

# Manhattan Bus Map

### Bus stops

Most bus stops are marked with a tall, round sign with a bus symbol and route number. Most stops feature a bus schedule and route map. Between 10 p.m. and 5 a.m., you may ask the operator to drop you off anywhere along the route, if the operator can stop the bus safely, you will be let off the bus.

### Limited (LTD) buses

Limited buses look like local buses but make fewer stops. Look for "LTD" on the front of the bus and purple signs at bus stops.

### Express buses

Express buses look like coach buses and run between boroughs. Many operate only during weekday rush hours. Express buses are more expensive than local, limited, and Select buses.

### Select Bus Service (SBS)

Select Bus Service routes make fewer stops, travel on priority routes, and board at all doors. Select bus routes are indicated by light blue signs.

### Tap to ride

Tap your smartphone, wearable device, contactless credit or debit card, or OMNY Card on the OMNY reader to pay your fare on any bus.

### OMNY Card

You can buy or load an OMNY Card with value at an OMNY vending machine in subway stations and at select stores near you ([omny.info/retail](https://omny.info/retail)). You can also reload your OMNY Card or set up automatic reloads at [omny.info](https://omny.info) with a free, optional OMNY account.

### Transfers

Transfers between local buses, limited buses, Select buses, and the subway are free. Transferring to an express bus costs the difference in fares. Make sure you tap the same card or device on each leg of your trip to get your transfer.

### Ways to save

Visit [mta.info/save](https://mta.info/save) for tips on fare discounts. When you pay for 12 trips with the same card or device in seven days, any other trips in that seven-day period are free. Your count resets every seven days and restarts with your next tap. Free transfers and taps for others in your group do not count toward free rides.
