant or former participant, the benefit is a pension equal to 40% of the benefit payable to the participant as if the participant retired on the date of death. Where the participant was eligible for a normal service retirement benefit, the eligible spouse can elect either the benefit payable as a pension, as described in the prior sentence, or a lump sum payment based on an actuarially determined pension reserve. If there is no eligible spouse for this pension reserve benefit, a benefit is payable to the participant's beneficiary or estate.

Moreover, an accidental death benefit is payable for the death of a participant who is a covered MTA Metro-North Railroad or post-1987 MTA Long Island Rail Road employee, a covered MTA Staten Island Railway employee or a covered MTA Police member and dies as the result of an on-the-job accidental injury. This death benefit is paid as a pension equal to 50% of the participant's salary and is payable to the spouse for life, or, if none, to children until age eighteen (or twenty-three, if a student), or if none, to a dependent parent.

For MTA Bus employees, there is varied death benefit coverage under the Plan. For all represented and non-represented MTA Bus employees at Eastchester and Yonkers Depots and represented MTA Bus employees at Baisley Park, College Point, Far Rockaway, JFK, LaGuardia and Spring Creek Depots, if a participant dies prior to being eligible for a retirement benefit, the participant's beneficiary may elect to receive a refund of the participant's contributions plus interest.

Moreover, the spouses of the above employees who are vested are entitled to a presumed retirement survivor annuity which is based on a 50% Joint and Survivor annuity. The date as of which such annuity is determined and on which it commences varies among the different programs depending on whether the participants are eligible for retirement and for payment of retirement benefits.

In addition, the spouse of a non-represented MTA Bus employee at Spring Creek, JFK, LaGuardia, Baisley Park and Far Rockaway, if such employee is age 55 and has 15 years of service and is a terminated member with a vested benefit which is not yet payable, may elect the presumed retirement survivor annuity or 1/2 the participant's accrued benefit paid monthly and terminating on the 60th payment or the spouse's death. The spouse of a non-represented MTA Bus employee at Yonkers Depot may also receive a pre-retirement survivor annuity from the supplemental plan. If there is no such spouse, the actuarial equivalent of such annuity is payable.

Dependent children of MTA Bus employees are also entitled to an annuity based on the spouse's pre-retirement survivor annuity (1/2 of the spouse's annuity is payable to each child, but no more than 100% of the spouse's annuity is payable). In addition, the dependent children of retirees who were MTA Bus employees at these Depots are entitled to an annuity based on the presumed retirement survivor's annuity (25% of the spouse's annuity; but no more than 50% of the spouse's annuity is payable).

Retirement benefits establishment and changes for represented employees are collectively bargained and must be ratified by the respective union and the MTA Board. For non-represented employees, retirement benefits establishment and changes are presented to the MTA Board and must be accepted and approved by the MTA Board.

5. NYCERS —

NYCERS provides three main types of retirement benefits: Service Retirements, Ordinary Disability Retirements (non-job-related disabilities) and Accident Disability Retirements (job-related disabilities) to participants generally based on salary, length of service, and member Tiers.

The Service Retirement benefits provided to Tier 1 participants fall into four categories according to the level of benefits provided and the years of service required. Three of the four categories provide annual benefits of 50% to 55% of final salary after 20 or 25 years of service, with additional benefits equal to a specified percentage per year of service (currently 1.2% to 1.7%) of final salary. The fourth category has no minimum service requirement and instead provides an annual benefit for each year of service equal to a specified percentage (currently 0.7% to 1.53%) of final salary.

Tier 2 participants have provisions similar to Tier 1, except that the eligibility for retirement and the salary base for benefits are different and there is a limitation on the maximum benefit.

Tier 3 participants were later mandated into Tier 4, but could retain their Tier 3 rights. The benefits for Tier 3 participants

are reduced by one half of the primary Social Security benefit attributable to service, and provides for an automatic annual cost-of-living escalator in pension benefits of not more than 3.0%.

Tier 4 participants upon satisfying applicable eligibility requirements may be mandated or elected, as applicable, into the Basic 62/5 Retirement Plan, the 57/5 Plan, the 55/25 Plan, the Transit 55/25 Plan, the MTA Triborough Bridge and Tunnel Authority 50/20 Plan, and the Automotive Member 25/50 Plan. These plans provide annual benefits of 40% to 50% of final salary after 20 or 25 years of service, with additional benefits equal to a specified percentage per year of service (currently 1.5% to 2%) of final salary.

Chapter 18 of the Laws of 2012 created Tier 6. These changes increase the retirement age to 63, require member contributions for all years of service, institute progressive member contributions, and lengthen the FAS period from 3 to 5 years.

Chapter 693 of the Laws of 2023 removes the age 50 requirement from the MTA Bridges and Tunnels 50/20 plan for Tier 4 and Tier 6 members.

Chapter 716 of the Laws of 2023 enacted in December 2023 modified the pre-retirement and postretirement ordinary death benefits applicable to Tier 2, 3, 4 and 6 members effective July 1, 2021. This affects the benefits payable after the death of a member who is over age 60. The law lowers the existing age-based reductions, resulting in an increased benefit for eligible beneficiaries.

Chapter 55 of the Laws of 2024, Part KK, extends until December 31, 2026 the exclusion of pensionable earnings above the annual base wages of Tier 6 members for purposes of calculating Basic Member Contributions.

Chapter 56 of the Laws of 2024, Part QQ, reduces the number of years used to calculate the FAS from five years to three years for certain Tier 3 and Tier 6 members.

NYCERS also provides automatic Cost-of-Living Adjustments ("COLA") for certain retirees and beneficiaries, death benefits; and certain retirees also receive supplemental benefits. Subject to certain conditions, members generally become fully vested as to benefits upon the completion of 5 years of service.

6. NYSLERS —

NYSLERS provides retirement benefits as well as death and disability benefits. Members who joined prior to January 1, 2010 need 5 years of service to be fully vested. Members who joined on or after January 1, 2010 need 10 years of service to be fully vested. Subsequent to March 31, 2022, legislation was passed that reduced the number of years of service credit from ten years to five years. Therefore, all Members are vested when they reach five years of service credit.

Tiers 1 and 2 —

Eligibility: Tier 1 members generally must be at least age 55 to be eligible for a retirement benefit. There is no minimum service requirement for Tier 1 members. Generally, Tier 2 members must have 5 years of service and be at least age 55 to be eligible for a retirement benefit. The age at which full benefits may be collected for Tier 1 is 55, and the full benefit age for Tier 2 is 62.

Benefit Calculation: Generally, the benefit is 1.67% of FAS for each year of service if the member retires with less than 20 years. If the member retires with 20 or more years of service, the benefit is 2 percent of FAS for each year of service. Tier 2 members with five or more years of service can retire as early as age 55 with reduced benefits. Tier 2 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. As a result of Article 19 of the RSSL, Tier 1 and Tier 2 members who worked continuously from April 1, 1999 through October 1, 2000 received an additional month of service credit for each year of credited service they have at retirement, up to a maximum of 24 additional months. FAS is the average of the wages earned in the three highest consecutive years of employment. For Tier 1 members who joined on or after June 17, 1971, each year's compensation used in the FAS calculation is limited to no more than 20 percent greater than the previous year. For Tier 2 members, each year of FAS is limited to no more than 20 percent greater than the average of the previous two years.

Tiers 3, 4, and 5 —

Eligibility: Most Tier 3 and 4 members must have 5 years of service and be at least age 55 to be eligible for a retirement benefit. Tier 5 members must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tiers 3, 4 and 5 is 62.

Benefit Calculation: Generally, the benefit is 1.67% of FAS for each year of service if the member retires with less than 20 years. If a member retires with between 20 and 30 years of service, the benefit is 2 percent of FAS for each year of service. If a member retires with more than 30 years of service, an additional benefit of 1.5% of FAS is applied for each year of service over 30 years. Tier 3 and 4 members with five or more years of service and Tier 5 members with 10 or more years of service can retire as early as age 55 with reduced benefits. Tier 3 and 4 members age 55 or older

with 30 or more years of service can retire with no reduction in benefits. FAS is the average of the wages earned in the three highest consecutive years of employment. For Tier 3, 4 and 5 members, each year's compensation used in the FAS calculation is limited to no more than 10% greater than the average of the previous two years.

Tier 6 —

Eligibility: Generally, Tier 6 members must have 5 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tier 6 is 63.

Benefit Calculation: Generally, the benefit is 1.67% of FAS for each year of service if the member retires with less than 20 years. If a member retires with 20 years of service, the benefit is 1.75% of FAS for each year of service. If a member retires with more than 20 years of service, an additional benefit of 2% of FAS is applied for each year of service over 20 years. Tier 6 members with 10 or more years of service can retire as early as age 55 with reduced benefits. FAS is the average of the wages earned, limited by overtime caps, in the three highest consecutive years of employment. For Tier 6 members, each year's compensation used in the FAS calculation is limited to no more than 10% greater than the average of the previous four years.

Chapter 55 of the Laws of 2024, Part KK, extends until December 31, 2026 the exclusion of pensionable earnings above the annual base wages of Tier 6 members for purposes of calculating Basic Member Contributions.

Chapter 56 of the Laws of 2024, Part QQ, reduces the number of years used to calculate the FAS from five years to three years for certain Tier 6 members.

Disability Benefits— Generally, disability retirement benefits are available to members unable to perform their job duties because of permanent physical or mental incapacity. Eligibility, benefit amounts, and other rules such as any offsets of other benefits depend on a member's tier, years of service, and plan. Civilian MTAHQ employees get either Ordinary Disability or Accidental Disability. Ordinary Disability benefits, pay no less than one-third of salary, and are provided to eligible members after ten years of service. The Accidental Disability benefit for eligible Tier 3, 4, 5 and 6 members is the ordinary disability benefit with the years-of-service eligibility requirement dropped.

Ordinary Death Benefits — Death benefits are payable upon the death, before retirement, of a member who meets eligibility requirements as set forth by law. The first $50,000 (whole dollars) of an ordinary death benefit is paid in the form of group term life insurance. The benefit is generally three times the member's annual salary. For most members, there is also a reduced post-retirement ordinary death benefit available.

Post-Retirement Benefit Increases — A COLA is provided annually to: (i) all retirees who have attained age 62 and have been retired for five years; (ii) all retirees who have attained age 55 and have been retired for ten years; (iii) all disability retirees, regardless of age, who have been retired for five years; (iv) recipients of an accidental death benefit, regardless of age, who have been receiving such benefit for five years and (v) the spouse of a deceased retiree receiving a lifetime benefit under an option elected by the retiree at retirement. An eligible spouse is entitled to one-half the COLA amount that would have been paid to the retiree when the retiree would have met the eligibility criteria. This COLA is a percentage of the annual retirement benefit of the eligible member as computed on a base benefit amount not to exceed $18,000 (whole dollars) of the annual retirement benefit. The COLA percentage shall be 50 percent of the annual Consumer Price Index as published by the U.S. Bureau of Labor, but cannot be less than 1 percent or exceed 3 percent.

Membership

As of January 1, 2024 and January 1, 2023, the dates of the most recent actuarial valuations, membership data for the following pension plans are as follows:

Membership at: January 1, 2024	MNR Cash Balance Plan	LIRR Additional Plan	MaBSTOA Pension Plan	MTA Defined Benefit Pension Plan	TOTAL
Active Plan Members	-	12	8,355	19,420	27,787
Retirees and beneficiaries receiving benefits	20	4,772	6,475	12,291	23,558
Vested formerly active members not yet receiving benefits	5	13	1,324	1,988	3,330
Total	25	4,797	16,154	33,699	54,675

Membership at: January 1, 2023	MNR Cash Balance Plan	LIRR Additional Plan	MaBSTOA Pension Plan	MTA Defined Benefit Pension Plan	TOTAL
Active Plan Members	-	14	8,393	19,071	27,478
Retirees and beneficiaries receiving benefits	20	4,962	6,307	12,141	23,430
Vested formerly active members not yet receiving benefits	5	13	1,230	1,867	3,115
Total	25	4,989	15,930	33,079	54,023

Contributions and Funding Policy

1. LIRR Additional Plan —

Employer contributions are actuarially determined on an annual basis and are recognized when due. The LIRR Additional Plan is a defined benefit plan administered by the Board of Pension Managers and is a governmental plan and accordingly, is not subject to the funding and other requirements of ERISA.

Upon termination of employment before retirement, vested participants who have been required to contribute must choose to: (1) receive a refund of their own contributions, including accumulated interest at rates established by the MTA Long Island Rail Road's Board of Managers of Pensions (1.5% in 2024 and 2023), or (2) leave their contributions in the LIRR Additional Plan until they retire and become entitled to the pension benefits. Non-vested participants who have been required to contribute will receive a refund of their own contributions, including accumulated interest at rates established by the MTA Long Island Rail Road's Board of Managers of Pensions (1.5% in 2024 and 2023).

Funding for the LIRR Additional Plan by the MTA Long Island Rail Road is provided by MTA. Certain funding by MTA is made to the MTA Long Island Rail Road on a discretionary basis. The continuance of the MTA Long Island Rail Road's funding for the LIRR Additional Plan has been, and will continue to be, dependent upon the receipt of adequate funds.

2. MaBSTOA Pension Plan —

The contribution requirements of MaBSTOA Pension Plan members are established and may be amended only by the MaBSTOA Board in accordance with Sections 10.01 and 12.08 of the MaBSTOA Pension Plan. MaBSTOA's funding policy for periodic employer contributions is to provide for actuarially determined amounts that are designed to accumulate sufficient assets to pay benefits when due. It is MaBSTOA's policy to fund, at a minimum, the current year's normal pension cost plus amortization of the unfunded actuarial accrued liability.

The MaBSTOA Pension Plan includes the following plans, including the 2000 amendments which are all under the same terms and conditions as NYCERS:

- Tier 1 – 50 and 20 Plan
- Tier 2 – 55 and 25 Plan
- Tier 4 – 62 and 5 Plan (with Tier III Supplement)
- Tier 4 – 55 and 25 Plan (operating employees only)
- Tier 4 – 55 and 25 Plan (administrative employees only)
- Tier 4 – 57 and 5 Plan
- Tier 6 – 55 and 25 Plan (operating employees only)
- Tier 6 – 63 and 5 Plan (administrative employees only)

For employees, the MaBSTOA Pension Plan has both contributory and noncontributory requirements depending on the date of entry into service. Employees entering qualifying service on or before July 26, 1976, are non-contributing (Tiers 1 and 2). Certain employees entering qualifying service on or after July 27, 1976, are required to contribute 3% of their salary (Tiers 3 and 4).

In March 2012, pursuant to Chapter 18 of the Laws of 2012, individuals joining NYCERS or the MaBSTOA Pension Plan on or after April 1, 2012 are subject to the provisions of Tier 6. The new law increased the employee contribution rates which varied depending on salary, ranging from 3% to 6% of gross wages. Contributions are made until retirement or separation from service.

Pursuant to Section 7.03 of the MaBSTOA Pension Plan, active plan members are permitted to borrow up to 75% of their contributions with interest. Their total contributions and interest remain intact and interest continues to accrue on the full balance. The participant's accumulated contribution account is used as collateral against the loan.

3. MNR Cash Balance Plan —

Funding for the MNR Cash Balance Plan is provided by MTA Metro-North Railroad, a public benefit corporation that receives funding for its operations and capital needs from the MTA and CDOT. Certain funding by MTA is made to the MTA Metro-North Railroad on a discretionary basis. The continuance of funding for the MNR Cash Balance Plan has been, and will continue to be, dependent upon the receipt of adequate funds.

MTA Metro-North Railroad's funding policy with respect to the MNR Cash Balance Plan was to contribute the full amount of the pension benefit obligation ("PBO") of approximately $2.977 to the trust fund in 1989. As participants retire, the Trustee has made distributions from the MNR Cash Balance Plan. MTA Metro-North Railroad anticipated that no further contributions would be made to the MNR Cash Balance Plan. However, due to changes in actuarial assumptions and market performance, additional contributions were made to the MNR Cash Balance Plan in several subsequent years. Per the January 1, 2023 valuation, unfunded accrued liability and the actuarially determined contribution are $12,105 and $12,589 respectively. Per the January 1, 2024 valuation, unfunded accrued liability and the actuarially determined contribution are $21,494 and $22,354 respectively. Actual employer contributions for the years ended December 31, 2025 and 2024 were $17,322 (whole dollars) and $22,354 (whole dollars) respectively.

4. MTA Defined Benefit Pension Plan —

Employer contributions are actuarially determined on an annual basis. Amounts recognized as receivables for contributions include only those due pursuant to legal requirements. Employee contributions to the MTA Defined Benefit Pension Plan are recognized in the period in which the contributions are due. There are no contributions required under the Metropolitan Suburban Bus Authority Employee's Pension Plan.

The following summarizes the employee contributions made to the MTA Defined Benefit Pension Plan:

Effective January 1, 1994, covered MTA Metro-North Railroad and MTA Long Island Rail Road non-represented employees are required to contribute to the MTA Plan to the extent that their Railroad Retirement Tier II employee contribution is less than the pre-tax cost of the 3% employee contributions. Effective October 1, 2000, employee contributions, if any, were eliminated after ten years of making contributions to the MTA Plan. MTA Metro-North Railroad employees may purchase prior service from January 1, 1983 through December 31, 1993 and MTA Long Island Rail Road employees may purchase prior service from January 1, 1988 through December 31, 1993 by paying the contributions that would have been required of that employee for the years in question, calculated as described in the first sentence, had the MTA Defined Benefit Pension Plan been in effect for those years.

Police Officers who become participants of the MTA Police Program prior to January 9, 2010 contribute to that program at various rates. Police Officers who become participants on or after January 9, 2010, but before April 1, 2012 contribute 3% up to the completion of 32 years of service, the maximum amount of service credit allowed. Police Officers who become participants on or after April 1, 2012 contribute 3%, with additional new rates starting April 2013, ranging from 3.5%, 4.5%, 5.75%, to 6%, depending on salary level, for their remaining years of service.

