B&T 1199	Senate	Golden, Martin	Sullivan, Brett	03/18/11	A Bay Ridge constituent has complained that a vacant lot under the Verrazano-Narrows Bridge, which they believe is Triborough Bridge and Tunnel Authority property, is filled with garbage. Senator is requesting that the lot be cleaned as soon as possible if it is, in fact, Triborough Bridge and Tunnel Authority property. The lot is located near Dahlgren Place between 92nd Street and Fort Hamilton Parkway in Bay Ridge, Brooklyn.	The General Manager of the Verrazano Bridge drove over from Staten Island to view the area referenced. There is a fenced area that is Triborough Bridge and Tunnel Authority property, and crew will be sent to clear any debris that people may have tossed in over the fence and any residue build-up from the extreme winter weather and accumulated snow of recent months once the rainy weather clears.	3/21/2011

B&T 1206	Assembly	Simotas, Aravella	Amore, Loren	04/01/11		Sent notification of a long-term single-lane closure coming up about a week from now at the Queens-to-Manhattan ramp at the RFK/Triborough Bridge, to allow for urgently needed roadway repairs. Starting Monday, April 11th, one of three lanes on the Robert F. Kennedy Bridge's Queens-to-Manhattan ramp will be closed round-the-clock until late fall while old concrete is drilled and removed, repairs made to steel, and a new roadway deck installed. The work, which is being done by Navillus Contractors of Manhattan, requires a seven-day-a-week, full-time closure of a portion of the left-hand lane on the ramp, which leads from the Queens viaduct into the Manhattan toll plaza. The impact to traffic is expected to be minimal since two lanes will remain open, and the third lane will be reopened on the ramp after the work zone, which involves about 1,200 feet of roadway. Signs will be in place to alert motorists of the closure.	4/1/2011

The situation involving the customer travel pattern was investigated and it was determined that for this particular Access-A-Ride customer walking to the nearest bus stop proved to be too difficult because of his medical condition. Therefore, this particular origin to destination was restored for Access-A-Ride service.	6/13/2011
B&T 1222	Senate	Klein, Jeffrey	Doyle, John	04/21/11		Sent notification that starting Tuesday, April 26th a new configuration will be in place at the Bronx-Whitestone Bridge's Bronx toll plaza heading to Queens while necessary deck replacement work is completed. The construction will require the round-the-clock closure of two toll lanes in the plaza. The work, which includes removal of old concrete, steel repair and installation of a new section of roadway decking, will be done on the Bronx side of the toll plaza as drivers head south towards Queens. The two closed lanes are located just right of the toll plaza's center. Construction work is expected to take approximately a month. The construction zone will result in the plaza being split with one E-ZPass and three cash lanes to the right and three E-ZPass lanes to the left. Signs will be posted in advance of the toll plaza so motorists driving from the Bronx will be able to navigate to either cash or E-ZPass lanes.	4/21/2011

B&T 1223	Senate	Klein, Jeffrey	Doyle, John	05/09/11	Prompted by resident complaints, Senator's staff requested representatives from City and State Departments of Transportation and MTA Bridges and Tunnels to meet with him at Harding Avenue exit near Throgs Neck Bridge. There were landscaping maintenance issues at the site which needed clarification as to ownership.	Throgs Neck Bridge and Bridges and Tunnels staff met with representatives from Senator Jeffrey Klein's office, State and City Departments of Transportation, and neighborhood residents at Harding Avenue exit area to hear concerns about visibility coming off newly opened (by NYS Dept. of Transportation) left exit lane. Concluded that other than property line confirmation, MTA Bridges and Tunnels is not the responsible agency for this issue, though it is adjacent to our bridge. Agreed to look into property line issue and get back to the Senator's staff.	5/9/2011

BusCo984	Assembly	Weinstein, Helene	Schupper, Yehuda	05/11/11	Constituent concerns regarding BM4 delays of up to one hour and replacement of bus stop signs at Aves U and T northbound.	Informed caller that the service delays were reported to the Assistant General Manager of Spring Creek Depot for monitoring of on-time performance. Also advised caller that the Avenue T bus stop and sign were eliminated in order to conform with the NYCDOT express bus spacing guides, but there is still a stop on Gerritsen Avenue and Avenue U. A reminder was sent to NYCDOT to replace the panels at that location.	5/13/2011

NYCT10778	Assembly	Titone, Matthew		5/17/11	The Assemblymen wrote on behalf of an Access-A-Ride customer who wanted full eligibility, and he wanted to understand how feeder service is used.	The Access-A-Ride customer, in order to receive full eligibility, reapplied for service and was reevaluated. Due to the customer medical condition, it was determined that he would now receive full eligibility. Feeder service is for conditionally eligible customers who are able to travel via regular bus, but who face barriers that prevent them from traveling directly to a bus stop. It is used only on fixed route buses and will bring a customer either directly to their destination or within a distance that does not exceed the customer's mobility limitations.	7/6/2011

Kennedy Bridge's Harlem River span will be closed to vehicular traffic on Wed., June 1st at approximately 3:30 AM for about 15 minutes to allow for the passage of marine traffic. This closure, which is required by the U.S. Coast Guard, will affect all vehicular traffic going into and out of Manhattan via the RFK/Triborough Bridge. Motorists are advised to seek alternate routes during this time to avoid delays. The time is approximate and dependent on marine traffic.	5/31/2011

B&T 1235	Senate	Golden, Martin	Sullivan, Brett	06/14/11	The Senator's office received calls recently from residents of Dahlgren Place, which runs parallel to the exit ramps of the Verrazano Bridge coming into Brooklyn. Their complaints concern the noise caused by vehicles coming off the bridge and continuing onto the highway. Parts of Dahlgren Place closer to the bridge have walls that serve as sound barriers from traffic noise, but other areas do not. The Senator would like to request that Bridge and Tunnels looks into the feasibility of installing walls along Dahlgren Place in the places where there are currently no walls to block the sound of traffic.	Explained that sound walls would not be feasible or effective at this location because of the different elevations of roadway vs. residences, and that this particular location was addressed in relation to sound walls several years back with the same conclusion. We have planted numerous trees and shrubs.	6/14/2011
