A New Era for MTA

Biden Administration Prioritizes Transit

- **American Rescue Plan**

- Rightfully recognizes the continued need to invest in and support mass transit systems nationwide

- **FEMA Policy Change**

- 100% reimbursement for pandemic-related costs
- Looking ahead, hopeful for reversal of policy that eliminated federal reimbursement for cleaning and disinfecting programs

We Hear You, New York

Fare Adjustments Deferred

- A record number of New Yorkers participated in the MTA's robust public hearing process – with many rightly raising concerns about a fare increase.
- As a result, a vote on the revenue-generating fare proposals for NYCT, LIRR, and MNR has been temporarily deferred for several months.
- Toll proposals are scheduled for review in February as planned.