Covered MTA Metro-North Railroad represented employees and MTA Long Island Rail Road represented employees who first became eligible to be MTA Defined Benefit Pension Plan participants prior to January 30, 2008 contribute 3% of salary. MTA Staten Island Railway employees contribute 3% of salary except for represented employees hired on or after June 1, 2010 who contribute 4%. MTA Staten Island Railway represented and non-represented employees hired before 6/1/2010 contribute 3%. Represented and non-represented employees hired on and after 6/1/2010 contribute 4%. MTA Staten Island Railway employees hired after various contract dates in 2015 are required to contribute 4% for 15 years of service. MTA Long Island Rail Road represented employees who became participants after January 30, 2008 contribute 4% of salary. For the MTA Staten Island Railway employees, contributions are not required after the completion of ten years of credited service. MTA Long Island Railroad represented employees are required to make the employee contributions for ten years, or fifteen years if hired after certain dates in 2014 as per collective bargaining agreements. Certain Metro-North represented employees hired after various contract dates in 2014 and 2015 are required to contribute for 15 years of service depending on their collective bargaining agreements. Certain Metro-North employees hired prior to 2014 are required to make the employee contributions until January 1, 2014, January 1, 2017, June 30, 2017, or the completion of required years of credited service as per the relevant collective bargaining agreements.

Covered MTA Bus represented employees and certain non-represented employees are required to contribute a fixed dollar amount, which varies, by depot. Nonrepresented MTA Bus employees contribute a percentage of pensionable earnings ranging from 3%, 3.5%, 4.5%, 5.75% and 6%. Represented employees contribute a fixed dollar ranging from $83.03 to $85.52 bi-weekly. Currently, non-represented employees at certain Depots, contribute $21.50 (whole dollars) per week. Non-represented employees at Eastchester hired prior to 2007 contribute $25 (whole dollars) per week. Certain limited numbers of represented employees promoted prior to the resolution of a bargaining impasse continue to participate in the MTA Defined Benefit Pension Plan that was in effect before their promotion. Certain MTA Bus non-represented employees who are formerly employed by the private bus companies (Jamaica, Green, Triboro and

Command) at Baisley Park, Far Rockaway, JFK, LaGuardia and Spring Creek Depots who are in the pension program covering only such employees make no contributions to the program.

5. NYCERS —

NYCERS funding policy is to contribute statutorily-required contributions ("Statutory Contributions"), determined by the Chief Actuary for the New York City Retirement Systems, in accordance with State statutes and City laws, and are generally funded by employers within the appropriate Fiscal Year. The Statutory Contributions are determined under the One-Year Lag Methodology ("OYLM"). Under OYLM, the actuarial valuation date is used for calculating the Employer Contributions for the second following Fiscal Year. Statutory Contributions are determined annually to be an amount that, together with member contributions and investment income, provides for NYCERS' assets to be sufficient to pay benefits when due.

Member contributions are established by law. NYCERS has both contributory and noncontributory requirements, with retirement age varying from 55 to 70 depending upon when an employee last entered qualifying service.

In general, Tier 1 and Tier 2 member contribution rates are dependent upon the employee's age at membership and retirement plan election. In general, Tier 3 and Tier 4 members make basic contributions of 3.0% of salary, regardless of age at membership. Effective October 1, 2000, in accordance with Chapter 126 of the Laws of 2000, these members, except for certain MTA New York City Transit employees enrolled in the Transit 20-Year Plan, are not required to make basic contributions after the 10th anniversary of their membership date or completion of ten years of credited service, whichever is earlier. In addition, members who meet certain eligibility requirements will receive one month's additional service credit for each completed year of service up to a maximum of two additional years of service credit. Effective December 2000, certain MTA New York City Transit Tier 3 and Tier 4 members make basic member contributions of 2.0% of salary, in accordance with Chapter 10 of the Laws of 2000. Certain Tier 2, Tier 3 and Tier 4 members who are participants in special retirement plans are required to make additional member contributions of 1.85%, in addition to their base membership contribution. Tier 6 members are mandated to contribute between 3.0% and 6.0% of salary, depending on salary level, until they separate from City service or until they retire.

NYCERS established a "special program" for employees hired on or after July 26, 1976. A plan for employees, who have worked 20 years, and reached age 50, is provided to Bridge and Tunnel Officers, Sergeants and Lieutenants and Maintainers. Also, an age 57 retirement plan is available for all other such MTA Bridges and Tunnels employees. Both these plans required increased employee contributions. Chapter 56 of the Laws of 2022 enacted in April 2022 excludes certain forms of overtime and extracurricular compensation from the salary used to determine Tier 6 Basic Member Contribution rates during the specified period from 2022 to 2024.

Certain retirees also receive supplemental benefits from MTA Bridges and Tunnels. Certain participants are permitted to borrow up to 75% of their own contributions including accumulated interest. These loans are accounted for as reductions in such participants' contribution accounts. Upon termination of employment before retirement, certain members are entitled to refunds of their own contributions, including accumulated interest, less any outstanding loan balances.

MTA New York City Transit and MTA Bridges and Tunnels are required to contribute at an actuarially determined rate. The contribution requirements of plan members, MTA New York City Transit and MTA Bridges and Tunnels are established and amended by law.

6. NYSLERS —

Employer Contributions - Under the authority of the RSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the NYSLERS fiscal year ending June 30.

Member Contributions - NYSLERS is noncontributory except for employers who joined the plan after July 27, 1976. Generally, Tier 3, 4, and 5 members must contribute 3% of their salary to NYSLERS. As a result of Article 19 of the RSSL, eligible Tier 3 and 4 employees, with a membership date on or after July 27, 1976, who have ten or more years of membership or credited service with NYSLERS, are not required to contribute. Members cannot be required to begin making contributions or to make increased contributions beyond what was required when membership began. For Tier 6 members, the contribution rate varies from 3% to 6% depending on salary. Generally, Tier 5 and 6 members are required to contribute for all years of service.

MTAHQ, MTA Construction and Development and MTA Long Island Bus are required to contribute at an actuarially determined rate.

A summary of the aggregate actual contributions made to each pension plan for the years ended December 31, 2025 and 2024 are as follows:

Year ended December 31,	2025	2024
($ in millions)	Actual Employer Contributions	Actual Employer Contributions
LIRR Additional Plan	$ 1.4	$ 75.0
MaBSTOA Plan	18.3	188.5
MNR Cash Balance Plan	0.0*	0.0*
MTA Defined Benefit Plan	92.4	355.3
NYCERS	899.5	785.1
NYSLERS	31.5	22.2
Total	$ 1,043.1	$ 1,426.1

*MNR Cash Balance Plan's actual employer contributions for the periods ended December 31, 2025 and 2024 were $17,322 (whole dollars) and $22,354 (whole dollars), respectively.

Net Pension Liability

The MTA's net pension liabilities for each of the pension plans reported at December 31, 2025 and 2024 were measured as of the fiscal year-end dates for each respective pension plan. The total pension liabilities used to calculate those net pension liabilities were determined by actuarial valuations as of each pension plan's valuation date, and rolled forward to the respective year-ends for each pension plan. Information about the fiduciary net position of each qualified pension plan's fiduciary net position has been determined on the same basis as reported by each respective qualified pension plan. For this purpose, benefits and refunds are recognized when due and payable in accordance with the terms of the respective qualified pension plan, and investments are reported at fair value. The following table provides the measurement and valuation dates used by each pension plan to calculate the MTA's aggregate net pension liability.

Year ended December 31,	2025		2024	
Pension Plan	Measurement Date	Plan Valuation Date	Measurement Date	Plan Valuation Date
LIRR Additional Plan	December 31, 2024	January 1, 2024	December 31, 2023	January 1, 2023
MaBSTOA Pension Plan	December 31, 2024	January 1, 2024	December 31, 2023	January 1, 2023
MNR Cash Balance Plan	December 31, 2024	January 1, 2024	December 31, 2023	January 1, 2023
MTA Defined Benefit Pension Plan	December 31, 2024	January 1, 2024	December 31, 2023	January 1, 2023
NYCERS	June 30, 2025	June 30, 2024	June 30, 2024	June 30, 2023
NYSLERS	March 31, 2025	April 1, 2024	March 31, 2024	April 1, 2023

Pension Plan Fiduciary Net Position

Detailed information about the fiduciary net position of the LIRR Additional Plan, MaBSTOA Pension Plan, MNR Cash Balance Plan, MTA Defined Benefit Pension Plan, NYCERS plan and the NYSLERS plan is available in the separately issued pension plan financial reports for each respective plan.

DRAFT

Master Page # 81 of 165 - MTA Board Meeting 10/28/2026

Actuarial Assumptions

The total pension liabilities in each pension plan's actuarial valuation dates were determined using the following actuarial assumptions for each pension plan, applied to all periods included in the measurement date:

	LIRR Additional Plan		MaBSTOA Pension Plan		MNR Cash Balance Plan	
Valuation Date:	**January 1, 2024**	**January 1, 2023**	**January 1, 2024**	**January 1, 2023**	**January 1, 2024**	**January 1, 2023**
Investment Rate of Return	6.50%, net of investment expenses.	6.50%, net of investment expenses.	6.50%, net of investment expenses.	6.50%, net of investment expenses.	4.00%, net of investment expenses.	4.00%, net of investment expenses.
Salary Increases	3.00%	3.00%	Reflecting general wage, merit and promotion increases for operating and non-operating members. Varies by years of employment.	Reflecting general wage, merit and promotion increases for operating and non-operating members. Varies by years of employment.	Not applicable	Not applicable
Inflation	2.25%; 3.25% for Railroad Retirement Wage Base.	2.25%; 3.25% for Railroad Retirement Wage Base.	2.25%	2.25%	2.37%	2.32%
Cost-of-Living Adjustments	Not applicable	Not applicable	60% of inflation assumption or 1.35%, if applicable.	60% of inflation assumption or 1.35%, if applicable.	Not applicable	Not applicable

	MTA Defined Benefit Pension Plan		NYCERS		NYSLERS	
Valuation Date:	**January 1, 2024**	**January 1, 2023**	**June 30, 2024**	**June 30, 2023**	**April 1, 2024**	**April 1, 2023**
Investment Rate of Return	6.50%, net of investment expenses	6.50%, net of investment expenses	7.0% per annum, net of Investment Expenses	7.0% per annum, net of Investment Expenses	5.90% per annum, including inflation, net of investment expenses.	5.90% per annum, including inflation, net of investment expenses.

Mortality

LIRR Additional Plan / MaBSTOA Pension Plan/ MNR Cash Balance Plan and MTA Defined Benefit Pension Plan:

The actuarial assumptions used in the January 1, 2024 and 2023 valuations for the MTA plans are based on an experience study dated October 4, 2019 covering the period from January 1, 2012 - December 31, 2017, with certain assumptions modified subsequently. The mortality assumption used in the January 1, 2024 and 2023 valuations are based on an experience study for all MTA plans covering the period from January 1, 2015 to December 31, 2020. The pre-retirement and post-retirement healthy annuitant rates are projected on a generational basis using Scale AA, as recommended by the Society of Actuaries Retirement Plans Experience Committee. As generational tables, they reflect mortality improvements both before and after the measurement date.

Pre-retirement: Pri-2012 Employee mortality table with blue collar adjustments multiplied by 97% for rail males, 92% for MTA Bus and MaBSTOA males and 100% for females. For Police, the Mortality Rates for NYC Active Members of MTA New York City Transit and MTA Bridges and Tunnels Ordinary and Accidental Death (no projection scale is applied to the Accidental Death table).

Post-retirement Healthy Lives: Assumption utilized 95% of Pri-2012 Healthy Annuitant mortality table for males with Blue Collar adjustments and 116% of the rates from the Pri-2012 Healthy Annuitant mortality table for females.

Post-retirement Disabled Lives: Assumption utilized in the January 1, 2024 and 2023 valuation was the Pri-2012 Disabled Annuitant mortality table for males and females. This assumption was not applicable for the LIRR Additional Plan and the MNR Cash Balance Plan.

NYCERS:

Pursuant to Section 96 of the New York City Charter, an independent actuarial firm conducts studies of the actuarial assumptions used to value liabilities of the NYCERS pension plan every two years. In accordance with the ACNY, the Board of Trustees of NYCERS are to periodically review and adopt actuarial assumptions as proposed by the Actuary for use in the determination of Employer Contributions, which are also generally used to determine the total pension liability, as applicable.

Mortality tables for service and disability pensioners were developed from experience studies of the NYCERS Plan. The mortality tables for beneficiaries were developed from an experience review.

The actuarial assumptions used in the June 2024 valuation is based on the most recent actuarial experience study and recommendations prepared by Bolton, Inc. for the four-year and ten-year periods ended June 30, 2017. Based, in part, on this report issued in June 2019, the Actuary proposed and the Board of Trustees of NYCERS adopted changes in actuarial assumptions including a change to Mortality Improvement Scale MP-2020 beginning in Fiscal Year 2019. The actuarial assumptions used in the June 2018 valuation was based on the previous study by Gabriel, Roeder, Smith & Company ('GRS") published in October 2015 for the four-year and ten-year periods ended June 30, 2013. Based, in part, on the GRS Report, the Actuary proposed, and the Boards of Trustees of the NYCERS adopted, new post-retirement mortality tables including the application of Mortality Improvement Scale MP-2015 for use in determining employer contributions beginning in Fiscal Year 2016. Scale MP-2015 replaced Mortality Improvement Scale AA.

NYSLERS:

The actuarial assumptions used in the April 1, 2024 valuation are based on the results of an actuarial experience study completed April 1, 2020. Annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2021. The previous actuarial valuation as of April 1, 2023 used the same assumptions for the measure of total pension liability.

Expected Rate of Return on Investments

The long-term expected rate of return on pension plan investments for each pension plan is presented in the following table.

Pension Plan	Plan Measurement Date	Rate
LIRR Additional Plan	December 31, 2024	6.50%
MaBSTOA Pension Plan	December 31, 2024	6.50%
MNR Cash Balance Plan	December 31, 2024	4.00%
MTA Defined Benefit Pension Plan	December 31, 2024	6.50%
NYCERS	June 30, 2025	7.00%
NYSLERS	March 31, 2025	5.90%

For the LIRR Additional Plan, MaBSTOA Pension Plan, MNR Cash Balance Plan, MTA Defined Benefit Pension Plan, NYCERS plan and NYSLERS plan, the long-term expected rate of return on investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation of each of the funds and the expected real rate of returns ("RROR") for each of the asset classes are summarized in the following tables for each of the pension plans:

	LIRR Additional Plan		MaBSTOA Pension Plan	
Asset Class	**Target Asset Allocation**	**Long - Term Expected Real Rate of Return**	**Target Asset Allocation**	**Long - Term Expected Real Rate of Return**

Discount rate

The discount rate used to measure the total pension liability of each pension plan is presented in the following table:

Year ended December 31,	2025		2024	
Pension Plan	**Measurement Date**	**Rate**	**Measurement Date**	**Rate**
LIRR Additional Plan	December 31, 2024	6.50%	December 31, 2023	6.50%
MaBSTOA Pension Plan	December 31, 2024	6.50%	December 31, 2023	6.50%
MNR Cash Balance Plan	December 31, 2024	4.00%	December 31, 2023	4.00%
MTA Defined Benefit Pension Plan	December 31, 2024	6.50%	December 31, 2023	6.50%
NYCERS	June 30, 2025	7.00%	June 30, 2024	7.00%
NYSLERS	March 31, 2025	5.90%	March 31, 2024	5.90%

The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the rates applicable for each pension plan and that employer contributions will be made at the rates determined by each pension plan's actuary. Based on those assumptions, each pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability – LIRR Additional Plan, MaBSTOA Pension Plan, MNR Cash Balance Plan and the MTA Defined Benefit Pension Plan

Changes in the MTA's net pension liability for the LIRR Additional Plan, MaBSTOA Pension Plan, MNR Cash Balance Plan and the MTA Defined Benefit Pension Plan for the year ended December 31, 2025, based on the December 31, 2024 measurement date, and for the year ended December 31, 2024, based on the December 31, 2023 measurement date, were as follows (in $ thousands):

	LIRR Additional Plan			MaBSTOA Pension Plan		
	Total Pension Liability	**Plan Fiduciary Net Position**	**Net Pension Liability**	**Total Pension Liability**	**Plan Fiduciary Net Position**	**Net Pension Liability**
Balance as of December 31, 2023	$ 1,200,887	$ 711,781	$ 489,106	$ 4,685,055	$ 3,810,475	$ 874,580

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the MTA's net pension liability calculated for the LIRR Additional Plan, MaBSTOA Pension Plan, MNR Cash Balance Plan and the MTA Defined Benefit Pension Plan using the discount rate as of each measurement date, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the actual discount rate used for each measurement date:

Measurement Date:	**December 31, 2024**			**December 31, 2023**		
	1% Decrease (5.5%)	Discount Rate (6.5%)	1% Increase (7.5%)	1% Decrease (5.5%)	Discount Rate (6.5%)	1% Increase (7.5%)
	(in thousands)			(in thousands)		
LIRR Additional Plan	$ 518,085	$ 433,374	$ 359,091	$ 579,748	$ 489,106	$ 409,805
MaBSTOA Pension Plan	1,328,018	776,633	309,745	1,403,484	874,580	426,535
MTA Defined Benefit Pension Plan	2,663,898	1,575,070	660,734	2,758,448	1,723,954	855,028

Measurement Date:	**December 31, 2024**			**December 31, 2023**		
	1% Decrease (3.0%)	Discount Rate (4.0%)	1% Increase (5.0%)	1% Decrease (3.0%)	Discount Rate (4.0%)	1% Increase (5.0%)
	(in whole dollars)			(in whole dollars)		
MNR Cash Balance Plan	$ 17,295	$ 3,125	$ (9,479)	$ 24,680	$ 9,226	$ (4,479)

The MTA's Proportion of Net Pension Liability – NYCERS and NYSLERS

The following table presents the MTA's proportionate share of the net pension liability of NYCERS based on the June 30, 2024 and June 30, 2023 actuarial valuations, rolled forward to June 30, 2025 and June 30, 2024, respectively, and the proportion percentage of the aggregate net pension liability allocated to the MTA:

	NYCERS	
	June 30, 2025	June 30, 2024
	($ in thousands)	
MTA's proportion of the net pension liability	22.750%	21.980%
MTA's proportionate share of the net pension liability	$ 3,022,481	$ 3,615,094

The following table presents the MTA's proportionate share of the net pension liability of NYSLERS based on the April 1, 2024 and April 1, 2023 actuarial valuations, rolled forward to March 31, 2025 and March 31, 2024, respectively, and the proportion percentage of the aggregate net pension liability allocated to the MTA:

	NYSLERS	
	March 31, 2025	March 31, 2024
	($ in thousands)	
MTA's proportion of the net pension liability	0.480%	0.355%
MTA's proportionate share of the net pension liability	$ 82,359	$ 52,271

The MTA's proportion of each respective Plan's net pension liability was based on the MTA's actual required contributions made to NYCERS for the plan's fiscal year-end June 30, 2025 and 2024 and to NYSLERS for the plan's fiscal year-end March 31, 2025 and 2024, relative to the contributions of all employers in each plan.

Sensitivity of the MTA's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the MTA's proportionate share of the net pension liability for NYCERS and NYSLERS calculated using the discount rate as of each measurement date, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the actual discount rate used as of each measurement date ($ in thousands):

Measurement Date:	**June 30, 2025**			**June 30, 2024**		
	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)
NYCERS	$ 5,724,981	$ 3,022,481	$ 744,072	$ 6,138,640	$ 3,615,094	$ 1,483,419

Measurement Date:	**March 31, 2025**			**March 31, 2024**		
	1% Decrease (4.9%)	Discount Rate (5.9%)	1% Increase (6.9%)	1% Decrease (4.9%)	Discount Rate (5.9%)	1% Increase (6.9%)
NYSLERS	$ 238,358	$ 82,359	$ (47,900)	$ 164,345	$ 52,271	$ (41,334)

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the six months ended June 30, 2026 and year ended December 31, 2025, the MTA recognized pension expense related to each pension plan as follows (in $ thousands):

Pension Plan	**June 30, 2026**	**December 31, 2025**
LIRR Additional Plan	$ 40,595	$ 46,690
MaBSTOA Plan	101,218	220,333
MNR Cash Balance plan	0	26
MTA Defined Benefit Plan	241,323	517,843
NYCERS	384,735	464,905
NYSLERS	21,659	22,205
Total	**$ 789,530**	**$ 1,272,002**

DRAFT

Master Page # 89 of 165 - MTA Board Meeting 10/28/2026

For the six-month period ended June 30, 2026 and year ended December 31, 2025, the MTA reported deferred outflow of resources and deferred inflow of resources for each pension plan as follows (in $ thousands):

For the Period Ended June 30, 2026	LIRR Additional Plan		MaBSTOA Plan		MNR Cash Balance Plan		MTA Defined Benefit Plan	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ -	$ 78,475	$ 18,061	$ -	$ -	$ 224,143	$ 334
Changes in assumptions	-	-	46,865	-	-	-	272,079	-
Net difference between projected and actual earnings on pension plan investments	12,808	-	-	42,636	31	-	-	75,042
Changes in proportion and differences between contributions and proportionate share of contributions	-	-	1,824	1,824	-	-	81,270	81,270

Deferred Compensation Program

Description - The Deferred Compensation Program consists of two defined contribution plans that provide benefits based solely on the amount contributed to each participant's account(s), plus or minus any income, expenses and gains/losses. The Deferred Compensation Program is comprised of the Deferred Compensation Plan For Employees of the MTA, its Subsidiaries and Affiliates ("457 Plan") and the Thrift Plan For Employees of the MTA, its Subsidiaries and Affiliates ("401(k) Plan"). Certain MTA Group employees are eligible to participate in both deferred compensation plans. Both Plans are designed to have participant charges, including investment and other fees, cover the costs of administering the Deferred Compensation Program.

Participation in the 401(k) Plan is now available to non-represented employees and, after collective bargaining, most represented employees. All amounts of compensation deferred under the 401(k) Plan, and all income attributable to such compensation, less expenses and fees, are held in trust for the exclusive benefit of the participants and their beneficiaries. Accordingly, the 401(k) Plan is not reflected in the accompanying consolidated statements of net position.

The Deferred Compensation Program is administered and may be amended by the Deferred Compensation Committee.

As the Deferred Compensation Program's asset base and contribution flow increased, participants' investment options were expanded by the Deferred Compensation Committee with the advice of its Financial Advisor to provide greater diversification and flexibility. In 1988, after receiving an IRS determination letter for the 401(k) Plan, the MTA offered its managers the choice of either participating in the 457 Plan or the 401(k) Plan. By 1993, the MTA offered eight investment funds: a Guaranteed Interest Account Fund, a Money Market Fund, a Common Stock Fund, a Managed Fund, a Stock Index Fund, a Government Income Fund, an International Fund and a Growth Fund.

In 1998, the Deferred Compensation Committee approved the unbundling of the Plans. In 2008, the Plans' investment choices were restructured to set up a four-tier strategy:

- Tier 1 – The MTA Asset Allocation Programs offer two options, for those participants who would like to make retirement investing easy, offers a suite of custom target retirement year funds. The MTA Target Year Funds are automatically diversified among a range of investment options and are automatically rebalanced quarterly to a more conservative investment allocation.
- Tier 2 – The MTA Index Funds offer a tier of index funds, which invest in the securities of companies that are included in a selected index, such as the Standard & Poor's 500 (large cap) Index or Barclays Capital U.S. Aggregate (bond) index. The typical objective of an index fund is to achieve approximately the same return as that specific market index. Index funds provide investors with lower-cost investments because they are less expensive to administer than actively managed funds.
- Tier 3 – The MTA Actively Managed Portfolios, which are comprised of actively managed portfolios that are directed by one or a team of professional managers who buy and sell a variety of holdings in an effort to outperform selected indices. The funds provide a diversified array of distinct asset classes, with a single option in each class. They combine the value and growth disciplines to create a "core" portfolio for the mid-cap and international categories.
- Tier 4 – The Self-Directed Mutual Fund Option is designed for the more experienced investors. The fund offers access to an expanded universe of mutual funds from hundreds of well-known mutual fund families. Participants may invest only a portion of their account balances in this Tier.

In 2011, the Deferred Compensation Program began offering Roth contributions. Employees can elect after-tax Roth contributions and before-tax contributions in both the 401(k) Plan and the 457 Plan. The total combination of Roth after-tax contributions and regular before-tax contributions cannot exceed the IRS maximum of $23,000 dollars or $30,500 dollars for those over age 50 for the year ended December 31, 2024, in each Plan. The total combination of Roth after-tax contributions and regular before-tax contributions cannot exceed the IRS maximum of $23,500 dollars if you are under age 50, $31,000 if you are age 50-59 or over age 63, and $34,750 if you are age 60-63 at any time during the calendar year for the year ended December 31, 2025, in each Plan.

The two Plans offer the same array of investment options to participants. Eligible participants in the Deferred Compensation Program include employees (and former employees) of:

- MTA
- MTA Long Island Rail Road
- MTA Bridges and Tunnels
- MTA Long Island Bus
- MTA Metro-North Railroad
- MTA New York City Transit
- MTA Staten Island Rapid Transit
- MTA Construction and Development
- MTA Bus

Employer Contributions - MTA Bus on behalf of certain MTA Bus employees, MTA Metro-North Railroad on behalf of certain MTA Metro-North employees who opted-out of participation in the MTA Defined Benefit Pension Plan, and MTA on behalf of certain represented MTA Business Service Center, Procurement, and IT employees and on behalf of certain MTA Police Officers, make contributions to the 401(k) Plan. The rate for the employer contribution varies.

MTA Bus – Effective in 2019, there are no employees receiving these employer contributions. Prior to 2019, certain members who were employed by Queens Surface Corporation on February 26, 2005, and who became employees of MTA Bus on February 27, 2005, receive a matching contribution equal to 50% of member's before-tax contributions provided that the maximum matching contribution shall not exceed 3% of the member's base pay. MTA Bus also makes a basic contribution equal to 2% of the member's compensation. These contributions vest as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

MTA Metro-North Railroad – MTA Metro-North Railroad employees represented by certain unions and who elected to opt-out of participation in the MTA Defined Benefit Pension Plan receive an annual employer contribution equal to 4% of the member's compensation. Effective on the first full pay period following the nineteenth anniversary date of an eligible MNR member's continuous employment, MTA Metro-North Railroad contributes an amount equal to 7% of the member's compensation. Eligible MTA Metro-North Railroad members vest in these employer contributions as set forth below:

Years of Service	Vested Percentage
Less than 5	0%
5 or more	100%

MTAHQ - Police – For each plan year, the MTA shall make contributions to the account of each eligible MTA Police Benevolent Association member in the amounts required by the collective bargaining agreement ("CBA") and subject to the contribution limits set forth in the CBA. These contributions shall be made monthly and shall be considered MTA Police contributions. Members are immediately 100% vested in these employer contributions.

MTAHQ - Commanding Officers – In addition, for each plan year, the MTA shall make contributions to the account of each eligible MTA Police Department Commanding Officers Benevolent Association member in the amounts required by the CBA and subject to the contribution limits set forth in the CBA. These contributions shall be made monthly and shall be considered MTA Police contributions. These members are immediately 100% vested in these employer contributions.

MTAHQ - Business Services – Effective January 1, 2011, all newly hired MTA Business Services Center and IT employees represented by the TCU are eligible to receive a matching contribution. Effective January 1, 2017, all newly hired MTA employees in the procurement department represented by the TCU are eligible to receive a matching contribution. The matching contribution for these eligible employees is currently equal to 100% of the first 5% of compensation deferred on a pre-tax basis. A participant's right to the balance in his or her matching contributions account shall vest upon the first of the following to occur:

i. Completing 5 years of service,

ii. Attaining the Normal Retirement Age of 62 while in continuous employment, or

iii. Death while in continuous employment.

Additional Deposits (Incoming Rollover or Transfers) – Participants in the Deferred Compensation Program are eligible to roll over both their before-tax and Roth assets from other eligible retirement plans into the 401(k) and 457 Plans. Under certain conditions, both Plans accept rollovers from all eligible retirement plans (as defined by the Code), including 401(a), 457, 401(k), 403(b), and rollover IRAs.

Forfeitures – Non-vested contributions balances are forfeited upon termination of employment. Such forfeitures are used to cover a portion of the pension plan's administrative expenses.

	2025	2024
	(In thousands)	
Employer 401K contributions	$ 3,825	$ 3,894

6. OTHER POSTEMPLOYMENT BENEFITS

The MTA participates in a defined benefit other postemployment benefits ("OPEB") plan for its employees, the Metropolitan Transportation Authority Retiree Welfare Benefits Plan ("OPEB Plan"). A description of the Plan follows:

(1) Plan Description

The OPEB Plan and the related Trust Fund ("Trust") was established on January 1, 2009 for the exclusive benefit of MTA retired employees and their eligible spouses and dependents, to fund some of the OPEB provided in accordance with the MTA's various collective bargaining agreements. Postemployment benefits are part of an exchange of salaries and benefits

for employee services rendered. Amounts contributed to the OPEB Plan are held in an irrevocable trust and may not be used for any other purpose than to fund the costs of health and welfare benefits of its eligible participants.

The OPEB Plan and the Trust are exempt from federal income taxation under Section 115(1) of the Internal Revenue Code. The OPEB Plan is classified as a single-employer plan.

The OPEB Plan Board of Managers, composed of the MTA Chairman, MTA Chief Financial Officer and MTA Director of Labor Relations, are the administrators of the OPEB Plan. The MTA Board has the right to amend, suspend or terminate the OPEB Plan. The OPEB Plan is a fiduciary component unit of the MTA and is in the Pension and Other Employee Benefit Trust Funds section of the MTA's basic financial statements.

The separate annual financial statements of the OPEB Plan may be obtained by writing to the MTA Deputy Chief, Controller's Office, 2 Broadway, 15th Floor, New York, NY 10004 or at www.mta.info.

Benefits Provided — The benefits provided by the OPEB Plan include medical, pharmacy, dental, vision, life insurance and a Medicare supplemental plan. The different types of benefits provided vary by agency, employee type (represented employees versus non-represented) and the relevant collective bargaining agreements. Pension benefits are provided upon retirement as defined in the applicable pension plan. Certain agencies provide benefits to certain former employees if separated from service within 5 years of attaining retirement eligibility. Employees of the MTA are members of the following pension plans: the MTA Defined Benefit Pension Plan, the LIRR Additional Plan, the MNR Cash Balance Plan, the MaBSTOA Pension Plan, NYCERS, and NYSLERS. Certain represented employees of MTA Metro-North Railroad participate in the 401(k) Plan. Eligible employees of the MTA may elect to join the New York State Voluntary Defined Contribution Plan ("VDC").

The MTA participates in the New York State Health Insurance Program ("NYSHIP") and provides medical and prescription drug benefits, including Medicare Part B reimbursements, to many of its retirees. NYSHIP offers a Preferred Provider Organization ("PPO") plan and several Health Maintenance Organization ("HMO") plans. Represented MTA New York City Transit employees, other MTA New York City Transit former employees who retired prior to January 1, 1996 or January 1, 2001, MTA Staten Island Railway represented employees as of March 1, 2010, June 1, 2010 or January 1, 2013 depending on the union and MTA Bus retirees do not participate in NYSHIP. These benefits are provided either through a self-insured health plan, a fully insured health plan or an HMO.

The NYSHIP financial report can be obtained by writing to the NYS Department of Civil Service, Employee Benefits Division, Alfred E. Smith Office Building, 805 Swan Street, Albany, NY 12239.

OPEB Plan Eligibility — To qualify for benefits under the OPEB Plan, a former employee of the MTA must:

i. have retired;

ii. be receiving a pension (except in the case of the 401(k) Plan and the VDC);

iii. have at least 10 years of credited service as a member of NYCERS, NYSLERS, the MTA Defined Benefit Pension Plan, the LIRR Additional Plan, the MaBSTOA Pension Plan, the MNR Cash Balance Plan, the 401(k) Plan or the VDC; and

iv. have attained the minimum age requirement (unless within 5 years of commencing retirement for certain members). A represented retired employee may be eligible only pursuant to the relevant collective bargaining agreement.

Surviving Spouse and Other Dependents —

- Lifetime coverage is provided to the surviving spouse (not remarried) or domestic partner and surviving dependent children to age 26 of retired managers and certain non-represented retired employees.
- Represented retired employees must follow the guidelines of their collective bargaining agreements regarding continued health coverage for a surviving spouse or domestic partner and surviving dependents. The surviving spouse coverage continues until spouse is eligible for Medicare for represented employees of MTA New York City Transit and MTA Staten Island Railway, retiring on or after:
  - May 21, 2014 for TWU Local 100;
  - September 24, 2014 for Amalgamated Transit Union ("ATU") Local 726;
  - October 29, 2014 for ATU Local 1056;
  - March 25, 2015 for TCU; and
  - December 16, 2015 for United Transportation Union ("UTU") and American Train Dispatchers Association ("ATDA").
- Lifetime coverage is provided to the surviving spouse (not remarried) or domestic partner and surviving dependents of retired uniform members of the MTA Police Department.

- Lifetime coverage is provided to the surviving spouse (not remarried) or domestic partner and surviving dependent children to age 26 of uniformed members of the MTA Police Department whose death was sustained while in performance of duty.

The OPEB Plan Board of Managers has the authority to establish and amend the benefits that will be covered under the OPEB Plan, except to the extent that they have been established by collective bargaining agreement.

Employees Covered by Benefit Terms — As of July 1, 2023 and July 1, 2021, the date of the most recent actuarial valuation, the following classes of employees were covered by the benefit terms:

	Number of Participants	
	July 1, 2023	**July 1, 2021**
Active plan members	71,454	68,672
Inactive plan members currently receiving benefit payments	50,932	48,888
Inactive plan members entitled to but not yet receiving benefit payments	41	131
Total	122,427	117,691

Contributions — The MTA is not required by law or contractual agreement to provide funding for the OPEB Plan, other than the "pay-as-you-go" ("PAYGO") amounts. PAYGO is the cost of benefits necessary to provide the current benefits to retirees and eligible beneficiaries and dependents. Employees are not required to contribute to the OPEB Plan. The OPEB Plan Board has the authority for establishing and amending the funding policy. For the years ended December 31, 2025 and 2024, the MTA paid $942 and $944 of PAYGO to the OPEB Plan, respectively. The PAYGO amounts include an implicit rate subsidy adjustment of $64 and $67 for the years ended December 31, 2025 and 2024, respectively.

The discount rate estimates investment earnings for assets earmarked to cover retiree health benefits. Under GASB 75, the discount rate depends on the nature of underlying assets for funded plans. Since the amount of benefits paid in 2020 exceeded the current fair value of the assets, a depletion date is assumed to occur immediately. Therefore, the discount rate is set equal to the municipal bond index. The MTA elected the Bond Buyer General Obligation 20-Bond Municipal Bond Index. As a result, the discount rates as of December 31, 2024 and December 31, 2023, the measurement dates, are 4.08% and 3.26%, respectively.

Employer contributions include the implicit subsidy, or age-related subsidy inherent in the healthcare premiums structure. The implicit subsidy arises when an employer allows a retiree and their dependents to continue on the active plans and pay the active premiums. Retirees are not paying the true cost of their benefits because they have higher utilization rates than actives and therefore, are partially subsidized by the active employees. As shown in the following table, for the years ended December 31, 2024 and 2023, the employer made a cash payment for retiree healthcare of $66,606 and $62,445, respectively, as part of the employer's payment for active-employee healthcare benefits. For purposes of GASB 75, this payment made on behalf of the active employees should be reclassified as benefit payments for retiree health care to reflect the retirees' underlying age-adjusted, retiree benefit costs.

Blended and Age-adjusted Premium (in thousands)	**2024 Retirees**	**2023 Retirees**
Total blended premiums	$ 877,690	$ 819,815
Employment payment for retiree healthcare	66,606	62,445
Net Payments	$ 944,296	$ 882,260

(2) Actuarial Assumptions

Actuarial valuation involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future, such as future employment, mortality and health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan, which refers to the plan terms as understood by the employer and the plan members at the time of the valuation, including only changes to plan terms that have been made and communicated to employees. The projections include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members at that time. The MTA may not be obligated to provide the same types or levels of benefits to retirees in the future.

The total OPEB liability was determined by an actuarial valuation performed on July 1, 2023. Update procedures were used to roll forward the total OPEB liability to the measurement dates of December 31, 2024, and December 31, 2023.

The actuarial valuations were performed using the following actuarial assumptions, applied to all periods included in the measurement, unless specified:

Valuation date	July 1, 2023	July 1, 2023
Measurement date	December 31, 2024	December 31, 2023
Discount rate	4.08%, net of expenses	3.26%, net of expenses
Inflation	2.30%	2.31%
Actuarial cost method	Entry Age Normal	Entry Age Normal
Amortization method	Level percentage of payroll	Level percentage of payroll
Normal cost increase factor	4.25%	4.25%
Salary increases	Varies by years of service and differs for members of the various pension plans	Varies by years of service and differs for members of the various pension plans
Investment rate of return	4.25%	4.25%

Healthcare Cost Trend — The Society of Actuaries developed and regularly updates a long-term medical trend model based on detailed research performed by a committee of economists and actuaries, which included a representative from Milliman. Milliman uses this model as the foundation for the trend that it recommends to our clients for postretirement healthcare valuations, with certain adjustments designed to produce trends that are appropriate for employer plans. These adjustments include incorporating assumed administrative cost trends where applicable and removing the impact of age-related morbidity (since age-related morbidity assumptions are applied separately in the valuation when applicable). Trend rates also reflect the expected impact of short-term inflation.

Healthcare Cost Trend Rates — Trend rates were developed separately for NYSHIP benefits and self-insured plans administered by MTA New York City Transit ("Union Health Plans"). The following lists illustrative rates for the NYSHIP benefits and associated Medicare Part B reimbursements, as well as for dental and vision benefits (all amounts are in percentages).

	NYSHIP Trend		TBTA No Rx Trend		Medicare	Dental/Vision
Fiscal Year	< 65	> = 65	< 65	> = 65	Part B Trend	Trend
2023	9.50%	22.90%	6.60%	19.80%	5.90%	4.00%
2024	0.80%	0.90%	3.60%	3.70%	5.90%	4.00%
2025	6.30%	6.60%	5.40%	5.00%	1.00%	4.00%
2026	5.70%	6.00%	5.30%	5.10%	11.00%	4.00%
2027	5.20%	5.40%	5.10%	5.10%	4.80%	4.00%
2028	5.10%	5.30%	5.00%	5.00%	7.10%	4.00%
2029	4.90%	5.10%	4.80%	4.90%	5.80%	4.00%
2030	4.80%	4.90%	4.70%	4.70%	6.30%	4.00%
2031	4.60%	4.70%	4.60%	4.60%	7.00%	4.00%
2032	4.50%	4.50%	4.50%	4.50%	7.00%	4.00%
2033	4.30%	4.30%	4.30%	4.30%	5.90%	4.00%
2034 - 2039	4.10%	4.10%	4.10%	4.10%	5.90%	4.00%
2040 - 2048	4.10%	4.10%	4.10%	4.10%	4.40%	4.00%
2049	4.10%	4.20%	4.10%	4.20%	4.40%	4.00%
2050	4.10%	4.20%	4.10%	4.20%	3.90%	4.00%
2051 - 2064	4.20%	4.20%	4.20%	4.20%	3.90%	4.00%
2065 - 2066	4.10%	4.10%	4.10%	4.10%	3.90%	4.00%
2067 - 2068	4.00%	4.00%	4.00%	4.00%	3.90%	4.00%
2069	3.90%	3.90%	3.90%	3.90%	3.90%	4.00%
2070	3.90%	3.90%	3.90%	3.90%	3.80%	3.90%
2071	3.80%	3.80%	3.80%	3.80%	3.80%	3.90%
2072 - 2073	3.80%	3.80%	3.80%	3.80%	3.80%	3.80%
2074 - 2079	3.70%	3.70%	3.70%	3.70%	3.80%	3.70%
2080 - 2089	3.70%	3.70%	3.70%	3.70%	3.90%	3.70%
2090+	3.70%	3.70%	3.70%	3.70%	3.70%	3.70%

The trends for the Union Health Plans for post-65 retirees were developed separately for medical and Rx benefits by plan type using a weighted average of actual medical and prescription drug cost experience by plan and the Aetna Medicare Advantage and EGWP premium rates. These trends apply to the benefit plans for applicable represented employees of MTA New York City Transit, MTA Staten Island Railway and MTA Bus. For TWU Local 100 members of MTA New York City Transit and MTA Bus, the post-65 trends reflect the Medicare Advantage and EGWP Option 1 and Option 2 plans only.

The following table provides the healthcare trend assumptions for the Union Health Plans. The trends shown above for Medicare Part B reimbursements and dental and vision benefits also apply to members receiving the Union Health Plans, if applicable (all amounts are in percentages).

	Union Health Plans Medical Trend			Union Health Plans Rx Trend		
Fiscal Year	< 65	> = 65	TWU MA Trend	< 65	> = 65	TWU MA Trend
2023	7.20%	5.50%	-14.40%	5.80%	6.70%	6.40%
2024	5.70%	5.50%	26.80%	12.30%	5.10%	0.00%
2025	5.50%	5.30%	13.40%	9.00%	7.70%	7.30%
2026	5.40%	5.20%	9.30%	7.40%	6.70%	6.50%
2027	5.20%	5.10%	5.10%	5.70%	5.70%	5.60%
2028	5.00%	5.00%	5.00%	5.50%	5.40%	5.40%
2029	4.90%	4.80%	4.90%	5.30%	5.20%	5.20%
2030	4.80%	4.70%	4.70%	5.00%	5.00%	5.00%
2031	4.60%	4.60%	4.60%	4.80%	4.80%	4.80%

2033	4.40%	4.30%	4.30%	4.40%	4.40%	4.40%
2034	4.20%	4.10%	4.10%	4.20%	4.20%	4.20%
2035 - 2046	4.20%	4.10%	4.10%	4.20%	4.20%	4.10%
2047 - 2049	4.20%	4.10%	4.10%	4.20%	4.20%	4.20%
2050	4.20%	4.10%	4.20%	4.20%	4.20%	4.20%
2051 - 2064	4.20%	4.20%	4.20%	4.20%	4.20%	4.20%
2065	4.10%	4.10%	4.10%	4.20%	4.10%	4.10%
2066	4.10%	4.10%	4.10%	4.10%	4.10%	4.10%
2067	4.00%	4.00%	4.00%	4.10%	4.00%	4.00%
2068	4.00%	4.00%	4.00%	4.00%	4.00%	4.00%
2069	4.00%	3.90%	3.90%	4.00%	3.90%	3.90%
2070	3.90%	3.90%	3.90%	3.90%	3.90%	3.90%
2071	3.90%	3.80%	3.80%	3.90%	3.90%	3.80%
2072 - 2073	3.80%	3.80%	3.80%	3.80%	3.80%	3.80%
2074+	3.70%	3.70%	3.70%	3.70%	3.70%	3.70%

For purposes of applying the Entry Age Normal cost method, the healthcare trend prior to the valuation date is based on the ultimate rates, which are 3.7% for NYSHIP costs, 3.7% for self-insured medical and pharmacy costs, and 3.7% for Medicare Part B costs.

Mortality — All mortality rates (except accidental death for active police members) are projected on a generational basis using the Society of Actuaries Mortality Improvement Scale MP-2021. As generational tables, they reflect mortality improvement both before and after the measurement date. The post-retirement mortality assumption is based on an experience analysis covering the period from January 1, 2015 to December 31, 2020 for the MTA-sponsored pension plans. The mortality rates vary by employee type:

- Headquarters Non-Police Members: PubG.H-2010 Mortality Table, headcount weighted for general employees for males and females with separate rates for employees, healthy annuitants and disabled annuitants.
- Headquarters Police Members: Rates from the June 30, 2021 (Lag) Actuarial Valuation for NYCERS dated October 2, 2023 as follows: Service Retirees for Housing Police and Transit Police (Table XII-5), Disabled Retirees for Housing Police and Transit Police (Table XII-6) and Active Members for MTA New York City Transit and MTA Bridges and Tunnels Ordinary Death and Accidental Death (Table XII-4). No adjustments were made to convert

from lives-weighted to amounts-weighted. Base year is 2012 for mortality improvement purposes.

- Rail Members (Long Island Bus, MTA Long Island Rail Road, MTA Metro-North Railroad, and MTA Staten Island Railway: Pri.H-2012(BC) Mortality Table, headcount weighted with blue collar adjustments for males and females with separate rates for employees, healthy annuitants and disabled annuitants. Employee and healthy annuitant male rates are multiplied by 97%.
- Transit Members (MTA Bridges and Tunnels, MTA Bus, and MTA New York City Transit): Pri.H-2012(BC) Mortality Table, headcount weighted with blue collar adjustments for males and females with separate rates for employees, healthy annuitants and disabled annuitants. Employee and healthy annuitant male rates are multiplied by 92%.

(3) Net OPEB Liability

At December 31, 2025 and 2024, the MTA reported a net OPEB liability of $19,575 and $20,229, respectively. The MTA's net OPEB liability was measured as of December 31, 2024 and December 31, 2023, respectively. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation date of July 1, 2023 and July 1, 2021 and rolled forward to December 31, 2023 and December 31, 2022, respectively.

OPEB Plan Fiduciary Net Position — The fiduciary net position has been determined on the same basis used by the OPEB plan. The OPEB plan uses the accrual basis of accounting under which contributions from the employer are recognized when paid. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Investments are reported at fair value based on quoted market prices or Net Asset Value. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued financial report or at www.mta.info.

Expected Rate of Return on Investments — The best-estimate range for the long-term expected rate of return was determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of December 31, 2024.

Asset Class	Index	Target Allocation	Long-Term Expected Arithmetic Real Rate of Return
US Cash	BAML 3-Mon Tbill	1.50%	0.94%
US Short (1-3 Yr) Govt/Credit Bonds	Bloomberg US Govt/Credit 1-3 Yr TR	98.50%	1.98%
Assumed Inflation - Mean			2.30%
Assumed Inflation - Standard Deviation			1.46%
Portfolio Nominal Mean return			4.27%
Portfolio Standard Deviation			2.68%
Long Term Expected Rate of Return selected by MTA			**4.25%**

Discount Rate — The discount rate used in this valuation to measure the total OPEB liability was updated to incorporate GASB 75 guidance.

The plan's fiduciary net position was not projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total OPEB liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payments, to the extent that the plan's fiduciary net position is not projected to be sufficient. Therefore, the discount rate is set equal to the Bond Buyer General Obligation 20-Bond Municipal Bond Index as of December 31, 2024 of 4.08% and as of December 31, 2023 of 3.26%.

Changes in Net OPEB Liability — Changes in the MTA's net OPEB liability for the year ended December 31, 2025 based on the December 31, 2024 measurement date, and for the year ended December 31, 2024, based on the December 31, 2023 measurement date, were as follows ($ in thousands):

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance as of December 31, 2023	$ 21,603,051	$ 1,373,905	$ 20,229,146
Changes for the year:			
Service Cost	1,016,084	-	1,016,084
Interest on total OPEB liability	722,115	-	722,115
Effect of plan changes	291,217	-	291,217
Effect of economic/demographic gains or losses	51,425	-	51,425
Effect of assumptions changes or inputs	(1,732,215)	-	(1,732,215)
Benefit payments	(944,296)	(944,296)	-
Employer contributions	-	944,296	(944,296)
Net investment income	-	58,822	(58,822)
Administrative expenses	-	(145)	145
Net changes	(595,670)	58,677	(654,347)
Balance as of December 31, 2024	$ 21,007,381	$ 1,432,582	$ 19,574,799

	Total OPEB Liability	Plan Fiduciary Net Position	Net OPEB Liability
Balance as of December 31, 2022	$ 22,446,401	$ 11,736	$ 22,434,665
Changes for the year:			
Service Cost	991,091	-	991,091
Interest on total OPEB liability	855,614	-	855,614
Effect of plan changes	74,166	-	74,166
Effect of economic/demographic gains or losses	(3,036,310)	-	(3,036,310)
Effect of assumptions changes or inputs	1,154,349	-	1,154,349
Benefit payments	(882,260)	(882,260)	-
Employer contributions	-	2,201,541	(2,201,541)
Net investment income	-	43,031	(43,031)
Administrative expenses	-	(143)	143
Net changes	(843,350)	1,362,169	(2,205,519)
Balance as of December 31, 2023	$ 21,603,051	$ 1,373,905	$ 20,229,146

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate — The following presents the net OPEB liability of the MTA, calculated using the discount rate as of each measurement date, as well as what the MTA's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the actual discount rate used for the measurement date:

Measurement Date:	**December 31, 2024**		
	1% Decrease 3.08%	**Discount Rate 4.08%**	**1% Increase 5.08%**
Net OPEB liability	$22,313,162	$19,574,799	$17,297,202

Measurement Date:	**December 31, 2023**		
	1% Decrease (2.26%)	**Discount Rate (3.26%)**	**1% Increase (4.26%)**
Net OPEB liability	$23,153,304	$20,229,146	$17,810,727

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates — The following presents the net OPEB liability of the MTA, calculated using the healthcare cost trend rates as of each measurement date, as well as what the MTA's net OPEB liability would be if it were calculated using trend rates that are 1-percentage point lower or 1-percentage point higher than the actual healthcare trend rate used for the measurement date:

Measurement Date:	December 31, 2024		
	1% Decrease	Healthcare Cost Current Trend Rate*	1% Increase
Net OPEB liability	$16,674,836	$19,574,799	$23,200,656

Measurement Date:	December 31, 2023		
	1% Decrease	Healthcare Cost Current Trend Rate*	1% Increase
Net OPEB liability	$17,310,279	$20,229,146	$23,893,435

*For further details, refer to the Health Care Cost Trend Rates tables in the Actuarial Assumptions section of this Note Disclosure

(4) OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the years ended December 31, 2025 and 2024, the MTA recognized OPEB expenses of $1.13 billion and $1.32 billion, respectively.

At December 31 2025 and 2024, the MTA reported deferred outflows of resources and deferred inflows of resources related to OPEB as follows ($ in thousands):

	June 30, 2026		December 31, 2025	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 256,138	$ 2,275,615	$ 256,138	$ 2,275,615
Changes of assumptions	1,681,354	4,045,230	1,681,354	4,045,230
Net difference between projected and actual earnings on OPEB plan investments	-	9,223	-	9,223
Changes in proportion and differences between contributions and proportionate share of contributions	2,242,054	2,242,054	2,242,054	2,242,054
Employer contributions to the plan subsequent to the measurement of net OPEB liability	1,942,439	-	942,439	-
Total	**$ 6,121,985**	**$ 8,572,122**	**$ 5,121,985**	**$ 8,572,122**

The annual differences between the projected and actual earnings on investments are amortized over a 5-year closed period beginning the year in which the difference occurs. The annual differences between expected and actual experience and changes in assumptions are amortized over a 7.8-year closed period, beginning the year in which the deferred amount occurs.

For the years ended December 31, 2025 and 2024, $942.4 and $944.3 were reported as employer contributions subsequent to measurement date. The current year contributions included MTA's contributions subsequent to the measurement date and an implicit rate subsidy adjustment that will be recognized as a reduction of the net OPEB liability in the year ending December 31, 2026 and December 31, 2025, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB at December 31, 2025 will be recognized in OPEB expense as follows:

Year ending December 31:		
	2026	$ (766,654)
	2027	(668,301)
	2028	(728,064)
	2029	(920,703)
	2030	(727,958)
	Thereafter	(580,896)
		$ (4,392,576)

MTA and its affiliate, MTA Bridges and Tunnels, issue bonds and notes to finance capital projects in approved transit and commuter capital programs and to refund outstanding indebtedness. Proceeds from the following bonds may be used to finance transit and commuter projects: MTA Transportation Revenue Bonds (”TRB”), MTA Dedicated Tax Fund Bonds (‘DTF”), MTA and MTA Bridges and Tunnels’ Senior Payroll Mobility Tax Bonds, Real Estate Transfer Tax Revenue Bonds (“MTA Bridges and Tunnels Capital Lockbox Fund”), and MTA Bridges and Tunnels Sales Tax Revenue Bonds (MTA Bridges and Tunnels” Capital Lockbox – City Sales Tax), each secured by specified revenue sources as explained below. Projects may also be financed with bond anticipation notes (“BANs”) and loans issued as interim financing in anticipation of permanent bonds.

The New York State Legislature limits the total debt MTA and MTA Bridges and Tunnels can issue for approved transit and commuter capital programs. The current ceiling, $115,500 compares with outstanding issuances of approximately $50,537 as of June 30, 2026. MTA expects that this limit will suffice to meet the bonding needs of the approved capital programs.

MTA Bridges and Tunnels also issues bonds and notes to finance capital projects relating to its bridge and tunnel facilities and to refund outstanding indebtedness. Such bridge and tunnel facility projects are financed with proceeds of its General Revenue Bonds and Subordinated Revenue Bonds secured by net bridge and tunnel tolling revenues, as well as related BANs. General Revenue Bonds and Subordinated Revenue Bonds may also be used to finance approved transit and commuter capital programs.

Under applicable state law, MTA and MTA Bridges and Tunnels bonds may have maximum maturities of up to 50 years, and related BANs must be refunded with long-term bonds within five years of their initial issuance.

MTA and MTA Bridges and Tunnels periodically issue refunding bonds to achieve debt service savings or other benefits. Proceeds are typically invested in U.S. Treasury obligations held in irrevocable trusts, whose principal and interest repay the refunded debt. Both the trust assets and the refunded debt are excluded from the consolidated statements of net position.

In addition to the bonds and BANs described above, MTA and MTA Bridges and Tunnels periodically issue other obligations for specific purposes, detailed below.

MTA Transportation Revenue Bonds - are secured under MTA’s General Resolution Authorizing Transportation Revenue Obligations adopted on March 26, 2002. The TRB are MTA’s special obligations payable solely from transit and commuter systems revenues, surplus toll revenues and certain state and local operating subsidies. As of June 30, 2026, no Transportation Revenue Bonds have been issued in 2026.

On March 10, 2026, MTA redeemed $52.315 Transportation Revenue Variable Rate Refunding Bonds, Series 2020B.

On March 17, 2026, MTA defeased $15.365 TRB, Series 2012H; $8.155 Transportation Revenue Refunding Bonds, Subseries 2015D-1; and $343.245 Transportation Revenue Green Bonds, Subseries 2016A-1.

On April 1, 2026, MTA effected a mandatory tender and repaid $50 of Transportation Revenue Variable Rate Bonds (Secured Overnight Financing Tender Notes(), Subseries 2012A-3.

On April 1, 2026, MTA effected a mandatory tender and repaid $50 of Transportation Revenue Variable Rate Refunding Bonds, (Secured Overnight Financing Rate Tender Notes), Subseries 2002D-2a-2. The underlying swap in notional amount of $50 was re-allocated to Transportation Revenue Variable Rate Bonds, Subseries 2015E-1.

On May 13, 2026, Fitch upgraded the ratings on Barclays Bank PLC and U.S. Bank National Association to F1+ from F1, resulting in an upgrade of the short-term rating for certain TRB variable-rate bonds.

MTA Transportation Revenue Bond Anticipation Notes — From time to time, MTA issues BANs in accordance with the terms and provisions of the General Resolution described above to fund its transit and commuter capital needs. The interest rate payable on the notes depends on the maturity and market conditions at the time of issuance. The MTA Act requires MTA to refund its bond anticipation notes with bonds no later than five years from the issuance of the notes. As of June 30, 2026, MTA has not issued any Transportation Revenue BANs in 2026.

MTA Transportation Revenue Subordinated Contract Obligations — are secured under the Transportation Resolution. On May 4, 2023, MTA incurred a Subordinated Contract Obligation of $160.628 in connection with a public-private partnership project that will provide accessibility upgrades at certain MTA New York City Transit subway stations. MTA has not incurred any Subordinated Contract Obligations in 2026.

MTA Revenue Anticipation Notes — are secured by a lien on Operating Subsidies (as defined in the Transportation Resolution) prior to the lien in favor of the owners of TRBs, Subordinated Contract Obligations, and Subordinated Indebtedness issued under the Transportation Resolution. The maturity on such Revenue Anticipation Notes ("RANs") may not exceed 18 months. While such notes can be rolled over, the final maturity cannot exceed five years from the date of their original issuance. From time to time, MTA enters into Revolving Credit Agreements pursuant to the Transportation RAN Resolution. Draws under such agreements are evidenced by RANs.

As of June 30, 2026, MTA maintains taxable revolving credit agreements of $400 with JP Morgan Chase Bank, N.A., expiring April 27, 2029, $200 with Bank of America, N.A., expiring July 30, 2027, $200 with the Bank of New York Mellon, expiring April 26, 2029 and $500 with Wells Fargo Bank, N.A., expiring April 9, 2029.

MTA Dedicated Tax Fund Bonds — are secured under MTA's Dedicated Tax Fund Obligation Resolution adopted on March 26, 2002. The DTF are MTA's special obligations payable solely from monies held in the Pledged Amounts Account of the MTA Dedicated Tax Fund. As of June 30, 2026, no Dedicated Tax Fund Bonds have been issued.

2 Broadway CoP Swap Payments — The Certificates of Participation have been paid off in 2016 and are no longer outstanding. The associated interest rate swap is scheduled to mature in 2030.

MTA Bridges and Tunnels General Revenue Bonds — are secured under MTA Bridges and Tunnels' General Resolution Authorizing General Revenue Obligations adopted on March 26, 2002. The General Revenue Bonds are MTA Bridges and Tunnels' general obligations payable generally from the net revenues collected on the bridges and tunnels operated by MTA Bridges and Tunnels. As of June 30, 2026, no MTA Bridges and Tunnels General Revenue Bonds have been issued in 2026.

On January 15, 2026, MTA effected a mandatory tender of the Subseries 2005B-2a and 2005B-2b Bonds. These bonds were consolidated and remarketed as $172.7 million TBTA General Revenue Variable Rate Refunding Bonds, Subseries 2005B-2. The prior letters of credit from State Street Bank and Trust Company that supported the previous Subseries of bonds were replaced with a letter of credit from Bank of America, N.A, which is set to expire on January 12, 2029.

On May 13, 2026, Fitch upgraded the ratings on Barclays Bank PLC and U.S. Bank National Association to F1+ from F1, resulting in an upgrade of the short-term rating for certain MTA Bridges and Tunnels variable-rate bonds.

On May 28, 2026, MTA Bridges and Tunnels issued $895.550 General Revenue Bonds, Series 2026A, consisting of General Revenue Bonds, Subseries 2026A-1 and General Revenue Refunding Bonds, Subseries 2026A-2. The proceeds of the Subseries 2026A-1 Bonds were used to (i) finance bridge and tunnel projects included in the MTA Bridges and Tunnels' approved capital programs, and (ii) pay certain financing, legal, and miscellaneous expenses associated with the Subseries 2026A-1 Bonds. The proceeds of the Subseries 2026A-2 Bonds were used to (i) refund certain outstanding General Revenue Bonds of MTA Bridges and Tunnels, including bonds issued as Build America Bonds and (ii) pay certain financing, legal, and miscellaneous expenses associated with the Subseries 2026A-2 Bonds.

On May 28, 2026, MTA Bridges and Tunnels redeemed $295.905 MTA Bridges and Tunnels General Revenue Bonds, Series 2016A, and defeased $21.82 MTA Bridges and Tunnels General Revenue Bonds, Series 2016A, and $23.155 MTA Bridges and Tunnels General Revenue Bonds, Series 2015A. On June 29, 2026, MTA Bridges and Tunnels used the proceeds of the May 29 issuance to redeem $73.34 of its General Revenue Bonds, Series 2009B (Build America Bonds).

On June 3, 2026, Fitch downgraded the ratings on U.S. Bank National Association to F1 from F1+, resulting in a downgrade of the short-term rating for certain MTA Bridges and Tunnels variable-rate bonds.

MTA Bridges and Tunnels Subordinate Revenue Bonds — as secured under its 2001 Subordinate Revenue Resolution Authorizing Subordinate Revenue Obligations adopted on March 26, 2002. The Subordinate Revenue Bonds are MTA Bridges and Tunnels' special obligations payable generally from the net revenues collected on the bridges and tunnels operated by MTA Bridges and Tunnels after the payment of debt service on the MTA Bridges and Tunnels General Revenue Bonds described in the section above. As of June 30, 2026, there have been no MTA Bridges and Tunnels Subordinate Revenue Bonds issued in 2026.

MTA Bridges and Tunnels Subordinate Revenue Bond Anticipation Notes — are issued in accordance with the terms and provisions of the 2001 Subordinate Revenue Resolution Authorizing Subordinate Revenue Obligations of MTA Bridges and Tunnels adopted on March 26, 2002, as supplemented, including as supplemented by the Multiple Credit and Series 2025 Supplemental Resolution Authorizing Obligations, Obligation Anticipation Notes and Refunding Obligations adopted by MTA Bridges and Tunnels on December 18, 2024. The purpose of the issuance of BANs or bonds under the aforementioned supplemental resolution, in one or more series from time to time, as necessary is to finance: MTA Bridges and Tunnels capital projects, or to retire such obligations when due, plus accrued interest, applicable issuance costs and any original issue discount; MTA transit or commuter capital programs (less amounts issued for such purposes under the MTA multiple credit supplemental resolution referenced above), or to retire such obligations when due, plus accrued interest, applicable issuance costs and any original issue discount; or refinance the costs of the CRZ Tolling Program pursuant to a previously approved resolution of MTA Bridges and Tunnels. As of June 30, 2026, no MTA Bridges and Tunnels Subordinate Revenue Bond Anticipation Notes have been issued in 2026.

MTA Bridges and Tunnels Second Subordinate Bond Anticipation Notes — are issued in accordance with the terms and provisions of the CRZ Tolling Program Second Subordinate Revenue Resolution authorizing CRZ Tolling Program Second Subordinate Revenue Obligations. The purpose of the issuance of BANs or bonds under CRZ Tolling Program Second Subordinate Revenue Resolution, in one or more series from time to time, is to provide funds in an amount not to exceed $506 million to finance costs of the CRZ Tolling Program infrastructure, tolling systems, and allowable implementation expense or to retire any such BANs when due. As of June 30, 2026, there have been no MTA Bridges and Tunnels Second Subordinate Bonds Anticipation Notes issued in 2026.

On May 15, 2026, MTA Bridges and Tunnels used funds on hand to repay $230 of TBTA Second Subordinate Bond Anticipation Notes, Series 2025A.

MTA and MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Bonds — are issued in accordance with the MTA Payroll Mobility Tax Obligation Resolution, adopted by the Board on November 18, 2020, and the MTA Bridges and Tunnels Payroll Mobility Tax Obligation Resolution, adopted by the Board on March 17, 2021, as applicable. Each of the MTA PMT Senior Lien Obligations and any MTA Bridges and Tunnels PMT Senior Lien Obligations are secured by a first lien on, and parity pledge of, the PMT Receipts, consisting of two distinct revenue streams: Mobility Tax Receipts and MTA Aid Trust Account Receipts.

On March 17, 2026, MTA issued $763.555 MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Refunding Bonds, Subseries 2026A-1. Proceeds were used to refund currently callable TRB, as well as to refund Payroll Mobility Tax Senior Lien Bonds and TRB with upcoming put or repayment dates. The Subseries 2026A-1 bonds were issued as fixed rate tax-exempt bonds with a final maturity of November 15, 2056.

On March 17, 2026, MTA redeemed $99.560 MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Variable Rate Refunding Green Bonds (Secured Overnight Financing Rate Notes-Climate Bond Certified), Subseries 2022E-2a.

On March 17, 2026, MTA defeased $118.745 MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Refunding Bonds (Tax-exempt Mandatory Tender Bonds), Subseries 2021A-2; $127.615 MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Bonds (Mandatory Tender Bonds), Subseries 2021B-2; and $75.000 MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Bonds, Subseries 2021C-1b.

On April 1, 2026, MTA issued $44.63 MTA Bridges and Tunnels Payroll Mobility Tax Senior Lien Refunding Bonds, Subseries 2026A-2. Proceeds from the transaction were used to (i) refund Transportation Revenue Variable Rate Refunding Bonds, Subseries 2002D-2a-2, (ii) pay certain financing, legal and miscellaneous expenses. As part of this deal, the swap on Transportation Revenue Variable Rate Refunding Bonds, Subseries 2002D-2a-2 in notional amount of $50 was re-allocated to Transportation Revenue Variable Rate Bonds, Subseries 2015E-1.

MTA and MTA Bridges and Tunnels Payroll Mobility Tax Bond Anticipation Notes — are issued pursuant to the MTA and MTA Bridges and Tunnels PMT Resolutions, respectively.

On February 5, 2026, MTA issued $750 TBTA Payroll Mobility Tax Bond Anticipation Notes, Subseries 2026A-1 & 2026A-2. Proceeds from the transaction were used to finance approved transit and commuter projects included in the 2020-2024 Capital Program. The Subseries 2026A-1 Notes were issued as fixed-rate tax-exempt notes with a final maturity of February 1, 2028. The Subseries 2026A-2 Notes were issued as fixed-rate tax-exempt notes with a final maturity of February 1, 2029.

MTA Bridges and Tunnels Sales Tax Revenue Bonds ("MTA Bridges and Tunnels Capital Lockbox – City Sales Tax") — are issued pursuant to MTA Bridges and Tunnels 2021 MTA Bridges and Tunnels Special Obligation Resolution Authorizing Sales Tax Revenue Obligation adopted on September 15, 2021. The Sales Tax Revenue Bonds are MTA Bridges and Tunnels' special, not general, obligations, payable solely from monies in the Obligations Trust Estate pledged by the MTA Bridges and Tunnels Sales Tax Resolution derived primarily from the Sales Tax Receipts paid from the MTA Bridges and Tunnels Capital Lockbox Fund and deposited into the Revenue Fund. As of June 30, 2026, there have been no MTA Bridges and Tunnels Sales Tax Revenue Bonds issued in 2026.

Real Estate Transfer Tax Revenue Bonds ("MTA Bridges and Tunnels Capital Lockbox Fund") — are issued pursuant to MTA Bridges and Tunnels Special Obligation Resolution Authorizing Real Estate Transfer Tax Revenue Obligations ("MTA Bridges and Tunnels RETT Resolution") adopted on December 18, 2024. The Real Estate Transfer Tax Revenue Bonds are MTA Bridges and Tunnels' special, not general obligations, payable solely from monies pledged therefor under the Obligations Trust Estate under the MTA Bridges and Tunnels RETT Resolution derived primarily from Transfer Tax Receipts deposited into the MTA Bridges and Tunnels Capital Lockbox Fund and thereafter deposited into the Revenue Fund, and certain of the funds and accounts established under the MTA Bridges and Tunnels RETT Resolution, including the Senior Lien Debt Service Reserve Fund. As of June 30, 2026, no Real Estate Transfer Tax Revenue Bonds have been issued in 2026.

Congestion Relief Zone Tolling Program Obligations — On March 26, 2026, MTA Bridges and Tunnels entered into a $500 million CRZ Tolling Program loan to refinance the outstanding CRZ Tolling Program loan entered into on May 2, 2025. The prior (2025) loan proceeds were used to finance transit and commuter projects included in the 2020–2024 Capital Program. Similar to the prior financing, the 2026 loan agreement is with a custodian on behalf of a lender, and repayment of principal and interest is secured by a lien on CRZ program revenues, net of operating expenses and certain other costs. The loan matures on October 1, 2027.

MTA Hudson Rail Yards Trust Obligations — The Hudson Rail Yard Trust Obligations and Hudson Rail Yard Refunding Trust Obligations (together, the "HRY Trust Obligations") were issued pursuant to the MTA Hudson Rail Yards Trust Agreement, dated as of September 1, 2016 (the "Original HRY Trust Agreement"), as supplemented by the MTA Hudson Rail Yards First Supplemental Trust Agreement, dated as of March 1, 2020 (the "Supplemental HRY Trust Agreement" and, together with the Original HRY Trust Agreement, the "HRY Trust Agreement"), each by and between MTA and Wells Fargo Bank, National Association, as trustee. The HRY Trust Obligations are payable solely from and secured by certain payments made by MTA under the Financing Agreement referred to in the HRY Trust Agreement.

On February 15, 2026, MTA effectuated the early mandatory redemption of a portion of the MTA Hudson Rail Yard Trust Obligations, Series 2020A maturing November 15, 2046 in the Principal Component of $52.315.

There have been no HRY Trust Obligations issued since the 2020 refunding issuance.

Refer to Note 8 for further information on Leases.

Debt Limitation — The NYS Legislature has imposed limitations on the aggregate amount of debt that the MTA and MTA Bridges and Tunnels can issue to fund the approved transit and commuter capital programs. The current aggregate ceiling, subject to certain exclusions, is $115,500 compared with issuances totaling approximately $50,037 as of June 30, 2026. The MTA expects that the current statutory ceiling will allow it to fulfill the bonding requirements of the approved Capital Programs.

Bond Refundings — From time to time, the MTA and MTA Bridges and Tunnels issue refunding bonds to achieve debt service savings or other benefits. The proceeds of refunding bonds are generally used to purchase U.S. Treasury obligations that are placed in irrevocable trusts. The principal and interest within the trusts will be used to repay the refunded debt. The trust account assets and the refunded debt are excluded from the consolidated statements of net position.

For the six months ended June 30, 2026, MTA refunding transactions decreased aggregate debt service payments by $73 and provided an economic gain of $56. For the December 31, 2025, MTA refunding transactions decreased aggregate debt service payments by $154 and provided an economic gain of $140. Details of bond refunding savings for the period ended June 30, 2026 and for the year ended December 31, 2025 are as follows (in millions):

Refunding Bonds Issued in 2026	Series	Date issued	Par value Refunded	Debt Service Savings (Increase)	Net Present Value of Savings
MTA Payroll Mobility Tax Senior Lien Refunding Bonds	2026A-1	3/17/2026	$ 358	$ 31	$ 28
TBTA Payroll Mobility Tax Senior Lien Refunding Bonds	2026A-2	5/28/2026	414	42	28
Total Bond Refunding Savings			$ 772	$ 73	$ 56

Refunding Bonds Issued in 2025	Series	Date issued	Par value Refunded	Debt Service Savings (Increase)	Net Present Value of Savings
Metropolitan Transportation Authority Transportation Revenue Refunding Bonds	2025A	3/27/2025	$ 895	$ 32	$ 29
Triborough Bridge and Tunnel Authority General Revenue Refunding Bonds	2025A-2	8/20/2025	246	23	20
Metropolitan Transportation Authority Transportation Revenue Refunding Bonds	2025B	9/24/2025	1,547	99	91
Total Bond Refunding Savings			$ 2,688	$ 154	$ 140

Unamortized losses related to bond refundings were as follows:

	December 31, 2024	(Gain)/ loss on refunding	2025 amortization	December 31, 2025	(Gain)/ loss on refunding	Current year amortization	June 30, 2026
MTA:							
Transportation Revenue Bonds	$ 105	$ (85)	$ (11)	$ 9	$ 10	$ (4)	$ 15
Dedicated Tax Fund Bonds	121	-	(11)	110	-	(6)	104
	226	(85)	(22)	119	10	(10)	119
TBTA:							
General Revenue Bonds	65	(24)	(12)	29	(36)	(6)	(13)
Subordinate Revenue Bonds	(1)	-	-	(1)	-	1	-
Payroll Mobility Tax Bonds	-	-	-	-	(43)	1	(42)
	64	(24)	(12)	28	(79)	(4)	(55)
Total	$ 290	$ (109)	$ (34)	$ 147	$ (69)	$ (14)	$ 64

Debt Service Payments — Future principal and interest debt service payments at June 30, 2026 are as follows:

	MTA		MTA BRIDGES AND TUNNELS		Debt Service	
	Principal	Interest	Principal	Interest	Principal	Interest
2026	$ 696	$ 929	$ 1,322	$ 657	$ 2,018	$ 1,586
2027	642	878	$ 784	$ 1,248	$ 1,426	2,126
2028	710	803	$ 2,089	$ 1,157	$ 2,799	1,960
2029	752	781	$ 1,629	$ 1,077	$ 2,381	1,858
2030	897	734	$ 930	$ 1,034	$ 1,827	1,768
2031-2035	4,611	3,330	$ 3,976	$ 4,770	$ 8,587	8,100
2036-2040	3,828	2,718	$ 3,566	$ 3,949	$ 7,394	6,667
2041-2045	3,558	1,884	$ 3,316	$ 3,022	$ 6,874	4,906
2046-2050	3,518	846	$ 4,003	$ 2,112	$ 7,521	2,958
2051-2055	1,755	232	$ 3,533	$ 1,120	$ 5,288	1,352
2056-2060	456	5	$ 1,466	$ 416	$ 1,922	421
2061-2065	-	-	$ 913	$ 92	$ 913	92
	$ 21,423	$ 13,140	$ 27,527	$ 20,654	$ 48,950	$ 33,794

The above interest amounts include both fixed-rate and variable-rate calculations. The interest rate assumptions for variable rate bonds are as follows:

- *Transportation Revenue Refunding Bonds, Series 2002D* — 4.45% per annum taking into account the interest rate swap plus the current fixed floating rate note spread.
- *Transportation Revenue Refunding Bonds, Series 2002G* — 4.00% per annum plus the current fixed floating rate note spread.

- *Transportation Revenue Bonds, Series 2005D* — 3.561% per annum taking into account the interest rate swaps.
- *Transportation Revenue Bonds, Series 2005E* — 3.561% per annum taking into account the interest rate swaps and 4.00% per annum on the unhedged portion.
- *Transportation Revenue Bonds, Series 2012A* — 4.00% per annum plus the current fixed floating rate note spread.
- *Transportation Revenue Bonds, Series 2012G* — 3.563% per annum taking into account the interest rate swaps plus the current fixed floating rate note spread.
- *Transportation Revenue Bonds, Series 2015E* — 4.00% per annum on the unhedged portion; and 4.45% per annum taking into account the interest rate swaps.
- *Dedicated Tax Fund Variable Rate Refunding Bonds, Series 2008A* — 3.316% per annum taking into account the interest rate swaps plus the current fixed floating rate note spread; and 4.00% per annum plus the current fixed floating rate note spread on the unhedged portion.
- *MTA Bridges and Tunnels General Revenue Refunding Bonds, Series 2001C* — 4.00% per annum.
- *MTA Bridges and Tunnels General Revenue Bonds, Series 2003B* — 4.00% per annum; and 4.00% per annum plus the current fixed floating rate note spread on Subseries 2003B-2.
- *MTA Bridges and Tunnels General Revenue Bonds, Series 2005A* — 4.00% per annum except from November 1, 2027 through November 1, 2030, 3.076% per annum taking into account the interest rate swap.
- *MTA Bridges and Tunnels General Revenue Refunding Bonds, Series 2005B* — 3.076% per annum based on the Initial Interest Rate Swaps plus the current fixed floating rate note spread.
- MTA Bridges and Tunnels General Revenue Bonds, Series 2018E — 4.00% per annum.

Loans Payable – The MTA and the New York Power Authority ("NYPA") entered into an updated Energy Services Program Agreement ("ESP Agreement"). The ESP Agreement authorized MTA affiliates and subsidiaries to enter into a Customer Installation Commitment ("CIC") with NYPA for turn-key, energy efficiency projects, which would usually be long-term funded and constructed by NYPA. The repayment period for the NYPA loan can be up to 20 years but can be repaid at any time without penalty.

The Loans Payable debt service requirements at June 30, 2026 are as follows (in millions):

Year	Principal	Interest	Total
2026	$ 7	$ 2	$ 9
2027	8	2	10
2028	8	1	9
2029	6	1	7
2030	7	1	8
2031-2035	10	1	11
Total	$ 46	$ 8	$ 54

Current portion - NYPA Loan	$ 7
Long-term portion - NYPA Loan	39
Long-term portion - CRZ Loan	500*
Subtotal - Long-term portion	539
Total - Loans Payable	$ 546

The above interest amounts include both fixed and variable rate calculations. Interest on the variable-rate loan is paid at the Securities Industry and Financial Markets Association Municipal Swap Index ("SIFMA") rate and is reset annually.

* On March 26, 2026, MTA Bridges and Tunnels entered into a $500 CRZ Tolling Program loan to refinance the CRZ Tolling Program loan entered into on May 2, 2025. The prior 2025 loan proceeds were used to finance transit and commuter projects included in the 2020-2024 Capital Program. The new loan matures on October 1, 2027.

Tax Rebate Liability — Under the Internal Revenue Code of 1986, the MTA may accrue a liability for an amount of rebateable arbitrage resulting from investing low-yielding, tax-exempt bond proceeds in higher-yielding, taxable securities. The arbitrage liability is payable to the federal government every five years. There was no payment made for the period

ended June 30, 2026.

Liquidity Facility — MTA and MTA Bridges and Tunnels have entered into several Standby Bond Purchase Agreements ("SBPA") and Letter of Credit Agreements ("LOC") as listed on the table below. In the event an LOC is scheduled to expire without being further extended or substituted with another Credit Facility, the bonds are subject to mandatory purchase by the LOC. The obligation to repay the LOC is secured by Bank Bonds. Currently, the terms of the LOC reimbursement agreements require repayment of Bank Bonds in 10 equal semi-annual installments beginning 180 days after the incurrence of Bank Bonds. As of June 30, 2026, there were no outstanding Bonds.

DRAFT

Master Page # 110 of 165 - MTA Board Meeting 10/28/2026

Derivative Instruments — Fair value for the swaps is calculated in accordance with GASB Statement No. 72, utilizing the income approach and Level 2 inputs. It incorporates the mid-market valuation, nonperformance risk of either MTA/MTA Bridges and Tunnels or the counterparty, as well as bid/offer. The fair values were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2026 and December 31, 2025, classified by type, and the changes in fair value of such derivative instruments from the year ended December 31, 2025 are as follows (in $ millions):

Swap Agreements Relating to Synthetic Fixed Rate Debt

Board-adopted Guidelines. The Related Entities adopted guidelines governing the use of swap contracts on March 26, 2002. The guidelines were amended and approved by the MTA Board on March 13, 2013. The guidelines establish limits on the amount of interest rate derivatives that may be outstanding and specific requirements that must be satisfied for a Related Entity to enter into a swap contract, such as suggested swap terms and objectives, retention of a swap advisor, credit ratings of the counterparties, collateralization requirements and reporting requirements.

Objectives of synthetic fixed rate debt. To achieve cash flow savings through a synthetic fixed rate, MTA and MTA Bridges and Tunnels have entered into separate pay-fixed, receive-variable interest rate swaps at a cost anticipated to be less than what MTA and MTA Bridges and Tunnels would have paid to issue fixed-rate debt, and in some cases where Federal tax law prohibits an advance refunding to synthetically refund debt on a forward basis.

Terms and Fair Values. The terms, fair values and counterparties of the outstanding swaps of MTA and MTA Bridges and Tunnels are reflected in the following tables (as of June 30, 2026).

Metropolitan Transportation Authority						
Related Bonds	Notional Amount as of June 30, 2026	Effective Date	Maturity Date	Terms	Counterparty and Ratings(S&P / Moody's / Fitch)	Fair Value as of June 30, 2026

1 Guarantor: BNP Paribas.

2 Between November 22, 2016 and December 5, 2016, the Variable Rate Certificates of Participation, Series 2004A were redeemed. Corresponding notional amounts from the Series 2004A COPs were reassigned to MTA Bridges and Tunnels General Revenue Variable Rate Bonds, Series 2001C.

3 Pursuant to an Interagency Agreement (following novations from UBS in April 2016), MTA New York City Transit is responsible for 68.7%, MTA is responsible for 21.0%, and TBTA is responsible for 10.3% of the transaction.

4 On October 27, 2021 the 2002F bonds were changed to fixed-rate mode and a portion of the Citi swap was reassigned to the 2018E bonds.

5 On November 1, 2022 the TRB Series 2011B bonds were refunded with the PMT Series 2022E-2a bonds, and the portion of the U.S. Bank and Wells Fargo swaps associated with the 2011B bonds were allocated to the PMT 2022E bonds. On March 17, 2026, the PMT 2022E-2a bonds were refunded with the PMT series 2026A-1 bonds and the portion of the U.S. Bank and wells Fargo swaps associated with the PMT 2022E bonds were allocated to TRB 2015E-1.

SOFR: Secured Overnight Financing Rate

TRB: Transportation Revenue Bonds

DTF: Dedicated Tax Fund Bonds

Risks Associated with the Swap Agreements

From MTA's and MTA Bridges and Tunnels' perspective, the following risks are generally associated with swap agreements:

Credit Risk. The risk that a counterparty becomes insolvent or is otherwise not able to perform its financial obligations. To mitigate the exposure to credit risk, the swap agreements include collateral provisions in the event of downgrades to the swap counterparties' credit ratings. Generally, MTA and MTA Bridges and Tunnels' swap agreements contain netting provisions under which transactions executed with a single counterparty are netted to determine collateral amounts. Collateral may be posted with a third-party custodian in the form of cash, U.S. Treasury securities, or certain Federal agency securities. MTA and MTA Bridges and Tunnels require its counterparties to fully collateralize if ratings fall below certain levels (in general, at the Baa1/BBB+ or Baa2/BBB levels), with partial posting requirements at higher rating levels (details on collateral posting discussed further under "Collateralization/Contingencies"). As of June 30, 2026, all of the valuations were in liability positions to MTA and MTA Bridges and Tunnels; accordingly, no collateral was posted by any of the counterparties.

The following table shows, as of June 30, 2026, the diversification, by percentage of notional amount, among the various counterparties that have entered into ISDA Master Agreements with MTA and/or MTA Bridges and Tunnels. The notional amount totals below include all swaps.

Counterparty	S&P	Moody's	Fitch	Notional Amount (in thousands)	% of Total Notional Amount
JPMorgan Chase Bank, NA	AA-	Aa2	AA	$727,275	41.39%
UBS AG	A+	Aa2	AA	356,640	20.30%
The Bank of New York Mellon	AA-	Aa2	AA+	180,435	10.27%
Citibank, N.A.	A+	Aa3	AA-	172,700	9.83%
BNP Paribas US Wholesale Holdings, Corp.	A+	A1	AA-	172,700	9.83%
U.S. Bank National Association	A+	A2	A+	43,137	2.45%
Wells Fargo Bank, N.A.	A+	Aa2	AA-	43,138	2.46%
AIG Financial Products Corp.	A-	Baa1	A-	60,980	3.47%
Total				**$1,757,005**	**100.00%**

Interest Rate Risk. MTA and MTA Bridges and Tunnels are exposed to interest rate risk on the interest rate swaps. On the pay-fixed, receive variable interest rate swaps, as LIBOR or SIFMA (as applicable) decreases, MTA and MTA Bridges and Tunnels' net payments on the swaps increase.

Basis Risk. The risk that the variable rate of interest paid by the counterparty under the swap and the variable interest rate paid by MTA or MTA Bridges and Tunnels on the associated bonds may not be the same. If the counterparty's rate under the swap is lower than the bond interest rate, then the counterparty's payment under the swap agreement does not fully reimburse MTA or MTA Bridges and Tunnels for its interest payment on the associated bonds. Conversely, if the bond interest rate is lower than the counterparty's rate on the swap, there is a net benefit to MTA or MTA Bridges and Tunnels.

Termination Risk. The risk that a swap agreement will be terminated and MTA or MTA Bridges and Tunnels will be required to make a swap termination payment to the counterparty and, in the case of a swap agreement which was entered into for the purpose of creating a synthetic fixed rate for an advance refunding transaction may also be required to take action to protect the tax-exempt status of the related refunding bonds.

The ISDA Master Agreement sets forth certain termination events applicable to all swaps entered into by the parties to that ISDA Master Agreement. MTA and MTA Bridges and Tunnels have entered into separate ISDA Master Agreements with each counterparty that govern the terms of each swap with that counterparty, subject to individual terms negotiated in a confirmation. MTA and MTA Bridges and Tunnels are subject to termination risk if its credit ratings fall below certain specified thresholds or if MTA/MTA Bridges and Tunnels commits a specified event of default or other specified event of termination. If, at the time of termination, a swap were in a liability position to MTA or MTA Bridges and Tunnels, a termination payment would be owed by MTA or MTA Bridges and Tunnels to the counterparty, subject to applicable netting arrangements.

The following tables set forth the Additional Termination Events for MTA/MTA Bridges and Tunnels and its counterparties:

MTA Transportation Revenue		
Counterparty Name	**MTA**	**Counterparty**
AIG Financial Products Corp.; JPMorgan Chase Bank, NA; UBS AG	Below Baa3 (Moody's) or BBB- (S&P)*	Below Baa3 (Moody's) or BBB- (S&P)*

**Note: Equivalent Fitch rating is replacement for Moody's or S&P.*

MTA Dedicated Tax Fund		
Counterparty Name	**MTA**	**Counterparty**
Bank of New York Mellon	Below BBB (S&P) or BBB (Fitch)*	Below A3 (Moody's) or A- (S&P)**

**Note: Equivalent Moody's rating is replacement for S&P or Fitch.*
***Note: Equivalent Fitch rating is replacement for Moody's or S&P.*

MTA Bridges and Tunnels Senior Lien		
Counterparty Name	**MTA Bridges and Tunnels**	**Counterparty**
BNP Paribas US Wholesale Holdings, Corp.; Citibank, N.A.; JPMorgan Chase Bank, NA; UBS AG	Below Baa2 (Moody's) or BBB (S&P)*	Below Baa1 (Moody's) or BBB+ (S&P)*

**Note: Equivalent Fitch rating is replacement for Moody's or S&P.*

MTA Bridges and Tunnels Subordinate Lien		
Counterparty Name	**MTA Bridges and Tunnels**	**Counterparty**
U.S. Bank National Association; Wells Fargo Bank, N.A.	Below Baa2 (Moody's) or BBB (S&P)*	Below Baa2 (Moody's) or BBB (S&P)**

**Note: Equivalent Fitch rating is replacement for Moody's or S&P. If not below Investment Grade, MTA Bridges and Tunnels may cure such Termination Event by posting collateral at a Zero threshold.*

***Note: Equivalent Fitch rating is replacement for Moody's or S&P.*

MTA and MTA Bridges and Tunnels' ISDA Master Agreements provide that the payments under one transaction will be netted against other transactions entered under the same ISDA Master Agreement. Under the terms of these agreements, should one party become insolvent or otherwise default on its obligations, close-out netting provisions permit the non-defaulting party to accelerate and terminate all outstanding transactions and net the amounts so that a single sum will be owed by, or owed to, the non-defaulting party.

Rollover Risk. The risk that the swap agreement matures or may be terminated prior to the final maturity of the associated bonds on a variable rate bond issuance, and MTA or MTA Bridges and Tunnels may be exposed to the market rates and cease to receive the benefit of the synthetic fixed rate for the duration of the bond issue. The following debt is exposed to rollover risk:

Associated Bond Issue	Bond Maturity Date	Swap Termination Date
MTA Bridges and Tunnels General Revenue Variable Rate Bonds, Series 2001C (portion of swaps with U.S. Bank/Wells Fargo)	January 1, 2032	January 1, 2030
MTA Bridges and Tunnels General Revenue Variable Rate Refunding Bonds, Series 2018E (swap with Citibank, N.A.)	November 15, 2032	January 1, 2032
MTA Bridges and Tunnels General Revenue Variable Rate Bonds, Series 2003B (swap with Citibank, N.A.)	January 1, 2033	January 1, 2032
MTA Bridges and Tunnels General Revenue Variable Rate Bonds, Series 2005A (swaps with U.S. Bank/Wells Fargo and Citibank, N.A.)	November 1, 2041	January 1, 2030 (U.S. Bank/Wells Fargo) January 1, 2032 (Citibank)
MTA Bridges and Tunnels General Revenue Variable Rate Bonds, Series 2005B-3 (swap with BNB Paribas)	January 1, 2035	January 1, 2032
MTA Transportation Revenue Variable Rate Bonds, PMT Series 2015E-1 (portion of swaps with U.S. Bank/Wells Fargo and JP Morgan)	November 15, 2050	January 1, 2030 and January 1, 2032

Collateralization/Contingencies. Under the majority of the swap agreements, MTA and/or MTA Bridges and Tunnels is required to post collateral in the event its credit rating falls below certain specified levels. The collateral posted is to be in the form of cash, U.S. Treasury securities, or certain Federal agency securities, based on the valuations of the swap agreements in liability positions and net of the effect of applicable netting arrangements. If MTA and/or MTA Bridges and Tunnels do not post collateral, the swap(s) may be terminated by the counterparty(ies).

As of June 30, 2026 , the aggregate mid-market valuation of the MTA's swaps subject to collateral posting agreements was $42.04 million; as of this date, the MTA was not subject to collateral posting based on its credit ratings (see further details below).

As of June 30, 2026, the aggregate mid-market valuation of MTA Bridges and Tunnels' swaps subject to collateral posting agreements was $11.51 million; as of this date, MTA Bridges and Tunnels was not subject to collateral posting based on its credit ratings (see further details below).

The following tables set forth the ratings criteria and threshold amounts applicable to MTA/MTA Bridges and Tunnels and its counterparties.

MTA Transportation Revenue		
Counterparty	**MTA Collateral Thresholds (based on highest rating)**	**Counterparty Collateral Thresholds (based on highest rating)**
AIG Financial Products Corp.; JPMorgan Chase Bank, NA; UBS AG	Baa1/BBB+:$10 million Baa2/BBB & below: Zero	Baa1/BBB+:$10 million Baa2/BBB & below: Zero

Note: Based on Moody's and S&P ratings. In all cases except JP Morgan counterparty thresholds. Fitch rating is replacement for Moody's or S&P, at which point threshold is based on lowest rating.

MTA Dedicated Tax Fund		
Counterparty	**MTA Collateral Thresholds**	**Counterparty Collateral Thresholds (based on highest rating)**
Bank of New York Mellon	N/A - MTA does not post collateral	Aa3/AA- & above:$10 million A1/A+: $5 million A2/A: $2 million A3/A-: 1 million Baa1/BBB+ & below: Zero

Note: MTA Bridges and Tunnels thresholds based on Moody's, S&P, and Fitch ratings. Counterparty thresholds based on Moody's and S&P ratings. Fitch rating is replacement for Moody's or S&P.

MTA Bridges and Tunnels Senior Lien		
Counterparty	**MTA Bridges and Tunnels Collateral Thresholds (based on highest rating)**	**Counterparty Collateral Thresholds (based on highest rating)**
BNP Paribas US Wholesale Holdings, Corp.; Citibank, N.A.; JPMorgan Chase Bank, NA; UBS AG	Baa1/BBB+:$30 million Baa2/BBB: $15 million Baa3/BBB- & below: Zero	A3/A-: $10 million Baa1/BBB+ & below: Zero

** Note: Equivalent Fitch rating is replacement for Moody's or S&P.*

MTA Bridges and Tunnels Subordinate Lien		
Counterparty	**MTA Bridges and Tunnels Collateral Thresholds (based on lowest rating)**	**Counterparty Collateral Thresholds (based on lowest rating)**
U.S. Bank National Association; Wells Fargo Bank, N.A.	Baa3/BBB- & below: Zero (*note: only applicable as cure for Termination Event*)	Aa3/AA- & above: $15 million A1/A+ to A3/A-: $5 million Baa1/BBB+ & below: Zero

Note: Thresholds based on Moody's and S&P ratings. Fitch rating is replacement for Moody's or S&P.

Swap payments and Associated Debt. The following tables contain the aggregate amount of estimated variable- rate bond debt service and net swap payments during certain years that such swaps were entered into in order to: protect against the potential of rising interest rates; achieve a lower net cost of borrowing; reduce exposure to changing interest rates on a related bond issue; or, in some cases where Federal tax law prohibits an advance refunding, achieve debt service savings through a synthetic fixed rate. As rates vary, variable-rate bond interest payments and net swap payments will vary. Using the following assumptions, debt service requirements of MTA's and MTA Bridges and Tunnels' outstanding variable-rate debt and net swap payments are estimated to be as follows:

- It is assumed that the variable-rate bonds would bear interest at a rate of 4.0% per annum.
- The net swap payments were calculated using the actual fixed interest rate on the swap agreements.

MTA (in millions)				
Period Ended June 30, 2026	Variable-Rate Bonds		Net Swap Payments	Total
	Principal	Interest		
2026	45.8	51.3	(3.2)	93.9
2027	51.9	49.5	(2.9)	98.5
2028	61.9	47.4	(2.4)	106.9
2029	91.4	44.9	(2.0)	134.3
2030	139.1	41.2	(1.7)	178.6
2031-2035	666.5	101.9	(2.4)	766.0
2036-2040	69.5	39.8	-	109.3
2041-2045	140.7	33.5	-	174.2

MTA Bridges and Tunnels (in millions)				
Period Ended June 30, 2026	Variable-Rate Bonds		Net Swap Payments	Total
	Principal	Interest		
2026	18.5	35.6	(6.4)	47.7
2027	41.9	33.9	(6.4)	69.4
2028	59.5	31.6	(6.1)	85.0
2029	117.0	26.9	(4.7)	139.2
2030	121.2	22.0	(3.3)	139.9
2031-2035	448.9	49.4	(1.7)	496.6
2036-2040	-	20.4	-	20.4

8. LEASES

MTA entered into various lease agreements that convey control of the right to use other entities' nonfinancial assets. Lease receivables and lease liabilities are measured at the present value of payments expected to be received during the lease term, using MTA's incremental borrowing rate at the time of valuation ranging from 0.97% to 9.11% if an applicable stated or implicit rate is not available.

The lease liability was reduced as payments were made, and an outflow of resources for interest on the liability was recognized. The lease asset is amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

Interest revenues are recognized on the lease receivable and an inflow of resources from the deferred inflow of resources are recognized on a straight-line basis over the term of the lease.

As Lessor

MTA leases its land, buildings, station space, equipment, and right of way to other entities. These leases have terms between 1 year to 100 years, with payments required monthly, quarterly, semi-annually, or annually. As of June 30, 2026, the remaining lease terms are between 1 year to 99 years. In addition, MTA also receives payments for variable leases and operating expenses associated with spaces that are not included in the measurement of lease receivable.

The total amount of inflows of resources recognized for the periods ended June 30, 2026 and December 31, 2025 is presented below (in thousands):

	June 30, 2026	December 31, 2025
Lease Revenue - Operating	$ 19,248	$ 42,228
Lease Revenue - Non-Operating	1,328	1,107
Interest Revenue	10,485	13,589
Other Variable Revenue	79,562	31,378

A summary of activity in lease receivable for the period ended June 30, 2026 and December 31, 2025 is presented below (in thousands):

	June 30, 2026	December 31, 2025
Balance – beginning of year	$ 456,502	$ 240,815
Additions/remeasurements	13,943	300,577
Receipts/Interest	(19,432)	(84,890)
Balance – end of year	451,013	456,502
Less: current portion	38,485	45,526
Lease receivable noncurrent	$ 412,528	$ 410,976

MTA recognized revenue of $13 and $68 associated with residual value guarantees and termination penalties for periods ended June 30, 2026 and December 31, 2025, respectively.

The principal and interest requirements to maturity for the lease receivable subsequent to June 30, 2026, are as follows (in thousands):

June 30, 2026	Principal	Interest	Total
2026	$ 12,594	$ 10,839	$ 23,433
2027	23,536	21,291	44,827
2028	21,600	21,026	42,626
2029	12,901	20,673	33,574
2030	7,418	20,407	27,825
2031 - 2035	8,222	101,334	109,556
2036 - 2040	(21,828)	105,159	83,331
2041 - 2045	(26,314)	112,935	86,621
Thereafter	412,883	2,531,052	2,943,935
Total	$ 451,013	$ 2,944,715	$ 3,395,731

As Lessee

MTA leases buildings, office space, storage space, equipment, vehicles, and cell tower space from other entities. These leases have terms between 1 year to 74 years, with payments required monthly, quarterly, or annually. As of June 30, 2026, the remaining lease terms are between 1 year to 68 years.

The amount of lease expense recognized for variable payments not included in the measurement of lease liability were $10,550 and $27,067 for June 30, 2026 and December 31, 2025, respectively. MTA did not recognize any expenses attributable to residual value guarantees and termination penalties for the six months ended June 30, 2026 and for the year ended December 31, 2025, respectively.

A summary of activity in lease liability for June 30, 2026 and December 31, 2025 is presented below (in thousands):

	June 30, 2026	December 31, 2025
Balance – beginning of year	$ 901,901	$ 911,629
Additions/remeasurements	10,296	33,584
Receipts/Interest	(24,565)	(43,312)
Balance – end of year	887,632	901,901
Less: current portion	40,012	41,585
Lease liability noncurrent	$ 847,620	$ 860,316

The principal and interest requirements to maturity for the lease liability subsequent to June 30, 2026, are as follows (in thousands):

June 30, 2026	Principal	Interest	Total
2026	$ 19,767	$ 26,347	$ 46,114
2027	39,402	51,676	91,078
2028	37,293	50,396	87,689
2029	38,433	49,024	87,457
2030	39,490	47,429	86,919
2031 - 2035	212,112	210,359	422,471
2036 - 2040	148,071	159,962	308,033
2041 - 2045	168,776	101,619	270,395
Thereafter	184,288	74,228	258,516
Total	$ 887,632	$ 771,040	$ 1,658,672

Significant Lease Transactions - On July 29, 1998, the MTA, (solely on behalf of MTA Long Island Rail Road and MTA Metro-North Railroad, MTA New York City Transit, and MTA Bridges and Tunnels) entered into a lease and related agreements whereby each agency, as sublessee, will rent an office building at 2 Broadway in lower Manhattan. The triple-net-lease has an initial stated term of approximately 50 years, with the right to extend the lease for two successive 15-year periods at a rental of at least 95% of fair market rent. Remaining payments under the lease approximate $907 million. Under the subleases, the lease is apportioned as follows: MTA New York City Transit, 68.7%, MTA, 21%; and MTA Bridges and Tunnels, 10.3%. However, the involved agencies have agreed to sub-sublease space from one another as necessary to satisfy actual occupancy needs. The agencies will be responsible for obligations under the lease based on such actual occupancy percentages. Actual occupancy percentages at December 31, 2025, for the MTA New York City Transit, MTA Bridges and Tunnels and MTA (including MTA Bus, MTA Construction and Development and MTA Business Service Center) were 46.23%, 5.94% and 47.83%, respectively. MTAs' sublease is for a year-to-year term, automatically extended, except upon the giving of a non-extension notice by MTA. The office building at 2 Broadway, is principally occupied by MTA New York City Transit, MTA Bridges and Tunnels, MTA Construction and Development, MTAHQ, and MTA Bus.

MTA pays the lease payments on behalf of MTA New York City Transit and MTA Bridges and Tunnels, and subsequently makes monthly chargebacks in the form of rental payments treated as management fees.

9. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

MTA entered into various SBITA that convey control of the right to use another party's information technology software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time. A right-to-use intangible subscription asset is set up with a corresponding subscription liability measured at the present value of payments during the subscription term, using MTA's incremental borrowing rate at the time of valuation ranging from 1.33% to 5.87% if an applicable stated or implicit rate is not available.

The initial measurement of MTA's subscription asset and lease liability was as of January 1, 2022. The subscription liability was reduced as payments were made, and an outflow of resources for interest on the liability was recognized. The subscription asset is amortized on a straight-line basis over the subscription term.

MTA's SBITA include software licenses, cloud data storage, hosting applications, security platforms and others. These subscriptions have terms between 1 years to 12 years, with payments required monthly, quarterly, or annually. As of June 30, 2026, the remaining subscription terms are between 1 year to 10 years. The amount of subscription expenses recognized for variable payments not included in the measurement of lease liability were $7,977 and $16,424 for the period ended June 30, 2026 and year ended December 31, 2025, respectively. MTA recognized $0 and $509 expense attributable to termination penalties and impairment for the period ended June 30, 2026 and year ended December 31, 2025, respectively.

A summary of activity in SBITA liability for the period ended June 30, 2026 and year ended December 31, 2025 is presented below (in thousands):

	June 30, 2026	December 31, 2025
Balance – beginning of year	$ 127,618	$ 176,635
Additions / remeasurements	(22,571)	63,693
Payments/Interest	16,733	(112,710)
Balance – end of year	121,780	127,618
Less: current portion	55,663	52,018
SBITA liability noncurrent	$ 66,117	$ 75,600

The principal and interest requirements to maturity for the Subscription-Based Information Technology Arrangements liability subsequent to June 30, 2026, are as follows:

June 30, 2026	Principal	Interest	Total
2026	$ 34,813	$ 2,732	$ 37,545
2027	41,701	3,674	45,375
2028	7,143	2,080	9,223
2029	7,735	1,797	9,532
2030	5,073	1,442	6,515
2031 - 2035	24,768	3,445	28,213
2036 - 2040	547	12	559
Total	$ 121,780	$ 15,182	$ 136,962

10. PUBLIC-PRIVATE AND PUBLIC-PUBLIC PARTNERSHIP ARRANGEMENTS

MTA entered into various Public-Private and Public-Public Partnership arrangements ("PPP") that provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital assets, for a period of time in an exchange or exchange-like transactions. PPP receivables are measured at the present value of payments expected to be made during the PPP term, using MTA incremental borrowing rate at the time of valuation ranging from 4.15% to 5.64% if an applicable stated or implicit rate is not available.

Interest revenues are recognized on the PPP receivable and an inflow of resources from the deferred inflow of resources are recognized on a straight-line basis over the term of the PPP.

As Transferor

These arrangements provide cellular connectivity and high-speed Wi-Fi to users across the system. These PPPs have terms between 1 year to 30 years, with payments required annually. As of June 30, 2026, the remaining PPP terms are between 1 year to 26 years. In addition, MTA also receives payments for variable PPPs and operating expenses associated with the contracts that are not included in the measurement of PPP receivable.

The total amount of inflows of resources recognized for the period ended June 30, 2026 and the year ended December 31, 2025 is presented below (in thousands):

	June 30, 2026	December 31, 2025
PPP revenue	$ 279	$ 904
Interest revenue	113	681
Other variable revenue	3	400

A summary of PPP receivable activity for the period ended June 30, 2026 and the year ended December 31, 2025 is presented below (in thousands):

	June 30, 2026	December 31, 2025
Balance – beginning of year	$ 4,502	-
Additions / remeasurements	-	9,393
Payments / Interest	(370)	(4,891)
Balance – end of year	4,132	4,502
Less: current portion	46	259
PPP/SCA receivable noncurrent	$ 4,086	$ 4,243

June 30, 2026	Principal	Interest	Total
2026	$ (114)	$ 113	$ (1)
2027	284	211	495
2028	298	196	494
2029	231	184	415
2030	258	170	428
2031-2035	1,748	596	2,344
2036-2040	1,102	138	1,240
2041-2045	80	77	157
2046-2050	136	46	182
2051-2055	109	6	115
Total	$ 4,132	$ 1,737	$ 5,869

11. FINANCED PURCHASES

MTA made an assessment of its existing sale/leaseback transactions and determined that these transactions are not eligible to be treated as leases but as financed purchases under GASB 87. Accordingly, under GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance, a sale-leaseback is required to include a transaction that qualifies as a sale under the guidance for sales of real estate. The sales-of-real estate criteria include the provision that an option or requirement for a seller to repurchase the asset would preclude a sale treatment. Furthermore, a qualifying sale should occur for a transaction to be accounted for as a sale-leaseback and that the sales-of-real-estate criteria should be used to determine whether a sale has occurred, regardless of whether a leaseback is involved. The transaction should be accounted for as financing, leasing or profit-sharing arrangement rather than a sale when the seller has an obligation to repurchase the property, or the terms of the transaction allow the buyer to compel the seller or give an option to the seller to repurchase the property.

Subway Cars — On September 3, 2003, the MTA entered into a sale/leaseback transaction whereby MTA New York City Transit transferred ownership of certain MTA New York City Transit subway cars to the MTA, the MTA sold those cars to a third party, and the MTA leased those cars back from such third party. The MTA subleased the cars to MTA New York City Transit. The lease expires in 2033. At the lease expiration, the MTA has the option of either exercising a fixed-price purchase option for the cars or returning the cars to the third-party owner.

Under the terms of the sale/leaseback agreement, the MTA initially received $168.1, which was utilized as follows: The MTA paid $126.3 to an affiliate of one of the lenders to the third party, which affiliate has the obligation to pay to the MTA an amount equal to the rent obligations under the lease attributable to the debt service on such loan from such third party's lender. The obligations of the affiliate of the third party's lender are guaranteed by American International Group, Inc. The MTA also purchased the Federal National Mortgage Association ("FNMA") and U.S. Treasury securities in amounts and with maturities which are sufficient to make the lease rent payments equal to the debt service on the loans from the other lender to the third party and to pay the remainder of the regularly scheduled rent due under that lease and the purchase price due upon exercise by the MTA of the fixed price purchase option if exercised. The amount remaining after payment of transaction expenses, $7.4, was the MTA's benefit from the transaction.

Subway Cars — On September 25, 2003 and September 29, 2003, the MTA entered into two sale/leaseback transactions whereby MTA New York City Transit transferred ownership of certain MTA New York City Transit subway cars to the MTA, the MTA sold those cars to third parties, and the MTA leased those cars back from such third parties. The MTA subleased the cars to MTA New York City Transit. Both leases expire in 2033. At the lease expiration, MTA has the option of either exercising a fixed-price purchase option for the cars or returning the cars to the third-party owner.

Under the terms of the sale/leaseback agreements, the MTA initially received $294, which was utilized as follows: In the case of one of the leases, the MTA paid $97 to an affiliate of one of the lenders to the third party, which affiliate has the obligation to pay to the MTA an amount equal to the rent obligations under the lease attributable to the debt service on the loan from such third party's lender. The obligations of the affiliate of such third party's lender are guaranteed by American International Group, Inc. In the case of the other lease, the MTA purchased US Treasury debt securities in amounts and with maturities, which are sufficient for the MTA to make the lease rent payments equal to the debt service on the loan from the lender to that third party. In the case of both of the leases, the MTA also purchased Resolution Funding Corporation ("REFCO") debt securities that mature in 2030. Under an agreement with AIG Matched Funding Corp (guaranteed by American International Group, Inc.), AIG Matched Funding Corp. receives the proceeds from the REFCO debt securities at maturity and is obligated to pay to the MTA amounts sufficient for the MTA to pay the remainder of the regularly scheduled lease rent payments under those leases and the purchase price due upon exercise by the MTA of the purchase options if exercised. The amount remaining after payment of transaction expenses, $24, was the MTA's net benefit from these two transactions.

On December 17, 2008, MTA terminated the Ambac Assurance Corp. surety bond for the lease transaction that closed on September 25, 2003 and since then MTA has provided short-term U.S. Treasury debt obligations as replacement collateral. As of December 31, 2025, the fair value of total collateral funds was $41.2.

On January 12, 2009, MTA provided a short-term U.S.Treasury debt obligation as additional collateral in addition to the Ambac Assurance Corp. surety bond for the lease transaction that closed on September 29, 2003. As of December 31, 2025, the fair value of total collateral funds was $58.1.

As a result of the implementation of GASB 87, the 2 Broadway office building lease has been reclassified as a right-of-use asset with its corresponding lease liability and excluded from the schedule below. See footnote 8 for additional information.

Financed Purchases Schedule

Description	December 31, 2025	Increase	Decrease	June 30, 2026
	For the period ended June 30, 2026

Long Term Portion Financed Purchase	$ 183			$ 190

MTA Hudson Rail Yards Air Rights Leases – MTA assessed the MTA Hudson Rail Yards Leases and associated air rights and determined that these are intangible assets and excluded as leases under GASB 87.

In the 1980's, the MTA developed a portion of the Hudson Rail Yards as a storage yard, car wash and repair facility for the MTA Long Island Railroad rail cars entering Manhattan. It was anticipated that, eventually, the air rights above the Hudson Rail Yards would be developed to meet the evolving needs for high-quality commercial, retail, residential and public space in Manhattan.

To undertake the development of the Hudson Rail Yards, the MTA entered into two 99-year leases for the airspace within the boundary of the Hudson Rail Yards, one for the Eastern Rail Yards ("ERY") beginning December 3, 2012, and the other for the Western Rail Yards ("WRY") beginning December 3, 2013.

As of April 10, 2013, the ERY Lease was terminated and substituted with separate Severed Parcel Leases. Several Tenants under the Severed Parcel Leases have exercised their options to purchase fee title, as well as numerous condominium owners in residential buildings. The WRY Lease is also expected to be severed into separate parcels as development progresses.

The Severed Parcel Leases in the ERY, fee title for which has not been purchased, and the WRY Lease (until any severed parcel leases are purchased) are pledged as security for the Series 2016A Hudson Yards Trust Obligations.

Minimum rent receipts for ERY and WRY Ground Leases are as follows as of June 30, 2026:

Year	ERY	WRY	Total
2026	$ 4	$ 36	$ 40
2027	4	36	40
2028	4	37	41
2029	4	40	44
2030	4	40	44
Thereafter	1,548	14,091	15,639
Total	**$ 1,568**	**$ 14,280**	**$ 15,848**

Availability Payment Arrangement

MTA Construction and Development, on behalf of the MTA, and the developer entered into an ADA ("Americans with Disabilities Act") Project Agreement (the "Project Agreement") for the design, construction, financing and maintenance of station accessibility improvements for MTA New York City Transit. The Project Agreement requires, among other things, the payment of periodic progress payments, capital availability payments, maintenance availability payments and completion payments. MTA issued a subordinated contract obligation (the "SCO") in the aggregate contractual face amount of $160,628,234.50 on May 4, 2023 which secures the capital availability payments owed under the Project Agreement. This availability payment arrangement ("APA") is being reported as a financed purchase Under GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payments Arrangements.

The APA liabilities are measured at the present value of payments expected to be made during the payment term, using the developer's pre-tax Weighted Average Cost of Capital at the time of valuation. This APA has a term of approximately 26.5 years, with payments scheduled monthly as measures related to availability have been met. As of June 30, 2026 and December 31, 2025, the remaining APA term is 25.42 and 25.75 years, respectively.

There were no variable expense payments, residual value guarantees or termination penalties during 2025.

A summary of activity in the APA liability for the period ended June 30, 2026 year ended December 31, 2025 is presented below (in thousands):

	June 30, 2026	December 31, 2025
Balance – beginning of year	$ 59,706	$ -
Additions / remeasurements	-	59,054
Payments/Interest	134	652
Balance – end of year	59,840	59,706
Less: current portion	-	-
APA liability - noncurrent	$ 59,840	$ 59,706

The principal and interest requirements to maturity for the APA liability subsequent to June 30, 2026, are as follows (in thousands):

Ended June 30, 2026	Principal	Interest	Total
2026	$ (103)	$ 2,246	$ 2,143
2027	(249)	4,505	4,256
2028	(143)	4,520	4,377
2029	(193)	4,532	4,339
2030	(208)	4,547	4,339
2031-2035	5,694	22,055	27,749
2036-2040	10,877	18,766	29,643
2041-2045	15,788	13,843	29,631
Thereafter	28,377	6,896	35,273
	$ 59,840	$ 81,910	$ 141,750

12. FUTURE OPTION

In 2010, MTA and MTA Long Island Railroad entered into an Air Space Parcel Purchase and Sale Agreement ("Agreement") with Atlantic Yards Development Company, LLC ("AADC") pursuant to which AADC has obtained an exclusive right to purchase fee title to a parcel (subdivided into six sub-parcels) of air space above the MTA Long Island Railroad Vanderbilt Yard in Brooklyn, New York. Initial annual payments of $2 (covering all six sub-parcels) commenced on June 1, 2012 and were paid on the following three anniversaries of that date. Starting on June 1, 2016, and continuing on each anniversary thereof through and including June 1, 2031, an annual option payment in the amount of $11 is due. The Agreement provides that all such payments are (i) fully earned by MTA as of the date due in consideration of the continuing grant to AADC of the rights to purchase the air space sub-parcels, (ii) are non-refundable except under certain limited circumstances and (iii) shall be deemed to be payments on account of successive annual options granted to AADC. The interests in AY Phase II Development Company, LLC ("AYDC") (the successor-in-interest to AADC) were foreclosed in 2025 and AYDC's rights and obligations under certain documents (including the Agreement) were assigned to and assumed by Brooklyn Ascending Owner LLC ("BAO") on October 7, 2025.

After BAO and its affiliates have completed the new yard and transit improvements to be constructed by them at and in the vicinity of the site, BAO has the right from time to time until June 1, 2031, to close on the purchase of any or all of the six air rights sub-parcels. The purchase price for the six sub-parcels is an amount, when discounted at 6.5% per annum from the date of each applicable payment that equals a present value of $80 as of January 1, 2010. The purchase price of any particular air space sub-parcel is equal to a net present value as of January 1, 2010 (calculated based on each applicable payment) of the product of that sub-parcel's percentage of the total gross square footage of permissible development on all six air space sub-parcels multiplied by $80.

13. COMPENSATED ABSENCES

MTA provides employee benefits for vacation, compensatory time, sick, and other leave days. Certain leave that has not been used are recorded as compensated absences liabilities when the leave is attributable to services already rendered, the leave accumulates, and the leave is more likely than not to be used for time off or otherwise paid in cash or settled through non cash means.

Short-term liability (see Current portion - compensated absences on the Consolidated Statement of Net Position) is recorded based on average usage or applicable leave expiration, while long-term liability is recorded for leave that accumulates and is carried forward to a future reporting period during which it may be used for time off or otherwise paid or settled at separation of service, or according to timing as provided for in the policy or collective bargaining agreement.

A summary of activity indicated as net increase or decrease in compensated absences liability for the six-month period ended June 30, 2026 and year ended December 31, 2025 is presented below (in millions):

	June 30, 2026	December 31, 2025
Balance - beginning of year	$ 1,600	$ 1,494
Net adjustment	29	106
Balance - end of year	1,629	1,600
Less: current portion	796	781
Compensated absences liability - noncurrent	$ 833	$ 819

14. ESTIMATED LIABILITY ARISING FROM INJURIES TO PERSONS

A summary of activity in estimated liability as computed by actuaries arising from injuries to persons, including employees, and damage to third-party property for the period ended June 30, 2026 and year ended December 31, 2025 is presented below (in millions):

	June 30, 2026	December 31, 2025
Balance - beginning of year	$ 7,282	$ 6,826
Activity during the year:		
Current year claims and changes in estimates	578	1,454
Claims paid	(484)	(998)
Balance - end of year	7,376	7,282
Less: current portion	(822)	(922)
Long-term liability	$ 6,554	$ 6,360

See Note 2 for additional information on MTA's liability and property disclosures.

15. COMMITMENTS AND CONTINGENCIES

Financial Guarantee — *Moynihan Station Development Project* - On May 22, 2017, the MTA Board approved entering into various agreements, including a Joint Services Agreement ("JSA"), necessary to effectuate Phase 2 of the Moynihan Station Development Project, which entailed the redevelopment of the James A. Farley Post Office Building to include a new world-class train hall to be shared by National Railroad Passenger Corporation ("Amtrak"), MTA Long Island Rail Road and MTA Metro-North Railroad, as well as retail and commercial space (the "Retail and Commercial Space").

On July 21, 2017, New York State Urban Development Corporation d/b/a Empire State Development ("ESD") executed a TIFIA Loan Agreement with the United States Department of Transportation (the "TIFIA Lender") in an amount of up to $526 (the "2017 TIFIA Loan"), to pay for costs of the construction of the Train Hall. The 2017 TIFIA Loan was amended and restated on November 18, 2021 in an amount up to $607 (the "2021 TIFIA Loan"), to lower the interest rate to 1.99% per annum and to provide additional capital financing for the Train Hall. The 2021 TIFIA Loan has a final maturity date of the earlier of (1) October 30, 2055 and (2) the last semi-annual payment date occurring no later than the date that is thirty-five (35) years following the date on which the train hall is substantially completed. The proceeds of the 2021 TIFIA Loan are being used to reimburse or pay for costs of the construction of the train hall. The 2021 TIFIA Loan is secured by mortgages on the train hall property. The principal and interest on the 2021 TIFIA Loan is payable from a pledged revenue stream that primarily consists of PILOT payments to be paid by certain tenants in the Retail and Commercial Space. The amount of the PILOT payments is fixed through June 2030 and is thereafter calculated based upon the assessed value of the properties as determined by New York City. The 2021 TIFIA Loan is further supported by a debt service reserve account, which is funded in an amount equal to the sum of the highest aggregate TIFIA Loan debt service amounts that will become due and payable on any two consecutive semi-annual payment dates in a five-year prospective period (the "TIFIA Debt Service Reserve Account").

Simultaneously with the execution of the 2017 TIFIA Loan, the JSA was entered into by and among the MTA, the TIFIA Lender, ESD, and Manufacturers and Traders Trust Company (as PILOT trustee). MTA ratified and confirmed its obligations under the JSA in connection with the closing of 2021 TIFIA Loan.

Under the JSA, MTA is obligated to satisfy semi-annual deficiencies in the TIFIA Debt Service Reserve Account. MTA's obligations under the JSA are secured by the same monies available to MTA for the payment of the operating and maintenance expenses of the operating agencies.

MTA's obligation under the JSA remains in effect until the earliest to occur of (a) the MTA JSA Release Date (as defined in the JSA and generally summarized below), (b) the date on which the 2021 TIFIA Loan has been paid in full and (c) foreclosure by the TIFIA Lender under the Mortgage (as defined in the 2021 TIFIA Loan).

The obligations of the MTA under the JSA will be terminated and released on the date (the "MTA JSA Release Date") on which each of the following conditions have been satisfied: (a) substantial completion of (1) the Train Hall Project and initiation by MTA Long Island Rail Road and Amtrak of transportation operations therein, and (2) the Retail and Commercial Space; (b) all material construction claims have been discharged or settled; (c) the PILOT payments have been calculated based upon assessed value for at least three years (i.e., 2033); (d) certain designated defaults or events of default under the 2021 TIFIA Loan have not occurred and are continuing; and (e) either of the following release tests shall have been satisfied:

- Release Test A: (a) certain debt service coverage ratios have equaled or exceeded levels set forth in the JSA, taking into consideration assessment appeals; (b) occupancy levels have equaled or exceeded levels set forth in the JSA; and (c) the 2021 TIFIA Loan is rated no lower than "BBB-" or "Baa3" by one rating agency, all as more fully described in the JSA; or

- Release Test B: the 2021 TIFIA Loan is rated no lower than "A-" or "A3" by two rating agencies, all as more fully described in the JSA. On the date the JSA was executed and delivered, MTA deposited $20 into an account, which MTA invests, to be used in accordance with the JSA to reimburse MTA in the event it is obligated under the JSA to make semi-annual deficiency payments to the TIFIA Debt Service Reserve Account.

On June 12, 2017, the MTA entered into a Memorandum of Understanding with ESD and the New York State Division of the Budget (the "Division"). Under the Memorandum of Understanding, which was updated in November 2020 to reflect the 2021 TIFIA Loan, the Division agreed that in the event in any given year during the term of the JSA (i) the MTA is required to make a semi-annual deficiency payment to the TIFIA Debt Service Reserve Account, and (ii) the Division has determined that the MTA has incurred an expense that would otherwise have been incurred by the State of New York (the "State Expense"), the Division will consider entering into a cost recovery agreement with the MTA pursuant to subdivision 4 of Section 2975 of the Public Authorities Law (the "PAL") for such year that will provide that in lieu of paying the full assessment pursuant to subdivisions 2 and 3 of Section 2975 of the PAL in any such year, any such assessment shall be reduced by the State Expense.

16. CERTAIN RISK DISCLOSURES

Operating and Capital Program Funding Risks - The MTA Group receives revenues for providing transit and commuter service and other sources such as leasing and advertising. Such revenues are not sufficient to cover all operating expenses

associated with such services. In order to maintain a balanced budget, the members of the MTA Group rely on operating surpluses from MTA Bridges and Tunnel, operating subsidies provided by NYS and certain local governmental entities in the MTA commuter district and service reimbursements, and from the State of Connecticut. Operating subsidies to the MTA Group for transit and commuter service for the period ended June 30, 2026 and the year ended December 31, 2025 totaled $8.7 billion and $12.6 billion, respectively. The financial condition of NYS, Connecticut, and NYC and counties in the Metropolitan Commuter Transportation District ("MCTD") could affect the ability or willingness of the States and local governments to continue to provide general operating subsidies, the City and local governments to continue to provide reimbursements and station maintenance payments, the City to provide subsidies for MTA Bus, MTA Staten Island Railway, and Paratransit, and the State to continue to make special appropriations. A loss of revenue from NYS, NYC, CDOT and local governments could adversely affect the MTA.

Additionally, MTA's finances are influenced by federal public transportation provisions, funding levels and federal tax law. The receipt of capital grants by MTA from the Federal Transit Administration ("FTA") is not assured and is subject to approval by the FTA, the Secretary of Transportation and Office of Management and Budget, as well as appropriation by the U.S. Congress, to the allocation and delivery procedures of the U.S. Department of Transportation ("USDOT") and the FTA, and to compliance by MTA with conditions required by the grants. If federal funding for transit programs is reduced, whether as a result of sequestration or for other reasons, MTA's receipt of FTA grant funding, as well as MTA's substantial recurring revenue from the FTA, could be delayed, not approved or cancelled. Federal policies on transportation, taxation, and other topics can shift dramatically from one administration to another. Such shifts could result in reductions to levels of federal funding received by MTA and its Related Entities. For the period ended June 30, 2026 and the year ended December 31, 2025, revenues from Federal grants and reimbursements were $1.5 billion and $5.9 billion respectively. A loss of revenue from the FTA and NYS could adversely affect the MTA Capital program.

Concentration of Workforce Covered by Collective Bargaining Agreement and Continuation of the Negotiation of Affordable Labor Contracts - The transportation services provided by the MTA Related Entities, as well as related maintenance and support services, are labor intensive. Consequently, a major portion of the Related Entities' expenses consists of the costs of salaries, wages and fringe benefits for employees and retirees, and achieving affordable wage settlements impacts MTA's financial position. MTA is committed to negotiating affordable collective bargaining agreements with its unions. Failure to reach agreements with labor unions, or failure to negotiate affordable labor contracts could have a significant adverse impact on the budgets of MTA and its Related Entities, and any potential labor disruption will decrease train services and disrupt the normal functioning of the railroad's operations.

17. POLLUTION REMEDIATION COST

In accordance with GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, an operating expense provision and corresponding liability measured at its current value using the expected cash flow method is recognized when an obligatory event occurs. Pollution remediation obligations are estimates and subject to changes resulting from price increase or reductions, technology, or changes in applicable laws or regulations. The MTA does not expect any recoveries of cost that would have a material effect on the recorded obligations.

The MTA recognized pollution remediation expenses of ($9) and $51 for the periods ended June 30, 2026 and 2025, respectively. A summary of the activity in pollution remediation liability at June 30, 2026 and December 31, 2025 were as follows (in millions):

	June 30, 2026	December 31, 2025
Balance at beginning of year	$ 198	$ 201
Current year expenses/changes in estimates	(9)	51
Current year payments	(2)	(54)
Balance at end of year	187	198
Less: current portion	30	30
Long-term liability	$ 157	$ 168

The MTA's pollution remediation liability primarily consists of future remediation activities associated with asbestos removal, lead abatement, ground water contamination, arsenic contamination and soil remediation.

18. NON-CURRENT LIABILITIES

Changes in the activity of non-current liabilities for the periods ended June 30, 2026 and December 31, 2025 are presented below (in millions):

	Balance December 31, 2024	Additions	Reductions	Balance December 31, 2025	Additions	Reductions	Balance June 30, 2026
Non-current liabilities:							
Contract retainage payable	$ 500	$ 87	$ -	$ 587	$ 21	$ -	$ 608
Other long-term liabilities	267	24	-	291	-	(7)	284
Total non-current liabilities	**$ 767**	**$ 111**	**$ -**	**$ 878**	**$ 21**	**$ (7)**	**$ 892**

19. FUEL HEDGE

MTA partially hedges its fuel cost exposure using financial hedges. All MTA fuel hedges provide for up to 24 monthly settlements. The table below summarizes twenty-four (24) active ultra-low sulfur diesel ("ULSD") hedges in whole dollars:

Counterparty	Cargill	Cargill	Cargill	Goldman Sachs	Goldman Sachs	Goldman Sachs	Goldman Sachs	BOA_ Merrill
Trade Date	7/30/2024	8/28/2024	9/26/2024	10/31/2024	11/26/2024	12/23/2024	1/28/2025	2/24/2025

The monthly settlements are based on the daily prices of the respective commodities whereby MTA will either receive a payment, or make a payment to the various counterparties depending on the average monthly price of the commodities in relation to the contract prices. At a contract's termination date, the MTA will take delivery of the fuel. As of June 30, 2026, the total outstanding notional value of the ULSD contracts was 47.7 million gallons with a positive fair value of $27.1. The valuation of each trade was based on discounting future net cash flows to a single current amount (the income approach) using observable commodity futures prices (Level 2 inputs).

20. CONDENSED COMPONENT UNIT INFORMATION

The following tables present condensed financial information for MTA's component units (in millions).

June 30, 2026	MTA	Metro - North Railroad	Long Island Railroad	New York City Transit Authority	Triborough Bridge and Tunnel Authority	Eliminations	Consolidated Total

21. SUBSEQUENT EVENTS

On July 9, 2026, MTA effectuated a mandatory tender and remarketed $84.450 of Transportation Revenue Variable Rate Refunding Bonds, Subseries 2012G-1. The bonds will remain as Variable Interest rate Obligations in Daily Mode and will be backed by an irrevocable direct-pay letter of credit issued by TD Bank, N.A. with an expiration date of July 8, 2031.

On July 29, 2026, MTA executed a 2,696,431 gallon ultra-low sulfur diesel fuel hedge at an all-in price of $2.8524 (whole dollars) per gallon. The hedge covers the period from July 2027 through June 2028.

On August 28, 2026, MTA executed a 2,497,131 gallon ultra-low sulfur diesel fuel hedge at an all-in price of $3.0449 (whole dollars) per gallon. The hedge covers the period from August 2027 through July 2028.

On September 17, 2026, MTA Bridges and Tunnels issued $769.705 Real Estate Transfer Tax Revenue Bonds, Series 2026A. The proceeds of the Series 2026A Bonds will be used to (i) finance transit and commuter projects included in the MTA's approved capital programs; (ii) provide funds for deposit into the Senior Lien Debt Service Reserve Fund; and (iii) pay certain financing, legal and miscellaneous expenses.

On September 28, 2026, MTA executed a 2,664,411 gallon ultra-low sulfur diesel fuel hedge at an all-in price of $3.1049 (whole dollars) per gallon. The hedge covers the period from September 2027 through August 2028.

Notes to Schedule of MTA's Contributions for All Pension Plans (concluded)

Significant methods and assumptions used in calculating the actuarially determined contributions of an employer's proportionate share in Cost Sharing, Multiple-Employer pension plans, the NYCERS plan and the NYSLERS plan, are presented as notes to the schedule.

Factors that significantly affect trends in the amounts reported are changes of benefit terms, changes in the size or composition of the population covered by the benefit terms, or the use of different assumptions. Following is a summary of such factors:

Changes of Benefit Terms:

Refer to Note 5 Employee Benefits.

Changes of Assumptions:

There were no significant changes in the economic and demographic used in the June 30, 2024 valuation for the NYCERS plan.

There were no significant changes in the economic and demographic assumptions used in the April 1, 2024 valuation for the NYSLERS plan.
